First—You shall sell your farm products for cash whenever you can, but not in us; we do not buy from you.

Second—You shall believe our statements and buy all you need from us because we want to be good to you, although we are not personally acquainted with you.

Third—You shall send the money in advance to give us the chance to get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.

Fourth—You shall apply to your nearest city to add you in building good roads so you may conveniently get the goods from the depot which you buy from us; for we do not build country roads.

Fifth—You shall buy church bells and other fixtures from us and forward the money in advance; for that is our business method, and you shall get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.

Sixth—You shall apply to your nearest city to add you in building good roads so you may conveniently get the goods from the depot which you buy from us; for we do not build country roads.

Seventh—You shall buy church bells and other fixtures from us and forward the money in advance; for that is our business method, and you shall get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.
