

ILLINOIS

STATES DELIVERING INTOXICATING LIQUOR

ENACTS DRASTIC LIQUOR LAW

Make it Unlawful for Any Person Delivering Intoxicating Drink Within City of Jacksonville.

Jacksonville.—The city council of Jacksonville adopted one of the most stringent of anti-liquor ordinances at its meeting on record. The measure makes it unlawful for any railroad or common carrier or for any person to bring in or deliver any intoxicating liquor within the city of Jacksonville. The penalty fixed is a fine of \$50 for every violation.

Champaign.—Physical education and the use of "canned" music in the schools were discussed at the high school teachers' conference. E. F. DeWitt, general secretary of the playgrounds of Chicago, contrasted playground and college athletics to the disadvantage of the latter. George Huff, director of athletics of the University of Illinois, declared that he disagreed with this portion of the Chicagoan's address. "Sane, clean and helpful athletics in high schools are a question of administration," said Mr. Huff. "To demonstrate the possibility of 'canned' music in the schools, a mechanical music program was given by the university school of music. Announcement that the University of Illinois would establish a normal school of physical education next year was made by Mr. Huff in an address before the state high school teachers.

Springfield.—The fate of Ray Franz, who is under sentence to hang for the murder of his parents, his sister and a school-teacher at the time the Franzschmidt home was burned a year ago, rests with the state supreme court, which will convene for its December term next Tuesday. An appeal has been sent to a high court which saved the young man from the gallows October 23. The ruling of the supreme court will determine for a second time whether Franzschmidt will die for the alleged quadruple murder.

Pawnee.—John Thompson, residing at Taylorville, and employed as a brakeman by the Chicago, Illinois & Midland railroad, was seriously injured while performing his duties at Kincaid. Thompson, who was switching in the yards at Kincaid, was struck in the back of the head by a push pole which was being used to move a freight car on another track. Thompson suffered concussion of the brain and was rushed to Taylorville, where he is in a serious condition.

Pocahontas.—Postmaster L. F. Meek of Pocahontas received three postal cards demanding that he deposit \$250 in cash in a certain spot or "suffer the consequences." The matter was turned over to the police, who set a trap for the blackmailers. A man giving the name of William Davis of Burlington, Ia., appeared at the place where the money was to be delivered and was arrested. He has confessed.

Springfield.—Governor Dunne received word of the death at Jacksonville, Fla., of Charles E. Jennings of Salem, a member of the state board of gardens and cousin of W. J. Bryan. Mr. Jennings went to Florida for the benefit of his health. Two years ago he was presiding judge of the Chicago municipal court for several months.

Jacksonville.—The reports alleged mistreatment of Mina Russell, aged sixteen years, who committed suicide at the home of J. E. Davenport at Plagah, seven miles southeast of here, October 23, caused an investigation of the case by the state board of administration, with the result that the body was exhumed and the coroner's inquest reopened.

Macador.—The Deodar mill of the American Hosiery company was burned to the ground. The loss amounted to over \$100,000. The fire started in the dryer-room at the top of the mill and burned downward. This mill is said to have ground more yarn than any other mill of its size in the world. It will be rebuilt.

Kincaid.—When Sheriff Shaffacker arrested Charles Jacobs residents of North Lincoln swarmed about the official and tried to take his prisoner away from him. The sheriff became angry and soon dispersed the mob, many of whom were women.

Granaco.—Albert Wilhour, a farmer, was attacked by a vicious bear which he was feeding. The animal knocked him down and sank its tusks into his left leg. A farm hand drove the infuriated animal off with a pitchfork.

Fitzfield.—A panther has been terrorizing residents of Hardin township. Many farmers are keeping their children home from school, fearing they will be attacked by the beast.

Taylorville.—Paul Funderburk of Charleston, sixteen years old, was recently killed and Fred Behr of Charleston, twenty-four years old, was probably fatally injured when they were struck by a Wabash freight train near the southbound, as they lay asleep on a track.

Lawrence.—Three Canton young men were sentenced by Judge E. S. Wood to pay a fine of \$25 and costs on the charge of riot, having entered a house of public entertainment and caused a disturbance on the streets and in the neighborhood. For each day's labor they will be given \$1.50.

COMMUNICATIONS

ILLINOIS NEWS TERSELY TOLD

Champaign.—Kenneth McClellan, four years old, shot and killed his two-year-old sister with a revolver he found under a bed.

Pontiac.—The Illinois hotel at Fairbury burned. Guests-escaped without injury. Insurance of \$24,000 will cover all losses.

Quincy.—Illinois farmers' determination to reclaim the land along the Mississippi river and make it productive was shown in practical form. Ten of them raised \$68,456.95 cash for drainage construction work.

Champaign.—Because they killed a red deer, which had escaped from the F. K. Robeson farm, seven men were fined \$50 and costs. It was the first prosecution of its kind in central Illinois.

Sauconin.—While chaffing Mr. and Mrs. Harold Holdridge of this city, Robert Trop of Pontiac was wounded. He tripped and fell, discharging a shotgun he carried. Five shots entered his face. He will probably recover.

Sycamore.—Miss Hope Piper and Harold Hooker were married in the home of her uncle, William Swimbank. The bridesmaid, a great-aunt of the bride, Mrs. Margaret Swimbank, is one hundred and one years old. She is in good health.

Springfield.—Town clerks in Illinois have been warned of the legal requirement that they must report all fires to the state marshal's department. Acting State Fire Marshal F. R. Morganridge has sent out a letter urging clerks to report promptly all fires.

Stirling.—William Rollins, locomotive fireman, confessed to Northwest-ern railway detectives here that he reported he had prevented an attempt to wreck Northwestern trains in an effort to obtain a reward so he could get married. He said the story was false.

Springfield.—All records for number of applications received by the state civil service commission for positions in the classified service have been broken, due, probably, to the change in administrations. As a result, the postal appropriation for the state commission is nearly exhausted. November broke all records for a single month, with a total of 1,125 applications.

Anna.—The funeral of Mrs. Nancy B. Jackson, eighty-five years old, who died in Jonesboro, was held in that city under the auspices of the Order of the Eastern Star. She was postmaster of Jonesboro during Cleveland's first administration. She served on the reception committee at the Lincoln-Douglas debate. She was present at the unveiling two years ago of the tablet marking the spot where the debate was held.

Pana.—The lives of Fred Jewett, engineer, and a dozen top men at Penwell coal mine were endangered when Jewett lost control of his engine and carried a mammoth cage through the 90-foot tippie. Another cage, unoccupied, went to the bottom of the 720-foot shaft. The heavy steel hoisting ropes were snapped and whirled about the engine-room and top plant. Three hundred men were thrown out of work pending property repairs. Damage was heavy.

Mount Vernon.—Officers are looking for four men, who, Walter Vaughn, a young man, alleges, twice overpowered him and tied him to tracks of the Wabash, Chester & Western railroad. Vaughn says that a few minutes before a passenger train from the west was due, a stranger passing liberated him. He started to walk to Mount Vernon, when his assailants again attacked him, he says, and bound him to the rails a second time. He says he was again liberated by a man he did not know, who accompanied him to Mount Vernon.

Rockford.—Missing from the Ransom sanitarium here for several days, officers of northern Illinois and southern Wisconsin have been asked to help in the search for Mrs. Belle Cox, wife of a prominent merchant of Champaign, Ill. The woman, who had been taking treatment for nervous breakdown, was only clad in a light house dress and shawl when she left. Several weeks ago she escaped, but was brought back by a farmer. She then announced she would walk back to Champaign whenever she could get away. Her husband is here assisting in the search.

Pana.—The most peculiar hunting accident on record in central Illinois occurred near Tower Hill when Earl Bare, eighteen years old, while hunting on horseback, in firing at a flock of prairie chickens, blew off the head of his horse. When Bare discovered the chickens he decided to shoot without dismounting, and as he dropped the bridle rein on his horse's neck the horse put his head to the ground to graze. The horse raised his head as Bare shot, getting the full charge of the weapon. The animal fell dead and Bare was caught underneath him and his legs were crushed. No chickens were killed.

Stirling.—For the second time in a week an attempt was made to throw a Chicago & Northwestern train into the river at the curve east of this city. Ties were piled on the track, but were discovered in time to avert a wreck. A few days ago thirteen holes were drilled in the rails ahead of the fast mail, but were discovered by section men. Officials believe a maniac is at work.

Champaign.—The body of Mrs. Ethel Youngman, bride of four days, killed in a railroad accident at Fairfield, Ill., was brought to her home in Champaign.

ILLINOIS NEWS TERSELY TOLD

LAUNCH \$14,000,000 WARSHIP.

New British Dreadnought Said to Be Most Formidable Afloat.

(By The Associated Press.)
Devonport, England, Nov. 26.—The British superdreadnought Warspite, which is to cost \$14,000,000 and will be the most formidable battleship afloat, was launched here today in the presence of an enormous crowd.

The Warspite is to be driven entirely by oil engines and has receptacles for the storage of 4,000 tons of liquid fuel, sufficient to take her around the world. The armament will include eight 15-inch guns and several anti-airship guns. She was laid down Oct. 31, 1912.

WALDORF-ASTORIA USES BITTER ROOT POTATOES.

Steward of Famous New York Hotel Brands Bitter Root Tubers Best for Baking.

Here is what the hotel steward of the famous Waldorf-Astoria Hotel of New York City says about Bitter Root Valley potatoes, on page 775 of The Country Gentleman for May 17, 1913:

"During the past season we have used Montana potatoes exclusively for baking purposes. We heard of the big dry tubers being served in western dining cars and got samples from Idaho, Montana and Oregon. After several tests we LIKED BEST those from the BITTER ROOT VALLEY in Montana, but we have to buy them in carload lots, and as we use only the baking size, it is necessary to dispose of others through the commercial trade. There are western potatoes graded and wrapped like fruit, but we have found this the most economical way to get what we want in that line."

In the same article it is stated that lately Uncle Sam has prohibited the importation of all potatoes to prevent bringing in potato disease, and that American growers will have to produce the entire supply.

ADVERTISED LIST.

Letters advertised below will be sent to the Dead Letter office Dec. 15, 1913, if not called for prior to that date. A charge of one cent on all advertised matter.

Miss Helen McDonald, from Chicago, Ill.

Mr. Geo. Wilson, from Chicago, Ill.

Mr. J. A. Williams, from Brooklyn, N. Y.

Albert C. Stanley, Postmaster.

Had Sorted the Bottles.

"Here," said the proprietor of the place, "is a little gift for you and Jake. Each bottle is finest old Kentucky rye. You drop in at Jake's on your way and give him his, will you?" "Sure," replied the grateful one. On his way he fell and broke one bottle. "Poor Jake," he murmured, picking himself up.—Nashville Tennessee.

Music as Medicine.

A reporter once asked Oscar Hammerstein if he believed in the new therapeutic idea that music was a medicine. "Believe in it? Of course I do," the impresario replied. "I know at least three operas that are a drug on the market, while as for popular songs, there isn't one of them that doesn't make me ill."

Negligible.

"They tell me," said Mr. Robbetta, "that the automobile is absolutely destructive of humility." "Wa-al, that ain't much of an objection," said the rural sage. "They ain't so much humility left in the land these days that the loss of it'll come to much."—Judge.

Sunday School Scholars.

The number of Sunday school scholars of all countries is about 27,000,000, of whom 14,000,000, or more than half, are in the United States. England and Wales come next with 7,000,000—no other country having as many as a million.

Daily Thought.

Weakness on both sides is, as we know, the motto of all quarrels.—Voltaire.

UNIVERSITY OF ILLINOIS PURCHASES AN AYRESHIRE BULL.

W. J. Fraser, professor of dairy farming, purchased of Adam Sells of Waukesha, Wis., at the National Dairy Show, an Ayrshire bull to head the Ayrshire herd at the University. This bull is an excellent individual and especially well bred.

His dam made an official record as a two-year-old of 10,000 pounds of milk and 36 1/2 pounds of butter fat, and has won many prizes in the show ring over the middle west. His sire is the champion Ayrshire bull of America and has several daughters in the advanced register.

FEEDING EXPERIMENT NOW IN PROGRESS.

The Animal Husbandry Department of the University of Illinois has recently purchased 86 head of strictly high grade Angus calves averaging 500 pounds in weight from Elliot Bros., Estill, Mo. These calves have been divided into seven lots and placed on feed to continue the investigation begun last year on the relative value of various combinations of corn, corn silage, alfalfa and cottonseed meal for fattening calves.

In determining the rations used in this experiment emphasis was placed on the problem of developing some method of utilizing silage as the main part of the roughage during the first part of the feeding period and then changing to alfalfa during the latter part. This experiment began Nov. 22 and will last about 250 days.

A FINE TREAT FOR OUR SUBSCRIBERS. 1914 POKK-ET DIARY.

We take pleasure in announcing that any of our readers can secure a 96-page 1914 diary, free of charge, by sending a two-cent stamp, the actual postage, to D. SWIFT & CO., Patent Lawyers, Washington, D. C. The diary is bound in a pretty, stiff red cover, contains 96 pages, note spaces for the 365 days of 1914, a calendar for 1914 and 1915, states the popular vote given by each state for Wilson, Roosevelt and Taft; also the political division of each state in the United States Senate and House of Representatives, the population of each state in 1900 and 1910; the population of about six hundred of the largest cities in the United States, a synopsis of business laws, Patent Laws, and much other useful information.

The Downers Grove High School team in a body attended the service at the Baptist church Sunday evening in compliment to Rev. Babcock, who has been their coach the past season. The members of the team are: Earl Prince, captain; Arno Uhlhorn, manager; Walter Sherman, Stewart Burns, Frederick Sacksteder, Romano Lacey, Malvin Butler, Edwin Curtis, Walter Fredenhagen, Axel Johnson, Holger Jorgensen, Elburn Stanley, Gale Washburn, Cecil Miley, Charles Davis, Dan Diener.

A CONFIRMED STATEMENT

Evidence Downers Grove Readers Will Appreciate.

Doan's Kidney Pills have done splendid work in this locality. Have merited the unstinted praise they have received.

Here's evidence of their value that none can doubt.

Its testimony from this locality twice told and well confirmed.

Such endorsements are unique in the annals of medicine.

Should convince the most skeptical Downers Grove reader.

Charles C. Reese, 40 Oakwood st., Downers Grove, Ill., says: "I suffered a great deal from pain in my back and my kidneys were weak, due no doubt to the constant jarring I received on the railroad. A few months ago I procured Doan's Kidney Pills at Bush & Simonson's drug store and the contents of the first box brought great relief. I continued their use and was soon rid of the trouble. I always intend to keep a supply of Doan's Kidney Pills on hand." (Statement given March 4, 1907.)

Re-endorsement.

Mr. Reese was interviewed on Dec. 14, 1909, and he added to the above: "I can still say a good word for Doan's Kidney Pills. They gave me prompt relief and I now have no need of a kidney medicine whatever."

Protection Against Crime.

It is estimated that there are in use in the United States about 100,000 elaborate electric protective systems against crime, about 300,000 smaller systems, and some 2,000,000 minor devices.

Cats can smell even during sleep.

If a piece of meat be placed immediately in front of a sleeping cat's nose the nostrils will begin to work as the scent is received, and an instant later the cat will wake up.

Time for Silence.

There is one man in the country who says he is able to tell a woman's age by looking at her. Maybe he can, but if he has any sense he won't do it.—Toledo Blade.

R-R-Revenger.

Friend—"So the editor rejected your verses, did he?" Postman—"Yes, but I got even with him. I rejected his son."

A GREAT BARGAIN!

I have for immediate sale several sets of **THE AMERICANA.**

The World's Greatest Reference Work,
18 Volumes 3000 Illustrations
18000 Pages 65287 Subjects
Hand-bound in 3/4 Black Morocco, Stamped in Gold.

The price of this monumental work is \$112.00 per set. My price on these sets is less than one-third of the above; terms and payments to suit.

No doubt many readers of this announcement have always wanted to own an ENCYCLOPEDIA, but have been deterred from buying because of the large investment required. Here is a chance to secure a work of highest authority and best arranged on the market at a fraction of its real value. Call me up, or write and I will be glad to give full particulars!

Athena Knit Underwear

disposes of the life-long complaint that knit underwear relies entirely for its fit upon the elasticity of the fabric

ATHENA UNDERWEAR

FOR WOMEN, MISSES, CHILDREN

IS TAILORED TO FIT WITHOUT STRETCHING

HOW many women would accept a tailored suit which depends for its fit over the bust and the hips upon the elasticity of its materials? Yet there are scores of brands of knit underwear which depend almost entirely upon the elasticity of the fabric for a semblance of shapeliness.

Athena Underwear, on the contrary, is cut to fit, tailored to fit, and actually and truthfully does fit without stretching.

The features combined for the first time in Athena Underwear all contribute to its tailored perfection

THE PATENT-FITTED SEAT—The most notable improvement ever made in underwear designing, being so shaped that it clings snugly to the figure in any posture.

THE THREE-CORNERED GUSSET—Relieves the strain at the thigh, giving greater comfort and longer wear.

THE PERFECTED SHOULDER-STAY—Keeps the garment from stretching down over the shoulder and holds the sleeve in place.

THE FITTED SHOULDER AND SLEEVE—Give the natural form to the bust and the proper tapering to the back.

THE EXTRA-ELASTIC CUFF—Holds the sleeve in place and keeps it from slipping up on the arm.

SHAPING AND SIZING—Giving Athena garments the actual body lines and proportions, and affording sizes that will fit with tailored precision.

You can buy Athena at the price you have been paying for ordinary underwear. Made in thirty-eight fabrics—comprising sheer light-weight lisle and cotton, light-weight wool, heavy-weight cotton (fleece and unfleece), heavy-weight wool, silk and wool. Twenty-eight distinctive shapes.

McAllister-Weaver Co
