FIVE HUNDRED CLUB HAS ANNIVERSARY

Members of the Five Hundred Club last Saturday evening celebrated the third anniversary of the organization with a theater party which was one of the most enjoyable social events of

the winter. Preceding the visit to Mr. William Hodge in "The Man From Home," which was the play witnessed, the sixteen club members sat down to a bounteous repast served in Abson's chop house, in which the Sir Loin of Merrie England cooked to tempt the palate of an epicure was the piece de resistance.

The mezzanine floor reserved for the party was tastefully decorated in honor of the occasion and fragrant violets were presented to each lady. Society will meet at the home of Mrs.

Anecdores and a review of some of the doings of the club filled the intervals between courses.

Three years ago the club was organized with no thought of permanency. but the meetings have afforded the members so much pleasure that the organization is now an established fact.

FAREWELL PARTY.

On Monday evening, March 2, about 40 of the friends of Mr. Clinton Watts assembled at his bome in East Grove to give him a farewell party before his departure for California, where he hopes to recover his health.

A very delightful time was spent, enlivened by conversation, games, recitations and a dainty supper.

During the evening Mr. Verdinius, superintendent of East Grove Sunday school, in behalf of those present, presented Mr. Watts with a fine fountain pen. The best wishes of the community go with this young man, who has endeared himself to all who know him by his sterling worth and manly, Christian character.

and continue, as now, in the employ of | ter. Marshall Field & Co. His health has been undermined by a prolonged attack of pleurisy and his physician has ordered change of climate. He jeft Thursday night.

YOUTHFUL DEBATERS

Prof. O. M. Searles has organized debating society among some of the ers in his neighborhood and a debate or very interesting character was beld at his home last Monday night. The subject was, "Resolved, that it more profitable to raise squals than bantams." Myron Towsley and Donald Searles took the affirmative and Emery Edwards and Delans Downer had the negative. The affirmative were returned the winners, and they were presented with a box of candy. The losers received a package of stick candy. Another debate will be held in the near future.

It is only a few years ago that all this country through which we are now passing, was in the hands of the "cuttle barons," and used almost exclusively for grazing purposes. In the last few years, a new era has begunthe era of agricultural and borticulturat development. The change is due principally to immigration from Northern states. One million persons emigrated to Texas last year. One hundred and fifty thousand came month. Are not these figures surprise ing? Yet they are vouched for by railroad statistics. Judging from the people one meets in the Guif Const country, it is difficult to decide whether the institutions, customs and habits of the South or the North predominate. But that the country has had a -The many friends of Mr. P. Weich tremendous awakening an infusion new energy and new aspirations in the past few years due entirely to immi-

ment at this writing from his severe illueses. He is now under the care of gration from the North is certain. Our party has passed most of its time so far in Matagorda county -Mr. John Powliz has moved on to Here is being carried out the most the Milim farm near tim county line. Mr. Chas. Zarn will compre the farm comprehensive and progressive plan of development, it is said, in the whole vacated by Mr. Port E. Mr. Henry Welch will occupy the farm vacated by Gulf Coast, district-favored by soil, rainfall, water supply, climate and natural beauty. The slope of the land generally is toward the gulf, but many About twenty-five neighbors and small streams which traverse country furnish ample drainage in acdition. Carriages it now under cultivation, yielding rich Good singing and a welcome. returns in rice, cotton, alfalfa, sugar cane, truck, and other kinds of farmiug. The Hurd Land company, alone, has settled 44,000 acres with Northerners. But a more elaborate plan of development is under way. The horticulturist has begun to figure in the future of the district. This year housands and thousands of orange emon, fig. and date trees will planted in small tracts along the banks of the Trespalacios river. In a few years the district bids fair to become as famous and as productive a hort cultural district as the most favored sections of California. Many thousands of such trees, planted years ago throughout the county, simply to provide for ranch households, are laden with fruit at the present time. The
