F. N. Eucore is building another new touse of the south side. This makes two new houses under way for Mr. Lucore. We learn that he has sold his residence where he lives to Professor L. G. Avery, and will occupy the new one building on Randall street.

There is a demand for homes by me who are willing to pay a liberal month ly rentage, and thousands of dollars in banks waiting for investment by re sponsible parties. Splendid building sites can be secured in almost any par of town. But don't wait for some one to build a home for you-get busy and put up a bungalow of your own. The mustard crop promises to be unusually large this season. Already

many oat fields are yellow with blos soms that fall to be the least bit orna mental. Few people realize what this weed will do to their property. In some parts of the village it is growing on vacant ground and should be killed at once or it will destroy the lawns worse than dandelions.

Some boys deliberately destroyed C B. Blodgett's mowing machine and cultivator, which was left in the field over night. It is said that Mr. Blodgett knows who the boys are and will prosecute them. There are some hads who are a little too "smart" (?) and given to meddling with other people's property, and they will get their dues some of these days. Parents may have to suffer as well.

Chleago papers printed an article one day this week to effect that the Hill interesis had ceased to be identi fled with the C., R. & Q. railway, but there are few who take that as a fact. Hill values the Burlington too highly Major E. A. Blodgett and wife of to lose control of it. It is known to Chicago spent Sunday with relatives few people that the C., B. & Q. railroad proper is an Illinois line only, while the Burlington system covers a good deal of the west.

Ray Bradbury, one of Downers Grove's well-known young men, is lylug very Ill at his home at 44 Elm street. It is unknown at this writing just what his ailment is. There are symptoms of appendicitis and it is feared it will be necessary for him to undergo an operation. Ray is a general favorite of one and all, and it will be with supreme regret no doubt that many will learn of his illness.

The "Miscellaneous Local" column of this paper is the want exchange of the whole section. It is a weekly resi tal of things wanted to which all the people refer. If you want to buy or nell or exchange a house or lot, or a piano or anything else, if you want to find a lost article or an owner for one if you need a house-girl or if you are a house girl looking for a position, let all the people know it through the "Miscellaneous Want" calls.

Some one started a story that the merry-go-round took away \$3,300 during its week stay here. While there is doubt no to such transient devices being a benefit to the town, it is ufter nonverse to deliberately falsify about them. If the merry go-round people had run their muchine every hour in the day from the time they estme till they left they could hardly have gotten \$1,000 gross instead of \$3,500. Why not tell the truth?

Frederick Walter Hawtin, of La Grauge, and a relative of W. II. Haw tib, of this place, president of the Hawtin Engraving company, Chicago, died Wednesday at St. Joseph's hospital, aged fifty-nine. Mr. Hawtin is marrived by a widow and three children-W. W. Hawtin, Raymond Hawtin and Mrs. C. B. Williams, of Western Springs. Funeral services were held from the home of Charles A. Allen, at Hinsdale, Friday afternoon at two-

The new law which went into effect Monday enables travelers to ride in railway conches at the rate of two cents a mile instead of three cents as heretofore. However, should you fail to purchase a ticket the conductor can He got the old rate and put you off the car if you refuse to pay. All special favors to excursionists of every kind, minister, students and editors, have been cancelled, placing everybody on equal footing. We approve of the law and the regulations.

The recent soaking rains and warm weather have materially improved crop prospects. The discouraging outlook during the cool month of May has been changed by the more favorable conditions in June. A heavy stand of grass makes it no longer probable that has will sell at twenty dollars a ton in the near future, and an average yield of oats is almost certain. Corn is making headway and great changes for the better may be expected during the torrid months of July and August, Owing to a "would be smart aleck"

Doan's Kidney Pills will cure you.

Mrs. M. Vigersdale, widow, of 933 Sheffield street, Chicago, Ill., says: was a sufferer from kidney trouble for a good many years. I had severe pains in the small of my back and the passages of the kidney secretions were too frequent at times and at other times there was a retention. My general health became affected and I felt really miserable. I began using Doan's Kld ney Fills, and my general health was improved, the pain in my back soon disappeared, and the secretions were reduced to a normal and natural condition. I was so pleased with the result that I gave a statement recommending Boan's Kidney Pills and it has been published frequently in the Chicago papers. It is now over three years since they effected a cure in my case and I still hold the same good opinion of the remedy and have advised many others to try them."
