

HAPPY WOMEN.

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. She finds relief and cure?

No reason why any reader should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I never knew what it was to have good health. Every physician consulted said I had liver trouble, but their medicines did me no good. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures, the kidney secretions were annoyingly irregular and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed one hundred pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Writer Jests With Lawyers.

Anthony Hope Hawkins at a recent Author's club dinner in London, at which Lord Chief Justice Mathew was the principal guest, described the relation between law and letters as a "dumping" relation—falling at law, a man generally going over to literature. Nor is the legal training wholly lost on writers, according to Mr. Hawkins, since through it they sometimes gain a certain "nebulousness, which is considered a mark of great profundity."

10,000 Plants for 10c.

This is a remarkable offer the John A. Salzer Seed Co., La Crosse, Wis., makes. They will send you their big plant and seed catalog, together with enough seed to grow:

- 1,000 solid Cabbages.
1,000 delicious Carrots.
1,000 blanching, nutty Celery.
2,000 rich, buttery Lettuce.
1,000 splendid Onions.
1,000 rare, luscious Radishes.
1,000 gloriously brilliant Flowers.
This great offer is made in order to induce you to try their warranted seeds—for when you once plant them you will grow no others, and ALL FOR BUT 10c POSTAGE, providing you will return this notice, and if you will send them 20c in postage, they will add to the above a package of the famous Berliner Cauliflower. Won From Stage to Church.

Rev. Wilson S. Fritch, pastor of Pilgrim church, an independent congregation in Attleboro, Mass., recently decided to abandon the ministry and go upon the stage. At the urgent solicitation of his flock he has reconsidered his determination and will remain in charge of the church, with which he has been connected for three years.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. It is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and the patient's strength by building up the constitution and restoring nature in doing its work. The proprietors have no small faith in its curative power, and they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Catarrh Cure for constipation.

Don't you know that Defiance Starch, besides being absolutely superior to any other, is put up 16 ounces in packages and sells at same price as 12-ounce packages of other kinds?

"And were you ever engaged before, dearest?" he asked.

"Oh, never in earnest," she replied.

"Only occasionally, you know, at the summer resorts and winter resorts."

Hundreds of dealers say the extra quantity and superior quality of Defiance Starch is fast taking place of all other brands. Others say they cannot sell any other starch.

"Tankley is quite a star as an after-dinner speaker."

"Star! He's more like the moon. The fuller he gets the more brilliant he is."

Dealers say that as soon as a customer tries Defiance Starch it is impossible to sell them any other cold water starch. It can be used cold or boiled.

OPINION OF THE EDITOR OF THE "NEBRASKA FARMER."

He Expresses His Approval of American Emigration to Canada.

During the winter months the head of the family consults with the other members as to the prospects for the future, and doubtless one of the most interesting topics discussed is that of moving to some district where it is possible to more easily secure what is necessary for a comfortable existence, where it is an easy matter to become possessed of sufficient farm land to assure a competence for the future. This, not only interests the head of the family, but every individual member of it.

Having before me the knowledge where he can secure a home with the expenditure of but little money, it is well for him to obtain all information possible regarding the productiveness of the land in the country that he may select. For several years past a large number of Americans have removed to Western Canada, and as nearly as it can be ascertained almost all of these have expressed themselves satisfied with the conditions that exist there. During the past summer a number of the editors of farm papers throughout the United States made a personal visit on a tour of inspection and the reports of these gentlemen prove interesting reading. Mr. H. E. Heath, editor of the "Nebraska Farmer," a paper enjoying a wide circulation as well as the confidence of its subscribers, after giving some idea of the extent of this wonderful country says:

"Western Canada is the last unoccupied and improved good agricultural land in America available to-day."

He then discusses its possibilities for raising live stock and the advantages it possesses for dairying, farming and wheat growing, and says, "What has been said about the country as to the ability of the soil, the yield of wonderful crops of wheat, is quite justified."

To quote further from Mr. Heath, he says, referring to climate:

"These people (skeptical ones) do not know or realize that altitude more than latitude makes climates; that large bodies of water, both fresh and salt, that never freeze over, exert a wonderful influence on climate. Another influence on climate, more potent than those named above, which applies more to the Alberta district, is the warm Chinook breeze from the Pacific ocean, which is 600 or 700 miles nearer than Colorado or Wyoming, besides the Rocky Mountain range is not nearly so high nor half so far from the ocean as it is down in the States."

"In further considering the climate of the Canadian prairies, we should not lose sight of the fact of the influence of the rains; the total average rainfall for the season is but 13.25 inches for the territories, and 17.34 inches in Manitoba, and that the amounts falling between April 1st and October 1st are respectively 9.29 inches and 12.87 inches or about three-fourths of the entire rainfall. From the middle of June to the middle of July there are over two hours more daylight in every twenty-four hours than there is in Nebraska. The main reason why Western Canada wheat grows to such perfection is the effect of solar light, or longer period of sunshine it gets each day. This is what makes seeds or grain more perfect, grown in this country than elsewhere. This extraordinary rapid growth of vegetation under the influence of this long continued sunshine exceeds anything known in lower latitudes."

"We do not wish it understood that wheat alone is the main product of this country; it leads in that, yet it is destined to become famous for its cattle, horses and sheep and for its dairy products. We saw more and larger bands of cattle and sheep grazing in Assiniboia and Alberta than we ever saw on the western plains of the United States. One band of cattle numbering 5,000 head were grazing on the rich grass, and sheep without number."

The government of the Dominion of Canada is still using the same energetic efforts which have been used for the past 5 or 6 years to settle up these western prairies, and on application to any Agent of the Canadian Government the settler will be able to secure a certificate entitling him to a low rate which will give him the opportunity of visiting any portion of Canada's grain producing domain.

Prayer in Human History.

A vast historical experience lies behind the practice of prayer. Millions have lived and died in the belief that God does hear and answer the prayers of His people. Men and women to-day are just as sure that God has heard their prayer as they are of his existence, and this is not a new thing in the history of the world. If it were of no use, men would have dismissed it from one practice. It is not like the photograph, or wireless telegraphy, something belonging to the present generation and to that alone; the best and noblest of men and women have fully and earnestly believed in prayer. Anything which has justified itself for 20 centuries of thoughtful the whole of human history must have value, and it must have value in experience, or the best of mankind would not have indulged in it so long.

Decrees for Hannis Taylor.

The University of Edinburgh has conferred the degree of doctor of laws on Hannis Taylor, the former United States minister to Spain. The same honor was conferred some time ago by the University of Dublin. Mr. Taylor will receive the degree at Dublin the last of June and at Edinburgh early in July. His textbooks are used in both universities.

CITIES COLLECT THE DUST.

German Municipalities Guard Against the Spread of Certain Diseases.

As is well known, many diseases are widely disseminated in cities by the dust that fills the air and percolates into houses and vehicles of every sort. To minimize as far as possible the danger to the public health from this cause the municipal regulations of Berlin insist that refuse, ashes and all that is generally though inaccurately summarized by the term "dust" should be carried through the streets in airtight receptacles. This has set ingenuity to work in the invention of both dustbins and dustcarts, and by means of suitable arrangements in the latter it has been found possible to take away household refuse without defiling the streets with either the offensive smells or the infectious dust from which we suffer here.

More perfect than any dustcart is the "substitution system." By this plan each household has two dustbins, of which, however, only one is in his actual possession at a time. This, when full, is carried away bodily in the dustcart, in which has been brought back the empty one for use until the cart calls again.

A Wonderful Discovery.

Broadland, S. D., March 28.—Quite a sensation has been created here by the publication of the story of G. W. Gray who, after a special treatment for three months was prostrate and helpless and given up to die with Bright's Disease. Bright's Disease has always been considered incurable, but evidently from the story told by Mr. Gray, there is a remedy which will cure it even in the most advanced stages. This is what he says:

"I was helpless as a little babe. My wife and I searched everything and read everything we could find about Bright's Disease, hoping that I would be able to find a remedy. After many failures my wife insisted that I should try Dodd's Kidney Pills. I praise God for the day when I decided to do so for this remedy met every phase of my case and in a short time I was able to get out of bed and after a few weeks' treatment I was a strong, well man. Dodd's Kidney Pills saved my life."

A remedy that will cure Bright's Disease will cure any lesser Kidney Disease. Dodd's Kidney Pills are certainly the most wonderful discovery which modern medical research has given to the world.

NO APPETITE—EMACIATED—NERVOUS

Many Women During the Spring Months Suffer From Extreme Lassitude, Loss of Appetite and Nervousness—What They Need Is

Pe-ru-na, the Great Tonic

Miss Bertha M. Rush, 5435 Kincardine street, Pittsburg, Pa., Superintendent Junior Society of Methodist Protestant Church and leading Soprano of the choir, writes: "Words cannot describe my thankfulness to you for Peruna. I was a sufferer from systemic catarrh for years and was in a very much run-down condition. I was extremely nervous and had the most foolish fears over nothing. I was thin and emaciated."

"My physician advised me to leave this climate, but as it was not convenient to do so at this time, I took the advice of a friend to use a bottle of Peruna. I took it faithfully and when the first bottle was gone I felt so much better that I bought six more and took them faithfully, after which I looked like a new woman."

"I gained in flesh, my appetite returned and all my old symptoms had disappeared. I am more than thankful to Peruna."—Miss Bertha M. Rush.

I AM TIRED.

Everybody is Tired—Spring Weather Does It—Every One Should Be Cautious.

Depression of the nervous system at the approach of spring is the cause.

General lassitude, dull, heavy sensations, continual tired feeling, with irregular appetite, and sometimes loss of sleep. Peruna meets every indication and proves itself to be perfectly adapted to all their varied peculiarities. Peruna invigorates the system, rejuvenates the feelings, restores the normal appetite and produces regular sleep.

"That tired feeling which is the natural result of the depressing effect of warm weather immediately after the invigorating cold of winter, quietly disappears when Peruna is taken. Thousands are daily testifying to its priceless benefit."

Mrs. H. Kassatt, 1309 West 13th street, Des Moines, Ia., writes: "I am happy to give my endorsement for your valuable medicine, Peruna, as I consider it a valuable medicine to take when the system is run down from overwork. About two years ago I felt that I must take a long rest as I had been unable to work for over a month and could not regain my strength. I could not sleep at night and was in a very nervous, high strung, condition. I decided to try what Peruna would do to build up my strength, and am pleased to say that I began to improve very shortly, and in less than two months I was able to take up my work, and felt better than I have for years. I take it now twice a year and find that it keeps me in perfect health." Mrs. Kassatt was for over ten years the manager of a plant furnishing ladies' wear and employing hundreds of women.

Tired, Nervous Women.

There are thousands of them everywhere. A few bottles of Peruna would do them untold benefit. As a tonic and nerve invigorator it has no equal. It builds up the nerves, it gives strength to the circulation and at once restores the appetite and digestion. No feeble woman should be without Peruna.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.
