CLARK WIN IN

Former President and Speaker Choice of Illinois Voters for President.

DENEEN RENOMINATED

Governor and Ex-Mayor Dunne of Chicago Selected to Head Respective State Tickets-Senator Cullom Beaten by Lawrence Y. Sherman-Result of Vote in Various Sections of the State.

Chicago. - Ex-President Theodore Roosevelt and Champ Clark of Missouri, speaker of the national house of representatives, are the choice of the Republican and Democratic voters of Illinois as expressed at the primary election held throughout the state on Tuesday.

The returns indicate that the former president carried the state by a plurality of 140,000 over President Taft and Senator La Follette.

The returns indicate that fifty-six out of the fifty-eight Illinois delegates from friends who wrote him to look to the national convention will be instructed to vote for Colonel Roosevelt. He captured forty-eight of the fifty district delegates and the eight delegates-at-large will be elected by the Republican state convention and instructed for Roosevelt by the popular vote in the state at large.

Speaker Champ Clark was indorsed for the Democratic nomination for president by a majority of approximately 135,000. Mr. Clark carried Chicago by about 80,000 over Governor Woodrow Wilson of New Jersey and more than beld his own downstate.

Charles S. Deneen was renominated for governor by a plurality of approx-

imately 75,000. Edward F. Dunne, former mayor of Chicago, was nominated for governor by the Democrats by a plurality of

about \$5,000. Senator Shelby M. Cullom, continuously in public life for fifty-seven years, was retired as effectively as an advisory primary ballot can bring about that effect.

Returns show that Lawrence Y. Sherman is the choice of the Repub-Heans for the seat in the upper house of congress that has been occupied by "Uncle Shelby" since 1883, and his

plurality will total close to 30,000. Since both Senator Cullom and Mr. Sherman repeatedly announced that they would abide by the result of the balloting, it is considered almost certain that the legislature will follow the expressed will of the people and

elect Sherman to the senate. J. Ham. Lewis of Chicago had no opposition on the Democratic ballot and received the united support of all factions.

Taft Beaten Three to One. Ex-President Roosevelt carried nearly all of the counties in the state. He defeated President Taft by a vote of at least three to one from Galena to

Both the Cannon and McKinley districts were swept into the Roosevelt column by an unprecedented plurality. Livingston county, the home coun-

ty of Col. Frank L. Smith, President Taft's western manager, is in the Roosevelt camp by a three to one vote. Roosevelt carried Cook county by

a plurality of approximately 30,000. Official returns from down state probably will swell his plurality to more than 140,000 votes.

La Follette polled a fairly good vote in the mining and union labor districts. In some sections down state his vote ran close to that of President

Champ Clark smothered Governor Wilson both in Cook county and throughout the state. The national speaker swept Chicago by a plurality over the New Jersey governor of close to 50,000 votes.

Clark's Lead 100,000.

Clark's lead in the entire state will run close to 150,000 votes. He carried every congressional district in the state, which probably will carry with it the instructions of the delegates at large to be named in the state convention at Peoria on April 19.

Blame Combination for Defeat. Governor Wilson's overwhelming defeat in Chicago was a blow to his supporters who found some consolation, lowever, in the charge that a coalition the Clark-Harmon forces had brought about the former Princeton

resident's undoing. The New Jersey man developed me strength in some unexpected parters, notably St. Clair county, hich embraces East St. Louis, but at Sangamon county, which includes ringfield, by 400. The only other y given to Wilson was Winneto, which he won by the small mar-

Clark carried, in addition to Sangaa county, the following: Adams, to 1; Bond, by 8 to 1; Brown, by 1; Cass, by a small margin; Coles, lingham, by 1,200; Henry, by nox, by nearly 2 to 1; Mato 1: Madison, which borfason, by 2 to 1; Me

vised, give Roosevelt, 72,433; Taft,

44,107; La Follette, 12,103. The total vote cast on the presidential preference in the city of Chicago was 271,187. There were 142,534 Democratic ballots and 128,187 Republican ballots.

Champ Clark carried Cook county by approximately 90,000 majority. In a majority of the down-state counties he ran ahead of Governor Wilson. Clark carried every Cook county congressional district. There were several sections of the state where the New Jersey governor showed strength, notably St. Clair county, which embraces East St. Louis. The Clark managers declare that they have won by an average vote of 4 to 1 all over

Clark Pleased With Victory. Washington,-"It goes without saying that I am delighted with the news from Illinois," said Speaker Clark, speaking of the Illinois primary elections. "I would be either more or less than human if I did not feel good over the spleadid victory which my friends achieved. I have now something over 130 delegates. Of course, these cannot nominate a candidate, but they constitute a fine start in that direction.

"I am profoundly grateful to the Democrats of Illinois and hope that those in other states will go and do likewise."

Cullom Will Accept Verdict. Washington.—Senator Cullom was greatly disappointed with the returns from the Illinois primaries. He had been led by the reports which had come to him from his managers and forward with confidence to the outcome. He expected Mr. Sherman to give him a hard race, but he looked forward to the voters of the state permitting him to die in the harness, which was his great desire. Mr. Culiom stated that should the final returns show that he is not the choice of the Republicans of the state for senator, he will completely withdraw from the race and will accept the verdict of the primaries and will not permit his name to be presented to the legisla-

All the present state officials were renominated by large majorities,

Lieutenant Governor John G. Oglesby won renomination on the Republican ticket over Reuben R. Tiffany of reeport. Some of the Deneen men vere supporting Tiffany, but factional nes were not closely drawn. Kinute Datewig, village clerk of Lee county, who can on an anti-Lorimer platform, failed to make much headway.

Secretary of State James A. Rose, who has served for sixteen years, won enomination over Chester W. Church f Chicago.

Auditor of Public Accounts James S. McCullough, who has served the same ength of time as Mr. Rose, was renominated on the Republican ticket. His opponents were George A. Smith of Chicago and John K. Ball of Carmi,

Attorney General William H. Stead, with eight years of service to his credit, won the Republican nomination over Frank R. Reid of Aurora. Reid made a strong fight, but the principal faction leaders remained out of the contest or threw their support to Stead, John B. Weaver, county judge of Sangamon county, was a third candidate.

The contest for the Republican nomination for treasurer was close between Andrew Russel of Jacksonville, former state treasurer, who retired two years ago because of the constitutional provision that a treasurer must not serve two consecutive terms, and L. L. Emmerson of Mount Vernon. The Deneen forces backed Emmerson. William E. Rothermel of Chicago and Herman R. Heimberger progressive, also were candidates,

Cullom's Record Unique.

The retirement of Senator Cullom from public life means the removal of the last remaining link between the days of Abraham Lincoln and the nation's present-day statesmen.

For fifty-seven years the name of Shelby M. Cullom has been associated intimately with some phase of national, state, county or civic activities in Illinois. For fifty-seven years he has occupied some public office.

And one of the peculiar features of the record is that with but two exceptions all of the offices were direct from the people. The two appointive offices he filled for only a short time. While other men have served in various appointive offices for that period, the retiring senator stands alone in that the people selected him repeatedly to serve them year after year for more

down before the Roosevelt tidal wave by the same three to one lead.

Coles and Dewitt counties, two of the counties in Congressman McKinley's district, were carried by Roosevelt by a big lead. Kane county, the home county of

former Senator Albert J. Hopkins, was carried by Roosevelt by 8,000 plural-Vermilion and Champaign counties. the home counties of Congressman

Cannon and Congressman McKinley, are also in the Roosevelt column. The city of Danville, as well as Champaign, gave a preference to Roosevelt. Roosevelt also swept Monticello,

Platt county, the home city of Speaker Charles Adkins of the Illinois house of representatives.

Densen and Dunne Head Tickets. In the gubernatorial fight Governor Deneen was renominated by a large plurality. He carried Cook county by about 20,000 and ran ahead in most of the down state counties.

On the Democratic side Edward F Dunne, former mayor of Chicago. swept everything before him in Chicago and his plurality is about 35,000. Second place in the Republican con-

test was between State's Attorney John E. Wayman of Chicago and Len Small of Kankakee, the Lincoln Lorimer league candidate. Wayman ran second in Cook county, with Small a heated atmosphere.

Walter Clyde Jones, progressive Republican candidate, ran fourth in Cook county. Charles F. Hurburgh ran fifth in Cook county, former Governor Yates sixth, John J. Brown seventh and J. McCan Davis eighth.

Dune's plurality in Cook county from 40,000 to 50,000 over Samuel Al schuler. Ben F. Caldwell ran a poor third. In the down state countles, however

the result was different. Caldwell and Alsohuler each carried many counties McLean county was carried by Governor Deneen by 90 votes over former Governor Yates, who carried the county four years ago. Wayman ran third. Small fourth, Hurburgh fifth, Brown sixth, Jones seventh, and Davis eighth Bloomington, in this county, is the home of Senator Frank H. Funk, who was one of Senator Hurburgh's cam-

paign managers. Former Gov. Richard Yates furnished the surprise party to the seasoned politicians. His down state vote was exceptionally heavy, but not near ly enough to bring him within striking distance, considering the great lead which Governor Deneen seized early in Cook county and the northern Republican countles.

TWO HANDSOME DESIGNS FOR WALKING COSTUMES.

Dark Green Face Cloth is the Material Employed for the One on the Left, Navy Serge Suggested for the Other.

The first costume pictured is in dark green face cloth and has the skirt made with a double front, turned back in a revers at the left corner faced with black satin.

The Russian coat has a long basque joined to the bodice under a satin band, terminating in a bow at the side; the revers, collar and cuffs are also of the satin. The coat is high to the neck and has a stand-up turn-down collar.

Hat of black satin, trimmed at side by wings of the same.

Materials required: Six yards cloth 48 inches wide, one yard satin 20

inches wide, six yards silk or satin for lining coat.

The second would make up well in navy serge; it has the skirt trimmed with a braided piece added at the sides and a panel down front,

The semi-fitting coat has wrapped seams to correspond with those on skirt; it is single-breasted and fastens below the collar, which is braided, so also are the pocket flaps and cuffs. Hat of black satin, trimmed at

side by a large button and two quills. Materials required: Five yards serge 46 inches wide, two dozen yards Russia braid, four and one-haif yards silk or satin for lining coat,

WARM BATH TO INDUCE SLEEP

Effect of Water, with a Liberal Dash of Ammonia, is to Dispel Unnatural Fatigue.

I have frequently heard young people, especially girls, say that after a dance or ball, they are totally unfit for anything all the next day, and very often they are unable to sleep owing to fatigue and long hours in a

Now, I propose an unfailing remedy for this state of things. True, it may entail a little trouble and delay going to bed, but only a few minutes.

My advice—is to have a warm bath, to which a liberal dash of ammonia has been added. Do not remain in the bath, but jump into the warm water, sponge the body all over and then dry quickly. Sleep, sweet and restful, will follow. There will be no twitching of the limbs through over-fatigue, and you will wake some hours afterward with an appetite for breakfast and ready to enjoy a brisk walk in the fresh air.

In these modern days there is no difficulty about hot water, and there should be no excuse for neglecting this advice. It must be remembered. also, that the body must have been in a state of perspiration for many hours, and the warm bath with ammonia is not only cleansing but will prevent your taking cold.

A corner cut out of a large en velope makes a good bookmark, especially useful where several leaves in a book are to be held together .-Exchange.

The Long Glove.

So many of the smart little taffeta coats accompanying dressy costumes have threequarter sleeves that long silk gloves will be sure to have great popularity this summer. The shops are showing delightfully dainty glovewear in this linelong wristed affairs of champagne colored silk with embroidering in self color, or of white silk with white embroideries or small cameo patterns embroidered in black.

Bedford Cord for Girls. Bedford cord is a material which is o have a decided following for the summer dressing of girls who have graduated somewhat from sash frocks. Little frocks will be made of it, and many of these will have coats to natch-long tailored affairs, buttoned high up to the neck, and possessing genuinely protective qualities

FOR WEAR ON STREET PRETTIEST OF FROCKS

DAINTY ONE-PIECE STYLES ARE VERY CHARMING.

in Addition to Bestowing Air of Youthfulness, the Home Sewer Will Find Them Easy to Make-Simple Trimmings.

The woman who can wear the slim, lainty little one-piece frocks now so much in vogue is lucky indeed, for never was there a more youthful and tharming style. Then, besides takng quite ten years from one's agewhen this is necessary—the one-piece; trock is a matter of so few seams that it can be undertaken by the most modest sewer. As yet the various models require little material, too, and self trimmings are among the newest and daintiest ideas of garniture. The affetas are cut up into narrow frills lor finishing off collars and cuffs, they tre made into plaitings put on with t middle stitching, they are coquetted into toy-like bows for bodice fronts, shirred over cords, made into puffs, etc. From the quaintest old fashion sooks, in fact, ideas are taken for the new trimmings, and, since the old notions were prodigiously in favor of and-made ones, any decking which can be turned out by cunning fingers is smarter than any other.

All of the supple siks and satins are manipulated in these ways, taffeta ending itself especially well to the quaintest deckings. The veilings always require a touch of lace and maybe a bit of silk to set them off, but the silk always shows a deal of finger magic, the belts and other decking of it showing vertable conjuring. The most exquisite letle silk ruches as narrow as petticoat tapes are used on the more elaborate of the veiling dresses, these going about peplum, collars and cuffs and trimming the skirt some-

The illustration shows one of the half-made bodices, and it is on white chiffon with crystal beading. The draped effect of this bodice is very new, and all the lines of it would be enhancing to a good figure and fine throat; if the deep decolletage of the back and front is an objection a little "modestie," a bit of concealing net or lace, could be put at the bottom of the V. This design is limited to soft fabrics, for only a very delicate texture would look well used in this close-

ly gathered manner. But all of the novelty veilings and tissues and lace nets are permissible, and if more simplicity is desired a pretty evening veiling could be belted only with silk and trimmed about the sleves with a matching fringe. To keep the belt in the proper pointed shape it would be made up on a bias tarlatan foundation. The slik should also be bias for the belt itself, so that it will sink into the figure.

MARY DEAN.

New Lace Vella.

Chantilly and malines laces are among the newest ideas for spring veils, particularly the cream white ones, which are becoming against the skin. Some of these are long, draped gracefully round the hats and hang-

ing at the back. The return of the waistline has given opportunity for the display of neat belts. These are in suede and patent leather, quite narrow, and the more decorative are adorned with jewels. Jeweled shoes also are a fashionable fad of the moment. Diamonds and other precious stones adorn shoes of gold and silver brocade and duchesse lace.

Jacob's Eadders.

In stocking tops, Are a fearful bane.

All women know how they amno Fold a piece of quarter-inch metin

In the middle and sew to end of state er elastics.

Sew two or three loops of silk braid to stocking tops. Run the ribbon through these and
