

PAPERS BY THE PEOPLE

THE DANGER OF AROUSING THE MOB.

By Ex-Governor Black of New York. Whoever arouses the mob or the mob spirit plays with fire.

One destroys only property and occasionally a human life, while the other undermines society itself, arranges class against class, arouses, stimulates and cheers the grosser passions, which in full swing may bring the government itself to its knees.

No case has ever arisen in the world where a so-called reform was proposed which would injure the man who proposed it.

Our courts of law, the most complete development of civilized society, a shield to the lowly a check to the proud, are viewed with gradually diminishing respect and fear by those who, without the courts, would be a menace to the State.

WHY WE MUST HAVE COMBINATIONS.

By Seth Low, Ex-Mayor of New York. Common carriers, business corporations and business men, labor organizations and labor men, have all had it brought home to them.

Common carriers should be permitted to combine and to make traffic agreements in proper cases and under suitable governmental supervision.

What is wanted is effective public supervision and not an absolute prohibition of the very thing that may ac-

sure the best public service. Regulation, not prohibition, should be our watchword in all such matters.

The attempt of cotton growers to protect themselves by combination against the combinations that deal in their products is just as certainly unlawful under the Sherman act as the business combinations of which they complain.

EUROPE'S JEALOUSY OF AMERICA.

By Rev. A. B. Hepburn. The one thing that most strongly impresses itself upon the mind of a careful observer in Europe at the present time is the fact that the continent of Europe does not like the United States.

Neither does the continent of Europe like Japan, and for similar reasons. Her recently achieved naval and military prestige and her English alliance have brought Japan to the front in the family of nations.

It follows from this condition of affairs that nothing would be contemplated with greater complacency by the continental powers than a war between the United States and Japan.

WIRE FENCES FOR TELEPHONES. Used by the Signal Corps in Directing Military Operations. "In the West and Southwest, where there are long stretches of unbroken wire fences, these wires are frequently used to convey telephone messages from one point to another."

Our Father who art in Heaven, Hallowed be Thy Name. Thy Kingdom come. Thy will be done on earth as it is in Heaven. Give us this day our daily bread. And forgive us our debts as we forgive our debtors. Lead us not into temptation, but deliver us from evil. For Thine is the Kingdom, The Power and the Glory for ever and ever. Amen. STUART 1906
