The fixing of passenger rates by direct action of the State Legislatures of a number of Western and a few Eastera States two years agowss recognized at the time as not the wisest course of procedure. Careful investigations by competent commissions ought always to precede action of that character in order that the facts might be fully ascertained and no injustice done, and, it may be added, also in order that the action when taken might not be subject to overthrow by the courts as unresconable. Nevertheless, it has been a matter of great interest to discover after the event what should have been more accurately determined in advance whether, namely, the 2-cent passener fare actually means a loss to the roads forced to accept it. In the case Missouri figures are now published the State Raffrond Commission which show that as a whole passenger sarpings increased in that State in 1908 over 1907. ### RUBAL HOMES ARE DESTROYED

Gov. Donaghey, Appealed to by Victims, Will Go to Scene of Suffering-Snow in West.

Reports received in Memphis, Tenn. show that fourteen persons were killed and afteen or twenty injured in the tornado and fire which swept Brinkley, Ark., Monday. Ten of the dead were white persons and four negroes. The business section of the town was demolished and probably 80 per cent of the dwellings were razed. Other towns in the eastern part of the State suffered from the wind and the southern and western sections of Arkansas also were swept by tornadoes.

A tornado hit Fourche dam, five miles from Little Rock, at 5 o'clock in the afternion, killing a negro boy and injuring other negroes. Two houses were demolished and one was consumed by fire after it had been blown to bits. The tornado crossed the Arkansas River at Fourche dam and raised a spout of water about 200 feet high. It traveled toward the northeast and swept a path about sixty yards wide. The wind was followed by a violent hail and rain storm.

The same tornado passed into Baucum and from there to Kerr, Lonoke County, where several homes were demolished and E. R. Adams, a farmer, was seriously it jured. Upon payment of the assessed fine the motion of the Attorney General for an absolute ouster of the Missouri company was denied, the compliance with the court order recently filed by the company was approved and the judgment of ouster against it was sus-

The effect of these decisions is to expel the Indiana and Ohio companies from Missouri and to restore to the Waters-Pierce Company, 60 per went of whose stock is held by the Standard Oil Company of New Jersey, the right to do business within the State. The decision is considered a great

victory for the Waters-Pierce Com pany and incidentally for the minority interests of that concern who claim to have been making unavailing of forts to free the company from control by the New Jersey corporation. With this object in view they declined to approve the proposition made by the Standard Oll Company of Indiana that that company be allowed to continne business in the State under a trusteeship composed of representatives of the court and the company.

This 'proposition excited the liveliest interest in that it would have given to the State a measure of direct control of a corporation's affairs. had it been adopted by the court. But it was ignored in the amouncement by the chief justice.

With the judgment of ouster made absolute against the Standard Oil Company of Indiana and the Republie Oil Company, these concerns must now pay their fines of \$50,000 each and cease business in the State. The \$50.000 assessed against the Waters Pierce Company has been paid.

#### THE SLEEPING SICKNESS WHICH MEANS DEATH How many readers have heard of this

terrible disease? It prevails in that far-away country-Africa-especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, pervous, with cold feet, hot head and mercy knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried ever thing without relief. Vinol was red ommended, and to my surprise, it helped me at once; gave me a splendid

appetite, and now I sleep soundly." What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep.
