THEY say the democrats are "turning up things" in Indiana. They must be running the Illinois campaign over there.

So LA FOLLETTE has won official recognition for his ticket in Wisconsin. Another triumph for decency in public life.

AUTOMOBILE racing appears to be a quiet and innocent pastime. Only one man was killed in the race for the Vanderbilt cup.

THE Chicago delegation to the Saint Louis exposition had a great time on Chicago day, but we have no reports about the day after.

AN INSPECTION of the program recently issued by the woman's club of this village will indicate that we have some progressive women among us.

SENATOR TILMAN asked his stockyards audience who they were going to vote for, and they yelled "Debs." He won't ask that question again.

THE Russians say the war will last several years. If it continues in the same manner as the past there will not be any Russian soldiers left in a couple of years.

FUNNY, isn't it, how that "Washington crowd" does stick together? Speaker Cannon, a man with a good reputation, is making speeches for Billy Lorimer.

It is rather mean for the Chicago dailies to place the advertisement announcing Sunday discourses by John Alexander, the first apostle, formerly Dowie, in the amusement column.

IOWA republicans have organized a club known as the "Knights of the Big Stick." That's one of those foolish ideas that prevail about election time. The next thing we hear will be that some democrat will organize the "Knights of the Bath."

It is becoming something "ferce" to read of the numerous railway accidents and the great loss of life. It seems that human life is held so little account that common precautions are not taken to preserve it. We are living in a fast age.

Now that the sewer contract is disposed of, it is proper to remind our village trustees that the lowest price is very often the most expensive in the end. The difference in the estimates would alone make a very good profit for the contractor, and shows that someone made an error in figuring.

IN OFFERING for sale its electric light plant and water works La Grange is moving backward. It is strange that in a village containing the homes of many wealthy citizens there is not public spirit sufficient to form an association for the purpose of buying these public utilities and operating them until such time as the village can overcome their present obstacles.

WE ASK a careful reading of The Reporter, not only its news columns, but also its advertising columns. The latter are patronized by a class of business men who have long held the reputation of being honest, energetic and liberal in all their business dealings. Remember that when you buy goods from a local business man who advertises you buy from one who is anxious to secure your trade, not only for this day but for days

to come. Space in a newspaper costs too much money for the merchant to "play even" on one sale. He hopes by fair dealing to make many sales; in fact, to hold your custom after once securing it.

The Chicago Passenger railway company, controlling some street railways on the west side of Chicago now operated by the Union Traction company, was notified to vacate certain streets of which the franchise has expired. Did they do it? Oh, no! they got an injunction from Judge Grosscup, and now the city will have to engage in a legal battle to get them off. Of course that public benefactor, the Union Traction company, is making the contest. This corporation, by its continuous policy of grab-all and give nothing, is doing more to prepare the Chicago public for municipal ownership than all the windy agitators combined.

Here and There

A mountain of pure soap has been discovered in Nevada. The tramp problem in that state may be considered solved.

It is estimated that the 7:11 suburban train has a load of from 650 to 700 passengers every morning. This shows what a number of people prefer to live in a country town.

All postoffices in the United States were closed from ten o'clock in the morning to one o'clock in the afternoon Friday, October 7, as a token of respect to late postmaster general, H. C. Payne.

The auction sale season will soon commence. Many farmers hereabouts will sell their personal effects at auction, some because of inability to secure help on the farm and others because of a surplus of stock which must be sold.

By the promulgation of an order directing the discharge of all men employed by the company, after they have reached the age of thirty-five years, the Pennsylvania railway system, northwest and southwest, has deprived over 1,000 men of their places.

There is an abundant growth of golden rod and the big yellow daisies this year in this vicinity. The former is more beautiful this year than ever, turning a bright yellow before any frost was in sight. If used with proper regard to contrasting colors it is very effective for decorating purposes.

An old corn grower says that when a crop of 60 bushels an acre is secured the corn costs 13 cents a bushel to produce, for 50 bushels it is 15 cents, for 40 bushels 18 cents, for 35 bushels 22 cents, and for 30 bushels 30 cents. These figures are not very far out of the way, and it is thus easy to know when you are selling corn below the cost of production.

The farmers about Eola are talking of organizing a chicken protective association for the object of catching those midnight callers who are carrying off all the fowl in that neighborhood, and one farmer claims he had fifty taken in one night. This is most too thick, and there will be some sharp watching there for a time.

New subscriptions to The Reporter have been coming in at a very satisfactory rate, and this token of appreciation on the part of our patrons pleases us much. While our list has been growing, we have room on our books for more names and there may be some who have neglected to subscribe. We would be pleased to hear from such.

A few more of those refuse receptacles about town would be a great blessing indeed. The improvement committee of the woman's club might take this matter in hand and agitate till they are secured. We understand that they are acting on some of the suggestions made by this paper in the past. We expect to see them in vogue soon, because when the women take a matter in hand it goes.

Step by step our townspeople are becoming alive to modern and up to date ideas. The advent of the gas company, who will give an all night and all day service of light and heat, has brought about an all-night electric lighting service. Previously there was objection to this, owing to the increased outlay. Now we hear nothing of the cost, to any great extent. The main thing is that we must keep the electric light service equal to competition if we expect it to be used.

Down in Kalamazoo, Michigan, they know how to be original and effective, too. The plan that the woman's civic improvement league has adopted might be well put in vogue here by the woman's club. Here it is. If property owners are slack in the care of their premises a photographer is sent by the woman's civic improvement league to take pictures of the neglected premises and a print is sent to the owner of the place. If he does not take the hint and "lick up" immediately, the photograph of his neglect is put in a conspicuous place where the whole town is sure to see it.

Facts and Fancies

A county newspaper tells this about a couple of neighbors out on one of the new telephone lines who were gossiping with each other, when they thought they heard a third party on the line. One of the ladies said, "Who is rubbering?" The third voice spoke up and said, "I ain't rubbering; I was just speaking to the children."

While the bulls and bears are having a cat and monkey time in the grain pits over wheat and corn, the producer is stroking his whiskers and musing. The real stuff will be in demand this year and he knows it. Margins will not feed the hungry.

Newspaper comments on the news that small hats will be fashionable this winter are all inspired by considerations of the probable price and not by the facility that will be afforded for seeing the preacher from any of the pews.

A French war correspondent advises Russia to admit defeat and quit. The czar would no doubt like to call off the war, but he is in the position of the man who grabbed the bear by the tail. He can't let go.

We are now informed by a writer whose judgment is unerring that pumpkin pie is now ripe. Pie may not be healthy, but the average boy thinks it is mighty good.

They say that if human beings will drink sour milk they will live a long time. Unless they can disguise it pretty thoroughly we prefer to go to heaven on schedule time.

If persons are so cross eyed that when they cry the tears roll down the back of their necks, would it be proper to say that they are afflicted with bacteria?

Dowie's "Leaves of Healing" have cost him \$2,000 on account of a libelous story contained therein. The court looked upon it as "Leaves of Healing."

We hear of a man who recently contemplated suicide, but compromised by getting married. [It is to be hoped that he has made no mistake.]

The Brooklyn man who lived on grass for six months seems to have succeeded in reducing a neat diet to its first principles.

The New York girl who swam twelve miles would die of exhaustion if she dusted the parlor or darned her own stockings.

An astronomer at the Lick observatory has discovered 800 new stars. His only rival in this line is Daniel Frohman.

A woman is trying to get a divorce on the grounds that her husband's hands are dirty. And yet soap is made of refuse.

If, as the newspapers would have us believe, all brides are beautiful, where do all the hourly married ladies come from?

The great American hen is too busy laying twenty five cent eggs to enter very heartily into the present campaign.

Louis Bernstein and Florence Goldstein were married in Chicago yesterday. A stein to Florence Bernstein Goldstein!

One half of the people live for each other. The other half live on each other. There are cannibals everywhere.

If Colonel Younghusband carries too long in Tibet is there not danger that he will be no husband at all?

The click of Johnnie's lawn mower is now succeeded by the click of his grandma's knitting needles.

Do you remember that we gave you fair warning weeks ago that the price of hard coal would advance?

Goals that show a fondness for gutta percha golf balls must have been raised on candy caramels.

We wonder what the Igorrotes thought when that Chicago delegation swooped down upon them.

A Brooklyn woman got a \$1,000 verdict against a street car conductor. "Step lively, conductor."

The seamless tooth for dogs will correspond nicely to the seamless trousers for humans.

Fortunate is he who has nothing against his neighbor for neighbors are slow pay.

Any man who attempts to serve two masters is liable to be arrested for bigamy.

About everything a man needs on the road after he passes forty is a sign of age.

There is one drawback to winter. One is liable to suffer from escaping coal gas.

The price of nut coal has reached the chestnut stage.

What a lot of time we waste wondering why.

Please pass the pumpkin pie. -MAX FORD.

CROSS ECLECTIC SHORTHAND

Taught by GEO. R. CROSS
At Central Institute, 40 Randolph, Chicago
It gives no place as to say that I acquired my knowledge of Eclectic Shorthand under the very able instruction of Prof. Cross in about three months' time. I have been using Eclectic Shorthand daily for the past ten years in doing practical court reporting in the Court of Record of Cook County, Illinois, and am glad to attest that it has been the most valuable factor in the balance with other systems, and have never found it wanting.
Yours very truly, JENNIFER M. MALONEY,

SCOTT'S EMULSION

Scott's Emulsion is the means of life and of the enjoyment of life of thousands of men, women and children.

To the men Scott's Emulsion gives the flesh and strength so necessary for the cure of consumption and the repairing of body losses from any wasting disease.

For women Scott's Emulsion does this and more. It is a most sustaining food and tonic for the special trials that women have to bear.

To children Scott's Emulsion gives food and strength for growth of flesh and bone and blood. For pale girls, for thin and sickly boys Scott's Emulsion is a great help.

Pain

From Inflammatory Rheumatism Would Have Killed Our Son.

Dr. Miles' Anti-Pain Pills Saved Him.
"We began to use Dr. Miles' Nerve and Liver Pills six years ago. My wife had liver trouble and a neighbor gave her some of your liver pills to try, after which we bought a bottle of them and my wife used them until cured. Since then I have used them and I must say that I have never used any pills that gave me the satisfaction these have. We also use Dr. Miles' Anti-Pain Pills with greatest satisfaction. Three years ago our son Harry had inflammatory rheumatism. He had suffered so much that I believe if we had not given him Dr. Miles' Anti-Pain Pills would have died. I am always glad of the opportunity for praising Dr. Miles' Remedies."—James Everett, Alton, Ill.

"I was afflicted with neuralgia for years and never found any permanent relief till I began using Dr. Miles' Anti-Pain Pills. They are a sure cure for headache and neuralgic pains. Only this morning I recommended them to a friend with a severe headache and in a half hour he came into the store smiling. The headache was gone. We use them in the family and find them excellent for the women folks. This high attitude makes them very nervous. Gramma says I should tell Dr. Miles she could not live here were it not for the Anti-Pain Pills that she takes occasionally."—L. B. Morris, Helena, Montana.
