WRIGHT MEETS U. S. TEST. Graille, with Passenger, in Airship

Surpasses Requirements. Orville Wright Friday night attained a hard earned success. In a ten mile cross country flight near Wash ington in the aeroplane built by himself and his elder brother, Wilbur, and accompanied by Lieutenant Benjamin D. Foulois, of the army signal corps, he not only suppressed the speed requirements of his contract with the United States government but accomplished the most daring flight ever plauned for a heavier than air flying machine.

He broke all speed records over a measured course and established the practicability of the aeroplane Wright's speed was more than 42 miles an hour. He made the ten-mile flight in 14 minutes and 42 seconds. including the more than twenty seconds required for the turn beyond the line at Shuter Hill, the southern end of the course. He attained a height in crossing the valley of Four Mile run of nearly 500 feet, and the aver-

Capital and Dozen Other Towns Hit -Fourteen Dead.

Central Mexico, from the Atlantic to the Pacific and from Querato on the north to Oaxaca on the south, a distance covering more than 1,000 square miles, was shaken at an early hour Friday by a series of the most severe earthquake shocks felt in the region for the last quarter of a century. Reports telling of the loss of life are not complete, but the official figures show that fourteen persons were killed, while more than a score probably were fatally injured.

A message sent by G. Poyres, commercial traveler, from Chilpancingo, says the place has been completely de stroyed. The inhabitants are living in the open and suffering greatly from the elements. The shocks continued for several hours, accompanied by subterranean rumblings and electrical storms. The towns reported hit by the quakes and the extent of damage

done are: Santa Julia-Several killed; proper ty damaged.

Woman Slays Husband and Girl She

Finds Him Embracing. Tired of being made a slave by the man she married sixteen years ago, Mrs. Tony Panella, wife of a prominent East End grocer, in Canton, Ohio, fired two builets through his head when she found him embracing Clara Pizzana, his clerk. Death was instantaneous. Then she turned the revolver on Mrs. Pizzana. Being too excited to shoot, she threw it down and secured a large butcher knife, with which she slashed the woman until death came. Later, with the bloody knife still in her hand, she went to a nearby barber shop, where she telephoned the police: "They got what they deserved. I am not sorry for my crime," she said.

Rigmund Klobber Bewalls Loss of Diamond to Fair Highwayman.

The Chicago police are seeking a pretty, fashionably dressed young woman who early Tuesday morning robbed Zigmund Klobber of a diamond stud valued at \$60. According to Klobber's story to the police he met the young woman in Lincoln Park. Her bewitching smile induced him to make overtures of friendship and he had no difficulty in engaging her in conversation. The girl, who was not more than nineteen years of age, says Klobber, suggested a walk, and the two strolled north in North Park avenue. At Tell place Klobber's companion stopped, and, turning quickly, snatched his diamond stud from his shirt. She ran north and disappeared to an alley.

Trains of Spekane and Inland Line

Collide at Coldwell, Wash. Ten persons were killed and at least sixty were injured in a head-on collision of electric trains on the Spokane and Inland Railway Saturday afternoon. The wreck occurred at Coldwell, Wash., a station between Cover d'Alene, Idaho, and Spokane, No. 20 west-bound train had left Couer d'Alene at 4:30 p. m., and just reached Coldwell when it met No. 5, east bound. Both frains were going at the rate of about fifteen miles an hour. They crashed together without warning to the erew or passengers. The heavily laden coaches were crushed. Men ando women were thrown from their seats, some being hurled to the top of the coaches, while others were sent flying through the windows. Several conches left the track, and passengers were caught under the pile of broken timbers. The Couer d'Alene hospital is now filled with the in jured. Only one of the train crew is reported injured.

VOTERS BEAT TOM JOHNBOW.

Cleveland Mayor's 3 Cent Carfare Grant Besten in Referendum.

Mayor Tom L. Johnson on Tuesday received the most severe defeat of his career in Cleveland when the Schmid street railway grant was turned down at the referendum election by a ma jority of 3,763 votes after a campaign which has been the most bitter of re cent years. The vote stood: For the grant, 31,022; against, 34,785.

The Schmidt grant provided for 8 3 cent fare line on Payne avenue for a distance of two and one-half miles and was intended as the basis of a system that would absorb all the frauchises of the Cleveland railway com

pany as they expired next January and force a settlement of the eight years' fight on terms to suit Johnson With the defeat of the Schmidt grant, the alternative evidently de sired by the public is the so-alled Taylor plan, suggested by Federal Judge Taylor, which provides that new grants shall be made to the Cleveland Railway Company on the basis of an income of 6 per cent to the stockholders at a fair valuation, the fare to be as low as this income will

allow with good service on all lians. Mayor Johnson early admitted his defeat and stated that the fight would go on even though he is beaten at the mayoralty election in the fail. What move he will make next has not been announced.

MOB TRIES TO LYNCH OFFICIAL

Fury Is Brought On in City Council Over Politics.

The City Council of Indian inclia was virtually in the hands of a mob from 1 to 3 o'clock Tuesday morning and the feeling was so intense that the police had to be continually on guard to prevent violence. The situation was brought on by a combination of Democrats and Republicans, which had for its object, it is alleged, the appointment of primary election inspectors that would be favorable to N. W. Harding, Republican candidate for Mayor, and Charles B. Clark, Democratic candidate for the same office, Lew Shank is the opposing Republican candidate and Charles Gauss the opposing Democratic candidate.

Councilman Royce, a Harding man, slipped out of the chamber just as the vote was announced in Harding's favor and was pursued by a mob with cries of "Hang the scoundrel!" "Shoot the traitor!" and other denunciations The mob pressed on his rear, and see ing no other means of escape Royse ran to the police station. Officers succeeded in protecting the trembling Councilman.

AMUSEMENTS

AT THE CHICAGO THEATERS.

The beautiful Majestic Theater, Chi

ago, continues to stand alone in summer as in winter in the high character of its offerings. It claims to be the only vaudeville theater in the worl offering uniformly high class bills althe year round. It does not favor the policy of playing stars one week and then a selection of sticks for set erals works, in order to make up for the cost. This policy, together with scrupulous care in presenting only such acts as will appeal to self-respecting people, has you such distinction for the Majestic that it is now unl versally considered the standard of vaudeville merit in America. An atmosphere of quiet elegance pervades the establishment, which, with its perfect service of maids and matrons to care for ladies and children, at tended or unattended, has become a favorite recort for people of discernment in Chicago and the western country. It is the reputation for the unequaled elegance and beauty of the theater, the purity of its moral and physical atmosphere, and the exceptional value of its entertainments that draws to the Majestic not only the best people of Chicago, but a large proportion of visitors from other towns and cities. No questionable word or act is ever permitted on the stage of the Majestic Theater. In a hard fought contest at Naper ville last Saturday Downers Grove lost to Naperville by the score of 5 to 1 It was Downers Grove's off day, for Gladstone MacLean pitched the game of his life, striking out ten men and only allowing six hits. Manchester was the only Downers man that could use the stick at all. He got three safe hits out of four times at bat. In the ninth inning, with two men on bases and Manchester at bat, it looked like Downers would get one more tally anyway. SLEEPING CARS.

Comforts We Do Not Have Are Found in India. Here is a description of a new type

of car which is to be used on government railroads in India. How does it compare with the sleeping car which the traveler on American roads is forced to put up with?

The new car is built on the corridor plan, and will be substituted as fast as possible on the broad gauge road running from Bombay northward. It is stated that this coach has the approval of the railway board, and is intended to be the standard type for new rolling stock in India. The coach is of the ordinary bogie type, but in mounted on six-wheeled bogles, which give extraordinary smoothness in run ning. It is built with a corridor running from end to end of the coach. and from this corridor opens out a seure of double entendre, of smoking ries of two berth compartments, the upper berth being of a most ingenious tion is ever held out by this manage | design, so compactly constructed that ment. If the party extend beyond the accommodation of a single compartment, the sliding door connecting it with the adjoining compartment can be left open and the two compartments thrown into one. There is an electric bell, enabling the attendant to be summoned at any hour of

the day or night. At either end of the coach there is commodious bathroom. This is a roomy cabin, with a good bath half sunk in the floor, an abundant equipment of mirrors and all toilet and sanitary conveniences. One bathroom is reserved for women and the other for men. There is a compartment for servants, so that they are within call at all hours. In time it is the purpose to add a room where the heavier luggage may be stored and opened when occasion demands.

American tourists who have used these new cars speak in the highest praise of them.

Men and Lace.

Lace, to-day almost the unique possession of women, owes its development and enrichment, if not its actual existence, to men, now so disdainful of its beauties.

When lace was being slowly evolved from drawn-work, the popes and great prelates of the church used it on their altar vestments and robes, fostered and encouraged its production, and paid large sums for it. Later, lace became an absolute essential of masculine attire in ruffs, in collars, in sashes, in garters, and even as a decoration at the shoe-top.

Rubens were more lace than his wife, and one has only to study the portraits of Velasquez, Franz Hals or and with what ease men then wore lace. Under the Stuarts the collection of laces became a passion of the court, and noblemen were as frequently known for their possession of rare lace as for collections of valuable paintings or gems; and it is rumored that, later, ruffles fell longer over the hands to make cheating at cards more easily possible.

New York street cars killed 444 persons in 1968 and injured 35,060 others.
