ROCEEDINGS

BOARD OF SUPERVISORS

At its regular meeting, held at the court house in the city of Wheaton, on Monday, the 13th day of June, A. D. 1904, pursuant to statute.

Meeting called to order with Supervisor Betts presiding. On roll call all members present, except Supervisor Bartlett.

Minutes of last preceeding meeting read and declared approved. All bills and communications on file with the clerk were read and referred to

their respective committees. The following report of Finance committee was on motion of Supervisor Churchill approved:

Wheaton, Ill., June 10, 1904. To the Honorable Chairman and Gen tlemen of the Board of Supervisors of Du Page county, Illinois:

Your Committee on Finance begs to report that we met at the court house State of Illinois, in Wheaton on June 8th and 10th, 1904, County of Du Page (88 and examined and checked the books and accounts of the county clerk, circuit clerk and recorder, sheriff and county superintendent of schools, and find the same correct, as per their reports herewith presented, which we recommend approved and ordered of record.

Respectfully submitted. Wm. Hammerschmidt, C. D. Bartlett, Geo. A. Fischer,

Committee. Mr. Chairman and Gentlemen of the

Board of Supervisors: I herewith submit my annual report of fees earned and received by me as county clerk for the half year commencing December 1st, 1903, and ending May

31st, 1904.

Subscribed and sworn to before me, this 7th day of June, A. D. 1904. H. F. Lawrence, County Clerk.

The following report of Committee on county farm was, on motion of Supervisor Neddermeyer, approved, and committee also extended a vote of thanks: To the Honorable Chairman and

Board of Supervisors of Du Page

Your committee on County, farm would most respectfully report that our farm. as you know, contains 143 acres, on which are barns, cattle sheds, hog pens and hen house and a magnificent alms house, tenement house and fruit and vegetable house, which was constructed last fall, and the refrigerating plant, just completed and accepted from the contractors by your committee on the 9th day of June, 1904, which we believe to livery barn, Naperville. be the most perfect of its kind. The refrigerating room is divided into three rooms, one for meat, one for milk, butter, eggs and such necessaries as are usually kept in such places, and one room for the cutting and handling of meats. The building is fourteen feet by twenty feet, of brick construction, insulated sulted in the most approved manner, the total cost of which is

At present we have fifty inmates at the alms house, and with our conveniences and apparatus, and by making special effort in raising vegetables and producing our milk, butter and meats, Board of Supervisors: we believe we can make the farm self-

supporting. On March 1, 1903, there were born 35 pigs; they were sold January 1, 1904, for \$409.74. On October 1, 1903, there were born 38 pigs; they were sold May 5, 1904 for \$330.35. Total receipts from hogs \$740.09. On hand: 9 fat hogs, 9 brood sows, estimated value \$180, 40 pigs and one store hog, estimated value \$108 Total in hogs, \$1,025.09. On Sept. 16. 1903, there were bought 200 ewes for \$800, four bucks, \$40; total cost of sheep \$840. Wool sold, \$169.78, May 17, 1904. sold 101 ewes for \$653.68. Jan. 7, 1904 sold 90 head of ewes \$443.42. Total receipts from sheep, \$1,266.80. On hand, 180 lambs, five fat ewes, estimated value \$740; total value of sheep from all sources, \$2,006.80. Deducting the cost, \$840,

total amount in our favor, \$1,166.80. On September 16th 1903, your committee bought five heifers and one bull paying for them out of county farm funds \$248.49. The heifers have all had calves and have increased in value at

least one third. We have at present 13 head of cattle and five horses, besides the lambs and hogs above enumerated. All this stock has been fed, and hogs and sheep fattened, on grain raised on the farm, except two tons of oil meal and one car of bran; and we have enough left to carry us to

next crop, which is very promising. We would further report that the manner in which the alms house is kept, the other buildings and the grounds, and the most thorough manner in which the crops are taken care of, is a source of pride and satisfaction to your committee, and as we believe, to the people of Du Page county.

Respectfully submitted Chairman

The following resolution was presented by Supervisor Churchill, and on his motion, approved: On the 11th day of October, 1897,

Mr. and Mrs. E. B. Howe commenced bursements of Institute fund, from De- work for the county at a salary of \$780 cember 1, 1903, the date of my last re- per year. After two year's service their salaries were increased to \$1,000 per year. Since that time the duties and responsibilities have nearly, if not quite doubled. \$18.18

The salaries of all county officers and clerks have been materially increased. The Grand Juries and Board of Supervisors have commended the services of Mr. and Mrs. Howe. They have not only performed all the duties required of them, but have been courteous and kind to all our people who have called at the county farm, and made them feel at home. We believe that they are entitled to some substantial recognition, therefore, Be It Resolved, That their sala \$93.18 ries be increased from \$1,000 per year to \$1,200 from and after this date.

On motion of Supervisor Hammer schmidt the committee on county sup plies were instructed to investigate the advisability of purchasing an adding machine, and if in their discretion one was deemed necessary, they were authorized to purchase same.

On motion of Supervisor Hammerschmidt, the salary of each member of the Board of Review for 1904 was fixed

RUMORS BY RAIL

40.85 A fine new passenger engine, No. 2700, elaborately decorated and lettered in gold, has been assigned to service on this division of the Burlington and made its first trip on one of the fast through trains Thursday morning.

> the most serious that has occured on the main line in many years. That many passengers were not killed is considered a miracle by the railroad men. The wreck was undoubtedly caused by a bolt or other piece of iron falling from the tender; as a bolt was found near the track after the derailed train had been righted and sent on its way by the wrecking crew. Meriden is the first station this side of Mendota.

The plans for greater trackage facilities which the Burlington officials agreed upon early in the spring of this year are, as yet, only on paper it seems. The inconvenience to its many suburban patrons, our merchants, and street improvement contractors in general is still as great as ever.

The paving gang has been held back continually because of inadequate transportation facilities. Freight shipments from the city are always delayed, as are the suburban trains. No freight trains are run between the hours of 6 and 8 a. Bloomingdale: Henry Pigton, Henry of the new Main street paving was laid m. and 5 and 7 p. m., thus practically immediate. prohibiting the arrival of freight.

Additional tracks would obviate this difficulty and the plans referred to pro- tains many bona fide letters from numerous vided for three tracks from Belmont to England, Scotland, Ireland, Wates, Australia, Aurora, and four east of Belmont.

During the past two weeks a new system of switches and signals has been in stalled at Fola, from which station a third track is now in operation into the Auro-Can anything be worse than to feel ra yards. What is now needed is the hearing to its normal condition extension of that third track eastward Such was the experience of Mrs. S. II. to Belmont, a distance of eleven miles, book and convincing evidence, Wilson Ear

pany's yards at Western avenue about eighteen miles. This will give Downers Grove ample passenger and freight service—a double track each way for each service.

The wreck at Meriden Friday of the LOUISVILLE MAN ORIGINATES A Burlington fast train, number 13, which SIMPLE LITTLE DEVICE THAT INleaves a cloud of dust behind it at STANTLY RESTORES THE HEARING Downers Grove about 9:45 daily, was Fits perfectly, comfortably, does not show.

190-Page Book Free Tells All About It.

Since the discovery of a Louisville man it is no longer necessary for any deaf person to carry a trumpet, a tube, or any such old fashioned device, for it is now possible for any one to hear perfectly by a simple invention that fits in the ear and cannot be detected. The honor belongs to Geo. H. Wilson of Louisville, who was deaf himself and now hears as well as any one. He calls it Wilson's Common Sense ear drum, is built on the strictest scientific principles, containing no metal of any kind. and is entirely new in every respect. It is so small that no one can see it, but, nevertheless, it collects all sound waves and diverts them against the drum head, causing you to hear perfectly. It will do this even when the natural ear drums are partially or entirely destroyed, perforated, scarred, relaxed or thickened. It fits any ear from childhood to old age, and aside from the fact that it does not show, it never causes the hearer irritation, and can be used with comfort

It will cure deafness in any person, no matter how acquired, whether from catarrh, scarlet fever, typhoid or brain fever, measles, whooping cough, gathering in the ear, shocks from artillery or through accidents. It not only cures but stays the progress of deafness and all roaring and buzzing noises. It does this in a simple, sure and scientific way. The effect is

Let every one who needs this at once send to the company for its 190 page book, which you can have free. It describes and illustrates Wilson's Common Sense ear drums and conusers in the United States, Canada, Mexico, New Zealand, Tasmania, India. These letters are from people in every station of life-clergy. men, physicians, lawyers, merchants, society ladies, etc., -and tell the truth about the benefits to be derived from the use of this wonderful little device; you will find among them the names of pesple in your own town or state and you are at liberty to write to any of them you wish and secure their opinion as restoring the
