DU PAGE COUNTY DOMESTIC SCIENCE PROGRAM

To Be Given in the County Court Room, Wheaton, in Connection with the Farmers' Institute, January 27, 28 and 29, 1908.

The following are some of the good things offered for the three days' session of the County Domestic Science Association.

Beginning Monday morning, at 9:30 o'clock, the program will open with a report of work done by the County Association, followed by Mrs. L. S. Raymond, president of the State Association, with a review of the work done throughout the State. At 11 o'clock Mrs. C. S. Keeney, director of domestic science in Wheaton College, will give "A Demonstration in Salads." The afternoon session will begin at 1:30 with a talk by Mrs. Raymond on "Recreations for the Housekeeper," followed by discussion. Mrs. Slusser, secretary of the County Association, will give a paper on "Domestic Science from the Housewife's Standpoint," making an afternoon full of good things for housekeepers.

Tuesday morning at 9:30, Mrs. Jennie C. Barlow, secretary of the State Association, will tell "How to Use the Score Card in Testing Household Products." At 11 o'clock there will be a club symposium on "What We Need in DuPage County." Mrs. E. A. Walker, president of the Woman's Club, of Hinsdale, and Mrs. George Hughes, of Downers Grove Woman's Club, will lead in the discussion. Mrs. George Kendall, Glen Elyon Woman's Club; Mrs. Galusha, Warrenville Woman's Club; Mrs. Ernest Dresser, Wheaton Woman's Club; Mrs. M. B. Farrar, Study Club of Wheaton; Mrs. J. S. Cobb, Study Club of Wheaton; and others are expected to be present and to share in the discussion of this important question.

Tuesday afternoon Mrs. Lynden Evans, president of the School of Domestic Arts and Sciences, will speak on "Proportionate Expenditures in the Household," a very important question to every woman. Mrs. W. R. Hall, of Berwyn, and of the Mothers' Congress of Illinois, will speak on "The Food and Diet of Children." This address will be of special value to mothers, as Mrs. Hall is the wife of the professor of physiology in the North Western Medical College, and has taught physiology herself for many years. Both these subjects will be followed by discussions and will make a very profitable afternoon.

There will be only one evening session on the domestic science program. Tuesday evening, and a fine program is in readiness. Mrs. P. S. Peterson, of Chicago, chairman of the committee on forestry for the General Federation of Women's Clubs, will speak on "What Trees Stand For." We predict a wider vision for all who hear her. Mrs. Jennie C. Barlow will follow with "Some Essentials of Health, Long Life and Comfort." This, with good music, will make a very full evening.

Wednesday still offers a fine program. Miss Josephine Berry, of the Northern State Normal School, will speak on "Household Science and Manual Training." Later Mrs. Frank Webster, of the Francis Parker School of Chicago, will discuss "The Practical Value of Household Science for Boys and Girls." Miss Helen Hood, of the W. C. T. U., of Chicago, will give a talk on "Scientific Temperance Instruction in the Schools," thus closing as all good programs should with a talk on working and eating.

All the sessions will be enlivened with good music, several violin solos being promised and a selection of two from the Girls' Quartet of Wheaton. Some good readings are also to be given. Miss Mabel Ware, of Wheaton College, and Mrs. J. A. Nistrom, of Wheaton, kindly contributing. Miss Ruella Huston, choir leader of the First Congregational Church of Wheaton,

will have charge of the music for Tuesday evening.

CONVENTION

Of the Illinois State Fireman's Association.

Chief Klein and President Woelfersheim returned from the Illinois State Fireman's convention last Thursday evening. They reported a very pleasant time and cannot say enough about the hospitality of the Morris Fire Department and citizens of the town.

The first day's session consisted of the reading of papers by chiefs of different departments as to methods of fighting fires and discipline in the department. Chief Horan of Chicago then made a speech lauding the association for its work. In the evening they attended a banquet, served by the ladies of the fire department and business men. After the banquet an entertainment was given them by home talent. The second day's session consisted of reports of committees on the state of the order financially. Between seven and eight hundred dollars was paid out last year to volunteer firemen who belong to the Indemnity Association. In the evening they attended a ball given by the Morris firemen to the visitors.

The third session consisted of election of officers for the year and the selection of a place for their next convention, which will be held at Clinton, Ill., where the association was organized twenty years ago.

Now just a few words in this connection concerning our local firemen:

The Volunteer Fire Department of Downers Grove does not receive the credit and support from the citizens they deserve. This we think is due more to a lack of knowledge as to the method of running the department.

The company has on its membership roll eighteen willing, capable men, ready to go out night or day at a moment's notice, to protect the property of the village, and for this service they do not receive any remuneration from the village whatever. In fact, the department does not cost the taxpayer a dollar. What little money they need for supplies being furnished by a levy on the insurance companies of 2 per cent on all insurance in force in the village.

The money for personal expenses of the company has been raised by giving one picnic and two dances a year, the proceeds of which have been spent in paying for their uniforms and in attending firemen's tournaments. At the tournament two years ago they took second prize at Champain, and last year took first prize at Kewanee for the best appearing company in the parade, which is saying a good deal when it is understood that companies from all over the State participated.

They certainly deserve no little credit and support for the way they have turned out and fought fires in the past. Take, for instance, the fire at Fink's livery, where the boys worked the greater part of the night. At the next meeting of the company it was voted to pay each man who had been at the fire two dollars for his time. This money was taken from their own fund, and does not come out of the village treasury. Just think it over and see if you do not think they are deserving of a little interest from the community.

BUSINESS MEN OF DOWNERS GROVE

In answer to a call for a meeting of business men last Friday evening, business and professional men to the number of eighteen assembled at Modaff's hall.

After being called to order Mr. Herring was asked to preside as the chairman and Mr. Clough acted as secretary.

Modaff was then called upon and explained the aims and objects of the association would be to bring the business interests of the village into closer touch with one another and establish a credit list for mutual protection. After a general discussion by those present of the conditions in Downers Grove compared with other towns where business men's associations have been in operation, a motion was made to appoint a committee of three to secure information as to by-laws and other matters which would be of use here.
