CALUTATORY

As it is the custom for every new edfor to make his proclamations to the public, I find it is "up to me" to do the nune. It will not be necessary to introduce myself personally to the people of Downers Grove, but as editor of this paper I wish to state that I shall endeavor to make this little sheet as

newsy and as interesting as possible for our subscribers and patrons. We have already left blank news item cards at most of the business bouses, which can be filled out and left at our office or mailed and the items will be published. We also wish to state that this paper will bereafter be Republican in political faith so far as National, State and County politics is involved, but will be neutral so far as township and village affairs are concerned. In National, State and County politics our position will be identical with the regular DuPage County Republican organization. It is not our intention to fill our columns with political affairs, but we will set aside certain columns for that purpose. We will also have columns set aside for sporting news, ip cal items and a church column for all notices sent in by the different churches In our village. It is our wish that all our friends will take an interest in our little village and jot down items for us that they think will be interesting to the public, thus assisting us to make a good, newsy paper. Remember our new telephone number is 432.
