ASK \$28,413,200 FOR SCHOOLS.

Board Makes Demand for Largely Increased Appropriation.

Chicago's board of education has de cided to ask the City Council for \$23, 413,200 to carry on its work of 1908. This is more than \$10,000,000 in excess of the amount asked last year. The board demands \$9,620,000 for buildings, while last year this demand was for only \$2,000,000. Last year's request for money for educational purposes was for \$10,325,000, while the request now decided on is for \$13,-676,000. Besides deciding on its big plan of education the board voted to divide \$10,528,906 into various funds to carry on its work this year. It put \$2,546,000 into the building fund, which now has a reserve of \$4,000 making it impossible to ouy playgrounds or make any building contracts until money is collected in taxes. In the educational fund means had to be provided to increase the pay of 2,000 teachers, and a raise of \$290,000 in expenses was arranged for, The engineer and janitor pay roll was increased from \$550,000 to \$620,000 a year.
