Topknots Have Vanished and Hats Re appear-Changes Among Women-"Hamlet" Being Given and Classic Music Is Enjoyed.

Tokio, Japan.-Dr. Thomas C. Mendenhall last summer revisited Japan after an absence of 30 years. He says that it was not the tall chimneys of new factories or the big steamships flying the Japanese flag that most impressed him, but a thousand minor details which nevertheless made the contrast with the picture of life there as he had remembered it.

"What, for instance, had become of the topknot, or small tuft of tied up hair, that partially covered the shaven head?" he says in the Oriental Review. "Gone, absolutely! Not one was to be seen in Nagasaki, Osaka, Kioto, Tokio or other city, except on the head of an actor and then it was soon discovered to be part of a wig. In the country one or two were found, the insignia of ultra conservatism.

"The absence of the queue was made up for by the presence of the hat on the head of nearly every man and boy; although formerly the habit of hat wearing was so rare that hats were constantly found where last deposited by the owners, who had gone off without ever missing them.

"Shoes of the western model have become nearly as necessary a part of a man's dress as the western hat and the number of men who clothe themselves completely after the western fashion is now so great that they have long since ceased to attract special attention.

"Few things in Japan have been so fixed and unalterable as the fashion in woman's dress. While the material of which it is composed may range from the poor and cheap to the rich, costly and exquisitely beautiful, the model has been practically the same for centuries.

"But even in this a very consider able change has somehow been brought about, and it is especially noticeable in the style of hairdressing now all but universal among Japanese ladies. The new style is vastly less complicated and difficult, and

In Old Japan.

hence less costly than the old. It is not very unlike some of the fashions recently in vogue among the western people, and to the general European taste is more artistic and beautiful than the elaborate coiffure which so long prevailed.

"There are many indications of a tendency to change other long established features of the costume of Japanese women and it does not seem rash to predict the abolition of the obl, the tremendously large, heavy and often very expensice girdle, with which a Japanese lady encircles her waist and which in the eyes of most foreigners detracts so much from the grace of her movement.

"To abandon this classic feature of woman's dress at once would be little short of a revolution; but already it has disappeared from the authorized and generally prescribed out it of young women and girls at school. who now dress in very attractive style, uniform in model with charming variations in color according to the taste of the wearer.

AMUSEMENTS.

Giacomo Puccini's beautiful opera "Tosca" will be the offering of the Aborn English Grand Opera Company at McVicker's Theatre for the week beginning Sunday, April 28. This opera is founded on a libretto adaptation of Victorien Sardou's terriffic and dramatic play, "La Tosca," which was written for Sarah Bernhardt and was played through this country by Fanny Davenport and other great actresses. The story is intensely dramatic, deal ing with the fortunes of Floria Tosca the Roman singer who is beloved by the artist, Cavaradossi and Scarpia the governor of the fortress. For minor political offense Cavaradossi is condemned to death by Scarpia, who wishes him out of the way that his own suit for the love of La Tosca may prosper. Tosca loves the artist and prepares to sacrifice herself to Scarpia to save Mario's life. The wily governor prepares a sumptuous feast for the singer, but during the supper he inadvertently let her know that the execution of Cavaradossi is to In a fury of anger Tosca seizes a knife from the table and kills Scarpia, and then hearing the bells toll for the banquet room and leaps off the battlements to her own death. To this tremendous theme Puccini has wedded music that throbs with love and passion and fits the story as a glove fits the hand. The Aborn company will cast the opera with its full urged to attend. strength.

READY MONEY" AT CORT THEATRE, CHICAGO.

H. H. Frazee's production of James Montgomery's brilliant comedy, 'Ready Money," which is now looked upon as the latest and greatest comedy hit of Chicago's dramatic season, enters upon its fifth week at the Cort Theatre Sunday night. The new ideas with which the play is filled and its brilliant wit have kept audiences in a constant fever of merriment and excitement. The play is a boon to everyone who wishes for a new surprise at the theatre. While the story of the comedy advances a new idea, the novelty of the piece does not end there but has idea upon idea that is refreshingly new and wholesome to the theatregoer who feels that he has seen everything. Here is the story of a young man who regards himself as a failure entering upon New Year's eve with but twenty-five cents in his pocket. A man of the world decides that through him he will prove his contention that a man can be successful as he lets others believe he is that he has been successful as money maker the world will be on his side to make more. "If you've got money you don't have to spend it, all you have to do is to show it," says the man of the world. "Money gets money. If the world sees that you are getting everything from what you have to sell, it will fight to get in on it." In proof of this, he has the young man flash for a moment a roll of fifty one thousand dollar bills, and this action is the commencement of hundreds of different adventures and episodes of excitement which follow.

WHITNEY OPERA HOUSE.

Wm. Anthony McGuire, author of "The Divorce?" which opened at the Whitney Opera House, April 20th, believes that an imitation of an action low will be sent to the Dead Letter does not fit the American drama anymore than Webster's definition of a melodrama fits our present conception of this form of art. "Webster, I believe," remarked the author, "defined a melodrama as a play with music and yet I dare say that if would | Elgin, III.; C. A. I should call a melodrama that | Cards: Mrs. P. Peters, from Chicago, which appeals directly to the emotion [11]. and I should distinguish a drama that which touches the emotion through the intellect."

"Theatre-goers don't like the truth?" Question asked frequently. Perhaps an affirmative answer is correct; maybe a negative is more accurate. Wm. Anthony McGuire has given Rowland & Clifford a play the story of which should determine whether or not the public likes to hear the pitiful ending of the evils of the present day moral code relative to the divorce laws.

Surely Matter for Complaint. A lawyer noted for his ignorance,

filed a petition in a divorce case in which he alleged that: "At divers and sundry times the defendant tried to poison the plaintiff without reasonable cause."
