CONTRACTOR OF THE PARTY OF THE

A Toledo woman wants a divorce be cause her husband won't kiss her. We reserve judgment until we see the lady. Jack Johnson, prize fighter, is getting \$1,780 a week for touring Australia. The moral of this is that it pays to o a winner. THE RESERVE OF THE PERSON NAMED IN

The Earl of Crowe, the Liberal leadin the British House of Lords, annamed the other day that the govrement contemplates such a revision the coronation oath as will elimifrom it the objurgations offen the Roman Catholica. Americative leader welcomed hange as a destrable reform. When the two parties are agreed, it should not be difficult for the government to dairy out its purposes.

The one real, all-sufficient, universal ever-on-the-job gravy in this world, however, is plain, old-fashioned, timegravy! Just as it is, without one plea -- It knocks the spots off any turkey gravy with "yolks of eggs, giblets," mushrooms, truffes, or whatnot ever espected anywhere, or conceived in the minds of mortals! You can't best ft! It is known from the humblest without comment.

In the interest of safeguarding coastwise shipping, the Department of Com- bantam hen to work with him. He merce and Labor has made new rules declared with tears that the hen was which affect barge traffic. They ap- his sister and he must not be separ ply mostly to the Atlantic coast, and especially to the coal-carrying trade, since that is the principal industry in dered clucking about the floor. Her which barges are employed. The new rules limit the number of barges which one tag may tow to three, and resixire that the length of the hawser between each two shall not be more than seventy-five feet. The new rules apply only to the three-mile limit within which the department has juriediction, but that includes the beit of largest traffic. The long lines of barges have always been regarded as a danger to other shipping.

In thirty States of the Union ther has no ownership in her own didren, and the husband can collect mer dellar of their earnings. Is the a who beings up a family of chilunder such conditions as these. a self supporting member of the who supports the family, in the days of our grandthe husband paid for a barrel and the wife made that flour end. Converting raw material aufactured product is usually manufer than the raw material the value contributed

plays her in his office more independent than the wife who is comfortably cared for by her busband? Or can the wage-earner of either sex be considered as economically independent? There is no sex to brain power of itself. And in this free country there is no more obstacle to a woman attaining economic independence than there is to the man. Stop arguing, sisters. There is no room for argument. Time files and opportunity fleets. If economic independence is your sole object, roll up your sleeves and dig in.

If Admiral Rojestvensky did not literally die of a broken heart, his last years were embittered and his death probably hastened by the obloquy fastened upon him in his own country. while in every other nation he was honored as a brave but unfortunate man. To have taken the Russian fleet from Libau more than half way around the world, and to have marshaled it in fighting condition against the Japanese at Tsushima, would have been a great feat even if the ships had Post office hours are from 7:00 a. m. been in perfect condition at the start. appointed fleet to San Francisco, a shorter trip, in time of peace, with huzzahing friends in every port. The Russian fleet, far from being in condition for service, was a monument to official greed, neglect and incompetency; its personnel was divided by racial hatreds, bitter at wrongs of misgovernment, honeycombed with sedition, hopeless of the outcome, and so illtrained and mob-like that the men trained their guns on harmless British fishermen before they had fairly started and nearly involved in a second war the country which half of them were ready to forswear. They were scarcely more prepared for battle than the Chinese had been ten years earlier. Yet because he raised the white flag when he was hopelessly beaten and he lay wounded and insensible, Rojestvensky was court-martialed by his grateful country and made a scapegoat for a misgovernment of, by, and for the grand dukes. Rojestvensky's task was more hopeless than Cervera's, yet Cervera, after a natural burst of resentment, retained the respect of his own country as well as of ours. Spain seems to be a better country to serve than Russia.

> The state of the s ERRATIC SCIENCE.

ame Wonderful Answers by Schoolroom Small Boys.

"Mushrooms always grow in damp places, and so they look like umbrellas," wrote a small boy in the science examination. Other examples of the "howler" are compiled by a writer in the Scientific American :

"Air is the most necessary of all the elements. If there were no such thing as air I would not be writing this co say now, also there would be no pneumatic tires, which would be a sad loss. "Electricity and lightning are of the 11:40 pm same nature, the only difference being

that lightning is often several miles in length, while electricity is only a few "Air neually has no weight, but found to weigh about fifteen pounds to

Expert on Greeley's Manuscript Eas-Hy Rend Chicken's Footprints. This isn't the necrology colomn, but honored and anciently approved ham the story they tell on C. S. Denia, who died the other rday, is too good to lose. Denis was at one time the private secretary of Horace Greeley, and was one of the two or three men who could read that great editor's copy, says the Cincinnati Times-Star's New York correspondent. Greeley had no idea what hovel to the lordilest palace, and ev- it was all about after the ink was dry. erybody truthfully inclined will agree He would send for Denis to read his scrawls to him. One day, according to the story, a printer in the old Tribune office, being pickled, brought a little sted from her. He was put to sleep on a pile of old paper and the ben wantoes became dabbed with ink and by and by she found some bits of printers' lunch and while stepped about on a bit of blank copy paper. Her inky feet made a series of odd hieroglyphics on the sheet. "We'll play a trick on Denia," said the foreman. He picked up the paper, inscribed it with the usual printers' sign, and then took it in to Denia. "Excuse me, Mr. Denia," said he, "but this stuff of the old man's has got me stuck. I got through the first two takes all rightbut what in the world is this line?"

Denia looked at it a moment. Then cleared. "Plain as can be," he said. "It begins this way: "Those old federal-

THE GREAT ITALIAN EARTHQUAKE.

The earthquake which took place in Calabria and Sicily must be regarded as the most devastating catastrophe recorded in the world's history. It is stated that some 200,000 lives have been lost, and it is impossible to

realize the number of persons left homeless and destitute. The above sketches are founded on photographs taken in the various districts affected, and give a vivid idea of the misery and horror of the disaster.

DEATH OF COQUELIN.

Coquelin, greatest of French actors, s dead. Indefatigable as always, he was preparing for the leading part in a new play by Edmond Rostand when the end came. We can imagine the sense of loss of the French people by recalling our own feelings when Joseph Jefferson died.

Like Jefferson, Benoit Constant Coquelin had become an institution. His long and successful stage career. begun in the prime of a former generation and continued so far in the life of its successor, was calculated to diffuse a sort of impression that he always had "Gravity is chiefly noticeable in the been and always would be. Fecuring autumn when the apples are falling the first prize in comedy at the conservatory in 1859, he made his debut in "Things which are equal to each oth- the following year at the Comedie Francaise.

The last opportunity Americans had of seeing Coquetto was when he made his tour with Sarah Bernhardt. It is "The blood is putrefled in the lungs no secret that he was dissatisfied with the impression produced on American audiences, who manifested their preference for the divine Sarah unmistakably. With the exception of Cyrano none of his roles seemed to appeal particularly to playgoers over here.

Yet, says the Chicago Inter Ocean, he might have anticipated that. Wom-

an, romance and tragedy are universal: Man and comedy are national. The tor, held the same opinion. comedian, on going to another country, has to overcome a host of national con- lic meeting, to the pioneer Suffragist ceptions to make himself acceptable. Elizabeth Cady Stanton, "the Few nations boast of their tragedy as distinctly national. But all make that claim for comedy. It could hardly be otherwise. No nation believes that another has a real sense of wit and humor.

M. Coquella was, of course, a comedian in the best sense. It is unfortunate that the word has been reduced in this country to serve chiefly as the designation of farceurs. The fountains of tears and laughter lie close together: and the great comedian is the real whether one smiles or sighs.

There is something especially pa- Hopper Gibbons, who had never been thetir in the death of a great actor. identified with the "woman's rights" His is a doubtful immertality. The woman, yet acknowledged with demure poet leaves his books, the scriptor the husen that, although she talked little

The Mournful Woman

NCE there was a woman who gleated over the most melancholy topics of conversation, believed laughter a sin, recreation a waste of time and fresh air a menace to health, and found her greatest delight in attending funerals. "I hope I'll be as beautiful a corpse as that," she would remark, as she stood beside the bier of some friend, "and it won't be long now; it won't be long." Everywhere she went this sad sister carried an atmosphere of gloom. Depression filled her mind, fairly embalmed her personality and exuded at every mental pore. She was a perpetual wet blanket to everybody, and her friends dodged her like the butcher's bill or the

By and by she actually made berself believe that her liver, heart and other economy were out of kilter, and at once she acquired a library of home-doctoring books and devoted herself to study. The more she studied the more certain she became that she was on the quick road to the grave. She just knew that she had every symptom in the calendar of diagnosis.

About every ten minutes of the day she dosed herself with one of the seventeen varieties of medicine she needed to ward off ailments, and getting out of bed every hour of the night to take her tonic soon trained her so she couldn't sleep at all.

Then she had a simply be e-utiful time picturing herself in a lovery rosewood casket, lined with pink silk, and a gilt-edged prayer book in her hands with the floral tributes banked in the parlor bay windows, while Dr. Snoozum prayed sonorously for "our dear departed sister," her friends sniffled into lace handkerchiefs (they always take their very best to funerals) and the choir sang "Nearer, My God, to Thee."

For hours and hours she used to He awake worrying which dress to be laid out in and what kind of a tombstone to order. By and by she died Most anyone who thinks about it hard enough can die.--Chicago Journal.

The new catalogue of Columbia University shows the total number of officers of the administration and instructors to be 670; the total number of resident students 5,683, as against 5.159 last year. Since the last catalogne was published eight special funds have been created by special gift or

Briquettes composed of calcium carbide have been prepared by H. K. Koffer of Vienna, and are claimed to be non-hydroscopic, keeping indefinitely, and do not continue to give off gas after withdrawnl of water. They are made by intimately mixing finely granulated carbide with a binding material and compressing in molds.

Dr. William S. Bigelow, who is responsible for the cutting of the new United States gold coins in intaglio instead of in relief, a new departure in colnage, is neither a sculptor nor a numismatist, but the author of the recent book on "Buddhism and Immortality." He has given years of study to the literature of the Far East.

Discussion arose at a meeting of the Ballycastle (County Antrim) Board of "Sweet are the uses of adversity." Guardians on a letter from the local government board asking what order the guardians had made on a former letter from the board requesting that the paupers should be supplied with forks at meals. It was decided to inform the local government board that the guardians did not consider forks necessary.—London Globe.

A counting machine that is reported to be an improvement over anything of the kind yet produced, the invention of a Swedish engineer, was recently supplied to the counting house of the Bank of England for experimental purposes, and its performance was highly successful in point of rapidity. The machine is operated by electricity, and is capable of counting up and sorting money into paper bags or tubes at the phenomenal rate of 72,000 coins an hour. The coins are placed in a receptacle at the back of the machine. and are mechanically sorted, stacked and inserted into paper tubes.

Two Russian satiors, wishing to desert from their ship lying in the Tyne, England, took a boat and rowed for the open sea. They took with them food and clothing and \$300 in cash. The flood tide set them ashore again and they tried to land, but the sea was running too high. For many hours they drifted helplessly about, and finally their tiny craft was pitched upon the beach of Manhaven, near South Shields. Here they took refuge in a cave, where they lived four days and nights, until their food became exhausted. Hunger drove them into the open, and eventually they were ar-

In times past a fashion lasted, with slight modifications, for years. Much the same fashion continued through the long reign of Louis XIV., and another through that of Louis XV., while the ladies of the middle ages never thought of varying their costumes. As for the Greeks and the Romans, generation succeeded generation with little change in female dress; and yet all these la dressed than those of to-day. Many no doubt, spent more than they could afford, but when they had a costly dress they kept it, and did not throw it away to replace it with another .-

Some curious thermometers were made. Otto de Guericke, burgomaster of Magdeburg, made one which was twenty feet long and gorgeous with blue paint and gilt stars. It consisted of a large globe fastened to a tube, both of copper. The tube was bent upon itself into the form of a very narrow U, in which was placed the requisite amount of alcohol. One arm of the U was shorter than the other and open at the top. On the liquid was a float, to which was attached a cord passing over a pulley. At the other end of this cord was hung a glit angel, its finger pointing to a scale on which the degrees were painted.

Poseidon, the newest Australian gold field, is producing some remarkable nuggets. One, shaped exactly like a cricket ball, was recently found there lying on the surface, the finder at first mistaking it for a mushroom. And now, from the same place, comes news of a nugget of 103 ounces closely resembling a nautilus shell. This was found by an Irishman, and on the adjoining claim a Scotchman named Mac-Kenzie almost simultaneously impaled a thirty-eight-ounce nugget on the point of his pick. Furthermore, a boy driving a baker's cart over the Poseidon field saw the gleam of gold in the grass. He got down and picked up a nice little nugget of four ounces
