was cured by Doan's Kidney Pills after eight years of tor-

Henry Soule of Pultney St., Hammondsport, N. Y., says: "For eight years I suffered constant agony from kidney complaint. I endured the worst torture from gravel and the kidney secretions were excessive and contained sediment like brick dust. I had to get out of bed from ten to twenty times a night and the loss of sleep wore me out. Indigestion came on and the distress after eating was terrible. Doan's Kidney Pills effected a complete and lasting cure, and after the symptoms of kidney trouble were gone my stomach began to work as it should. This lasting cure, especially in a person of my age, proves the | referring to lynchings in the North at great value of Doan's Kidney Pills more convincingly than could any words of mine."

Japanese Viscountess.

Viscountess Hayashi, wife of the Japanese ambassador to England, is a very charming member of the diplomatic circle, and both she and her husband possess hosts of friends. She owns the quaint and pretty name Misao. On certain days during the season the Japanese legation in Grosvenor Gardens sees an influx of Japanese visitors, who are entertained after the fashion of the far East with curious cake and native dishes, and Japanese tea. Viscountess Hayashi is an exceedingly cultivated woman, who shares her husband's love of England. The Japanese ambassador was, indeed, educated in England, and is a D. C. L. of Oxford university.

There is more Cataryh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors promounced it a local disease and prescribed local remedies, and by coortantly falling to cure with local treatment, promonneed it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Tuisso, Ohio, is the only constitutional cure on the market. It is taken internally in doses from it drops to a teaspoonful. It acts directly on the broad and mutous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send Address; P. J. CHENKY & CO., Toledo, Oblo.

Southerner Says His People Do Not Attack Women and Children.

LYNCHING IN EXTREME CASES

Justifies Summary Punishment Where Brutes of Either Color Violate the Persons of Mothers and Sisters to Save Them Appearing in Court.

Washington dispatch: "Unlike the people of the North, the people of the South do not out with a torch in one hand and a gun in the other, and, pointing the gun at defenseless women and children, shoot them as they flee for their lives." This Mr. Spight of Mississippi said in the House of Representatives in a speech in which he said he wanted to vindicate the people of the South of the charge of barbarism. He said "such race prejudice finds no place in southern hearts, Danville, Ill.; Springfield, Ohio, and in New York City, where he said in 1900 the innocent had been pursued to avenge the crime of the guilty.

One Crime Deserves Lynching. Mr. Spight said he was opposed to violence as a "general proposition." He said:

"I do not think that lynching for any other crime than the nameless one against womanhood ought ever to occur. In all others the courts of the country are ample and generally, with us, swift to punish. - But in the one class of crimes so brutal and destructive of all that is dear to an enlightened people, no one with a spark of manhood in him can doubt that instant death to the perpetrator should follow upon the ascertainment of the guilty facts. The poor suffering woman who has been the victim of the devilish lust of a brute, white or black, should not be compelled to appear in court and repeat before a jury the horrible details of the outrage."

He referred to the Wilmington, Del. lynching last year and to the subsequent attacks on the negro settlement. This never occurred in the South, he sickness and insure a healthy, happy said. "When the guilty wretch has paid the penalty of his awful crime, that is the end of it; the mob is satisfied and does not wreak indiscriminate vengeance upon the innocent because they belong to the same race as the criminal."

Danger in Social Equality.

Mr. Spright spoke of the attempt of certain white persons to put the negro on a social equality with themseives, and, referring to the occasion when Booker Washington dined at the White House with President Roose veit, said that "this one incident had done more to inflame the passions of the negro and give him a perverted idea of his importance and his near approach to social equality than any thing that had been done for the last ten years." He said Booker Washington had sat down to dinner with the president "as graciously as if he had been the governor of New York." He was, he continued, sorry that Mr. Washington did not have more sense and self-respect than to accept the invitation. "The more the negroes tive Index makes it convenient for are put on a social equality," he vig- quick reference. orously asserted, "the more dangerous becomes their position, and the surer death by violence will overtake them sooner or later."

Timber and Stone Act.

Washington dispatch: The senate committee on public lands, after contest extending over two years, in which an attempt was made to repeal all of the general land laws of the country, has authorized a favorable report on Senator Quarles' bill to repeal the timber and stone act. As reported, the bill has a provision authorizing the secretary of the interior to sell at public sale or otherwise the right to cut timber on government lands. The bill was amended to provide that the money derived from the sale of these rights should be covered into the reclamation fund for irrigation purposes, and is now identical with one introduced two months ago by Senator Hansbrough, chairman of the committee, and for which he held out persistently.

Favor Babcock for Leader.

Washington dispatch: Fight for control of the next House of Representatives will be opened next Monday when the Republican senators and repesentatives will meet and organize the committee which will conduct the next congressional campaign. Republican congressmen generally favor the choice of Representative Babcock of Wisconsin as chairman of the congressional committee. The Democrats have not set the date for organizing their congressional committee.

Timber Land Exchange.

Washington dispatch: The House committee on public lands has agreed to amendments which it will recommend to the bill prohibiting the selection of timber lands in lieu of lands in forest reserves, so as to allow the exchange, providing a clause to prevent persons who have acquired timber lands and deunded the same from exchanging such lands for valuable timbèred lands elsewhere.

Hobbies have been known to d velop into absolute crazes, and it has been argued that, carried to excess, they occasionally invert our moral equilibrium. Yet hobbies reasonably treated have many points in their favor, and they have often been an undoubted boon to young people of both

We all know the boy or girl who has passed through the various phases of collecting, from white rats, rabbits and guinea pigs to birds' eggs and postage stamps; of the latter many boys possess collections of value. The picture postcard has evidently come to stay; it makes a pleasant souvenir of one's travels, and is indulged in by old and young indiscriminately.

The latest grown-up fad is the collection of liqueur bottles, which are to be had in many quaint shapes. They are quite a familiar sight now in drawing rooms, on mantlepleces or tables.

Princess Ferdinand of Bulgaria collects perfume bottles, and inherited a collection from a relative which is said to be worth £5,000.

For Growing Girls.

West Pembroke, Me., March 21-Mrs. A. L. Smith of this place, says that Dodd's Kidney Pills are the best remedy for growing girls. Mrs. Smith emphasizes her recommendation by the following experience:

"My daughter was thirteen years old last November and it is now two years since she was first taken with Crazy Spells that would last a week and would then pass off. In a month she would have the spells again. At these times she would eat very little and was very yellow, even the whites of her eyes would be yellow.

"The doctors gave us no encouragement, they all said they could not help her. After taking one box of Dodd's Kidney Pills, she has not had one bad spell. Of course, we continned the treatment until she had used in all about a dozen boxes, and we still give them to her occasionally, when she is not feeling well. Dodd's Kidney Pills are certainly the best medicine for growing girls."

Mothers should heed the advice of Mrs. Smith, for by so doing they may save their daughters much pain and future for them.

A Bird's Foot.

The typical vertebrate limb, variously modified in the arm of a man or the forelimb of a cat or frog or bird, has one bone in the upper arm, which gives support to two in the forearm. which similarly yield to four at the wrist and from these five digits can just comfortably be extended. The bird, however, decided to fly rather than grasp with its hand, so that three and a half fingers are all it has retained of the five which its reptilian ancestors bequeathed to it.
