**During Attacks of Heart Failure. Would Appear To Be Dead.**

**Dr. Miles' Heart Cure Relieved and Cured.**

"I have no hesitation in saying that Dr. Miles' Heart Cure is all that one can wish it to be. I was troubled with heart disease for fifteen years. I have tried many different remedies but until I tried Dr. Miles' Heart Cure I could find no relief. I was subject to headaches and had tried your Pain Pills and they were so effective I thought your Heart Cure might help me. I would have attacks at times so severe that I would be stone blind for the time being. During these spells I would be to all appearances dead. I took the medicine strictly as directed and I can truthfully say that I am completely cured. I advise all that are troubled with heart disease to take Dr. Miles' New Heart Cure at once. I write this and give my name to my fellow sufferers."—S. E. Purdy, Atkinson, Nebraska.

"I first felt the effects of a weak heart in the fall of 1896. I saw an advertisement in the Sioux City paper in which a man stated his symptoms which seemed to me to indicate a trouble similar to mine. I had a soreness in the chest at times, and in my shoulder, an oppressive choking sensation in my throat and suffered from weak and hungry spells. I was truly frightened at my condition and procured six bottles of Dr. Miles' Heart Cure. Since taking my first bottle I have never been bothered by any of the old disagreeable symptoms and now am well and contented in my permanent home."—Lewis Anderson, Kansas, Mo.

All druggists sell and guarantee first bottle free. If not cured, refund for first bottle. Send for free book on Heart and Blood Diseases. Address: Dr. J. C. Miles, Little Rock, Ark.

## THE UNIVERSAL EXPOSITION

The Achievements of Individuals and Nations Faithfully Recorded by This Encyclopedia of Society.

By FREDERICK J. V. SKIFF, Director of Exhibits, World's Fair.

"The wisdom of all ages is none too great for the world's work." In this single salient sentence, uttered in his famous address at Buffalo in September, 1901, President McKinley described the object and the result of expositions.

A modern universal exposition is a collection of the wisdom and achievements of the world, for the inspection of the world, for the study of its experts, by which they may make comparisons and deduction and develop plans for future improvements and progress. Such a universal exposition might well be called an encyclopedia of society. It constitutes a classified, compact, indexed compendium of the achievements and ideas of society in all phases of its activity, extending to the most material as well as the most refined. It offers illustrations covering the full field of social performance, from the production of the shoes on our feet and the pavement beneath them to a presentation of the rarest and most delicate creations of the brains and hands of men in what are called the fine arts of civilization.

The Universal Exposition in St. Louis in 1904 will be such a social encyclopedia in the most comprehensive and accurate sense. It will give to the world in revised and complete details "a living picture of the artistic and industrial development at which mankind has arrived" and will actually provide "a new starting point from which all men may direct future exertions." It will present for the inspection of specialists in all lines of industrial and social endeavor and for the public an assembly of the best which the world has done and has to show in industry, art and science, and, what is very important, it will offer these achievements of society, these trophies of civilization, in a highly selected, accurately classified array.

The creators of the St. Louis Exposition have had the experience of all previous great expositions by which to plan and effect its high organization. The continuous and repeated burden of the message of experience handed down by all expositions has been more perfect, more effective classification and arrangement of exhibits.

The classification of the St. Louis Exposition has been prepared to present a sequential synopsis of the developments that have marked man's progress. On its bases will be assembled the most highly organized exposition the world has yet seen. The St. Louis classification is divided into 16 departments, 144 groups and 507 classes. These grand departments in their order will record what man has accomplished at this time with his faculties, industry and skill and the natural resources at his command in the environment in which he has been placed.

At the head of the Exposition classification has been placed Education, through which man enters social life. Second comes Art, showing the condition of his culture and development. Liberal Arts and Applied Sciences are placed third, to indicate the result of his education and culture. Illustrate his tastes, and demonstrate his inventive genius, scientific attainment and artistic expression. These three departments equip him for the battle and prepare him for the enjoyments of life. The raw material departments, Agriculture, Horticulture, Mining and Forestry, show how man conserves the forces of nature to his uses. The Department of Manufactures will show what he has done with them; the Department of Machinery the tools he has used. The Department of Transportation will show how he overcomes distances and secures access to all parts of the world. The Department of Electricity will indicate the great forces he has discovered and utilized to convey power and intelligence. And so through the several departments to Anthropology, in which man studies man; and to Social Economy, which will illustrate the development of the human race, how it has overcome the difficulties of civilization and solved problems in which society is involved. Last is placed physical culture, in which man, his intelligence having reached the supreme point, is able to treat himself as an animal, realizing that his intellectual and moral constitutions require a sound physical body to prompt them to the proper performance of their function.

Education is the keynote of the Universal Exposition of 1904. Each department of the world's labor and development will be represented at St. Louis, classified and installed in such manner that all engaged or interested in such branch of activity may come and see, examine, study and go away advised. Each of the separate sections of the Exposition will be an equivalent of—or, rather, will be in actuality a comprehensive and most effective object lesson in—the line of industrial and social achievement and progress which its presents.

Cost of Seeing the World's Fair. From any point within 300 miles of St. Louis a person may travel to the World's Fair this year, view the wonders of the Exposition for three days and expend the same money he would pay in any other year for train fare alone. This is an absolute fact.

The Western Passenger Association has agreed on a ten day excursion rate, 250 miles or more from St. Louis, for one and one-fifth fare for the round trip.

### NOTICE.

The water rates for the quarter ending April 30, 1904, are now due and payable at the office of the village collector. J. W. NASH.

### ENGRAVED CALLING CARDS.

A neatly engraved card in shaded Old English is the proper thing just now. Call at our office and see samples and learn prices.

### A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble physicians could not help her. He thought of and tried Dr. King's New Life Pills that she got relief at once and was finally cured. Only 25c

Free sample to agent. Practical, ready call device for telephones. Saves brain work and hours of time. Sells itself; one sale sells dozens; seeing is believing; send stamp. The Telephone Appliance company, 1 Madison avenue, Dep. F. A. D., New York City.

The Q. A. M. Pleasure club will give a dance at the Auditorium next Thursday evening, May 19. The ideal orchestra of six pieces will furnish music and a good time is anticipated. As this is the closing dance of the season nothing will be left undone that will add to the enjoyment of those attending. Admission 50 cents.

Money cannot buy better pianos than are made right here in Downers Grove by the Straube Piano company. You can prove this yourself by calling at their factory and examining the instruments as they come direct from the hands of skilled workmen. The price is right too. No middlemen's profit—you get the goods direct from the manufacturer. John Olsen will be glad to show the instruments to prospective purchasers at any time. Call on him today.

# What Becomes of It

If a man eats two pounds daily, near two pounds daily must in some way pass from his body, or disease and a premature death is a speedy and inevitable result. The food that is eaten must contain the elements necessary to supply nutriment to the system and free from all substances that bind the bowels.

# DR. PRICE'S WHEAT FLAKE CELERY FOOD

If eaten daily there will be a daily action of the bowels; waste removed, nutriment retained. It's Nature's food for man. Served hot or cold.

## DEAFNESS CURED

LOUISVILLE MAN ORIGINATES A SIMPLE LITTLE DEVICE THAT INSTANTLY RESTORES THE HEARING Fits perfectly, comfortably, does not show.

190-Page Book Free Tells All About It.

Since the discovery of a Louisville man it is no longer necessary for any deaf person to carry a trumpet, a tube, or any such old-fashioned device, for it is now possible for any one to hear perfectly by a simple invention that fits in the ear and cannot be detected. The honor belongs to Geo. H. Wilson of Louisville who was deaf himself and now hears as well as any one. He calls it Wilson's Common Sense ear drum, is built on the strictest scientific principles, containing no metal of any kind, and is entirely new in every respect. It is so small that no one can see it, but, nevertheless, it collects all sound waves and directs them against the drum head, causing you to hear perfectly. It will do this even when the natural ear drums are partially or entirely destroyed, perforated, scarred, relaxed or thickened. It fits any ear from childhood to old age, and aside from the fact that it does not show, it never causes the hearing irritation, and can be used with comfort day or night.

It will cure deafness in any person, no matter how acquired, whether from catarrh, scarlet fever, typhoid or influenza, measles, whooping cough, gathering in the ear, shocks from artillery or through accidents. It not only cures but stays the progress of deafness and all roaring and buzzing noises. It does this in a simple, sure and scientific way. The effect is immediate.

Let every one who needs this at once send to the company for its 190 page book, which you can have free. It describes and illustrates Wilson's Common Sense ear drums and contains many bona fide letters from numerous users in the United States, Canada, Mexico, England, Scotland, Ireland, Wales, Australia, New Zealand, Tasmania, India. These letters are from people in every station of life—clergy, men, physicians, lawyers, merchants, society ladies, etc.—and tell the truth about the benefits to be derived from the use of this wonderful little device; you will find among them the names of people in your own town or state and you are at liberty to write to any of them you wish and secure their opinion as to restoring the hearing to its normal condition.

Write today and it will not be long before you are again hearing. Address, for the free book and convincing evidence, Wilson Ear Drum Co., Todd building, Louisville, Ky., U. S. A.
