

LIVE STOCK SHOW

WHAT IS THE INTERNATIONAL?

The International Live Stock Exposition, to be held at the Union Stock Yards, Chicago, Nov. 29 to Dec. 6, is the world's largest and best show of live stock.

It is a school of ripe education ready to use. It is a stimulator of useful thought and action.

It is a measure of progress, a maker of standards.

It is a guide for breeders, a breeder of feeders.

It is an eye-opener to the public, a fountain of human interest.

It teaches, inspires, entertains, awakens and directs.

It reveals the scope and strength of the live stock industry, increases trade, brings men into helpful contact with one another and enlarges their horizon.

It trains the eye, builds business, broadens men and compels improvements in live stock.

It affords a pleasurable and profitable trip.

It encourages beginners in stock breeding and feeding and imparts practical information through eye and ear.

It presents for inspection the best draft horses, the best cattle of all the beef breeds, including their grades and crosses, the best sheep of all the breeds, with grades and crosses, and the best hogs, with their grades and crosses, that the breeders of the United States and Canada can produce.

It is educationally adapted to the farmer, the breeder, the feeder, the ranchman, the student, the business man, the women of farm and city, and the public in general.

No person at all interested in the progress of agriculture can afford to miss this greatest and first of all live stock shows.

MORE RECORDS BROKEN IN CONNECTION WITH THE CHICAGO STOCK SHOW.

With its \$75,000 offered in prizes and its entries closed, the International Live Stock Exposition, which will be held on the dates of November 29th to December 6th, inclusive, at the Union Stock Yards, Chicago, has broken all records in every department in regard to the number of exhibits. Every breed of cattle, sheep, swine and horses will be represented on a much larger scale, the arrangements for the Show have been better provided for, and the great Stock Show of 1913 will go down into history as the most comprehensive, the most complete, the most modern, advanced and up-to-date of all the exhibitions, wonderful as they have been, which have preceded it. Such a statement of facts as this is positive proof of the importance of the event and how it is regarded by the stockmen of the country.

It not only offers to breeders, feeders, farmers and others who are interested in the live stock industry, a school of analysis but a free and liberal education in everything that a stockman requires, and presents to the sons of these men an opportunity for obtaining that information, and insight to the stockman's business so necessary, so indispensable to them in after years.

Breeders, feeders and farmers who are developing a business of this kind, or who have already developed one, and who have sons ready to step into their shoes when they shall have cast them off, and put upon them the slippers of ease and restfulness, owe to these young men the privilege of seeing the extraordinary Exposition, and imbibing that knowledge without which they will be sorely handicapped when they come to compete with those who have taken advantage and profited by the opportunities it affords.

Money spent in attending this Show is money invested in gilt-edged security that will return interest at the rate of a hundred per cent.

ENTERTAINMENT COURSE IN THE METHODIST CHURCH OPENS NOV. 25.

Definite dates have been assigned for the six number entertainment course to be given in the Methodist church this season and the first one by the Metropolitan Musical Club and Ladies' Orchestra occurs on Tuesday night, November 25. The other numbers on the course will appear on the following dates: Fishership Co., December 5; Maude Stevens Co., January 21; Lyric Glee Club, February 2; Dr. Dirt Lowther, about March 20; W. Powell Hale, April 8.

Tickets will be delivered during the coming week to all who have pledged for them. Any who have not pledged are urged to do so at once.

Unvarnished Truth.

There was a young man very vain of his accomplishments as a preacher, who, after officiating at a certain service for a Scottish minister who occasionally had to avail himself of the assistance of probationers, was met by the old gentleman with extended hands as he descended from the pulpit. Expecting high praise, he said: "No compliments, I pray." "Yes, my young friend," said the parson, "nowadays I'm glad of any-

THE TALE OF A DOG.

The sun was bright, the sky was clear, the breeze was fresh and keen; Grant Dicke with his goggles on be strode a new machine. "I think I'll take a little spin," Grant murmured as he rode; "Frank Dewey too can come along, he will not make much load." Soon Frank arrayed in proper style climbed on the seat behind, for riding on a motor bike he was quite some inclined. Grant quickly cut the muffler out and also turned the screw which regulates the thingumbob and lets the gas come through. Bang! bang! and then a string of bangs exploded down the street, 'twas just as well that those two boys George Hoffer did not meet. "Where shall we go?" said Grant at length when they had left the town and westward on the old South road were skirting meadows brown. "Where shall we go?" again he said when Naperville was passed, and still to westward plunged the bike—its pace was very fast. Eftsooon Aurora town was reached and Frank in accents queer whispered in Grant's right ear, "I guess we'll stop right here." A pleasant visit then was made, to whom you will not learn, for where the youngsters called that day is none of our concern. Time passed away quite rapidly, as time is apt to do, and all too soon it dawned on them the happy day was through. Once more upon the road they sped, their hearts with joy atune, for back in little old D. G. they would be pretty soon. Alas for plans of mice and men, a dog came running out and spilled them on the pavement ere they could cry, "Look out!" "My wheel! my wheel!" Grant roared aloud in accents full of pain. "My leg! my leg! It hurts like sin," roared Franklin back again. 'Twas well indeed for Mr. Pup that he had vanished quite, for what they would have done to him could scarcely be called right. Then limping, aching, sore at heart, our heroes sought the train; from further comment on the trip we will right here refrain. S. Y. D.

FRED LEVERENZ ENTERTAINS.

Policeman Fred Leverenz extended the hospitality of the village lock-up last Tuesday night to Joseph Rymut, who was later received with open arms by a Chicago officer of the peace. Though some of the customary civilities of the public resting place were omitted by Officer Fred, the guest departed ungraciously, with no word of thanks for the shelter provided for him. Incidentally, his lack of courtesy might be explained by the charge lodged against him. Joseph was accused of unlawfully appropriating and converting to his own use a suit of clothes once worn and owned by L. J. Guligowski, 947 Will street, Chicago. The aforesaid L. J. Guligowski made moan, that a valuable overcoat, which he fondly hoped to find on Joseph's shoulders with the other garments, had been left, either by accident or design, in a pawnshop. Officer Fred is holding Joseph's room in readiness for similar guests who are in need of constant attention, and convenient, though restricted, quarters.

THE BAPTIST BAZAAR.

The Ladies' Aid society of the Baptist church are planning the best bazaar they have ever had. They have dressed dolls of every shape and kind, popcorn, candy, and fancy work of all shapes and shades. And best of all, they are to have a fine bakery sale in connection with the bazaar. This is too big a thing to have in the church, so they have rented the G. A. R. hall over Butler's drug store. This will be on Tuesday, Dec. 11.

HEED THE WARNING.

Many Downers Grove people have done so.

When the kidneys are weak they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Weak kidneys usually expel a dark, ill-smelling urine, full of "brickdust" sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequent rheumatic twinges.

Doan's Kidney Pills are for the kidneys only. There is no better recommended remedy.

Downers Grove people endorse Doan's Kidney Pills.

Mrs. John Leibundguth, 170 S. Main street, Downers Grove, Ill., says: "I know that Doan's Kidney Pills are a good kidney medicine, for they have been used in my family for backache, trouble with the kidney secretions and other difficulties, caused by weak kidneys. Doan's Kidney Pills have always lived up to the claims made for them and, knowing what they will do, I strongly advise their use to all persons afflicted with kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Per Gas Stoves.

After using a gas stove for baking leave the door open a little while. This allows the heat to escape, and will prevent the metal sweating and rusting.

A flirt is a rose from which everybody takes a petal, the thorns remain for the future husband.

Advice.

Go to the mat, then new wife—order her plan and be wise.—Judge.

WHAT THE SMOKE NUISANCE COSTS

Due Entirely to Ignorance and Carelessness.

DETRIMENTAL TO HEALTH.

Black Smoke Means a Waste of Fuel to the Manufacturer and Waste of Money to Town—General Appearance of the Community Suffers.

The smoke nuisance is beginning to be recognized as one of the greatest civic problems confronting the modern industrial community, says Dr. R. C. Benner in the American City.

Why this crime of our cities is not remedied, when so doing would result in profit to all concerned, is a question that can be answered by the two words, ignorance and carelessness.

There is, of course, the excuse that in this case the damage done is obscure and difficult to prove in a tangible way. But as scientific studies of the problem are made the injurious effects of smoke are gradually becoming more clearly defined and publicly recognized. There is a crying need for the education of the public along smoke lines. They need to know that soft coal can be burned without smoke with profit to the consumer, and they need likewise to know the damage smoke does in dollars and cents to the residents of a smoky city.

It has been proved by the best mechanical engineers and government bureaus that the emission of black smoke means waste of fuel. Many men who have been compelled to make installations of the proper kind for the abatement of smoke say that such improvements have been big dividend payers from the start. In fact, the loss to the producer of the smoke nuisance forms the largest single item in our budget. This in Pittsburgh amounts to nearly \$4,000,000 per year.

One cannot reckon in figures the loss in personal efficiency. Those of us who are called upon to travel about to any extent cannot fail to notice a marked difference in our feelings in different localities. In the sunny town with pure air we are so buoyed up that

THE SMOKE SPOILED APPROACH TO A MANUFACTURING TOWN.

more and better work is accomplished. Getting back to the foggy, smoke polluted atmosphere of the city, there returns the dull, depressed feeling, due in great measure to the gloom, and the character and amount of work within our capabilities are greatly diminished. Carefully conducted experiments have shown that there are often two or three times as much light in the clear country surrounding a smoky city as in the city itself. This is due to the black pall hovering over the city. The cost of artificial illumination due to lack of sunlight is no small item, and the lighting bills for a large and smoky city are increased thousands of dollars.

Smoke is detrimental to health. Following the weekly course of mortality, one cannot fail to be struck with the manner in which the mortality from many respiratory diseases increases after a fog. The large amounts of soot (in one case ten grams, equivalent to about three-quarters of a pint) found in the lungs of dwellers in a smoky city cannot be detrimental, at least to some extent, to the execution of their normal function. Within the corporate limits of the city of Pittsburgh we have found that in those sections of the city where the soot cloud hangs heaviest the death rate from pneumonia is the greatest. Singers visiting Pittsburgh get the Pittsburgh sore throat.

From the standpoint of aesthetics the damage is more pronounced than in any other phase of the problem. The smoke cloud continually hanging over our city is extremely injurious to all vegetation. Many trees and shrubs will not grow in the smoke laden atmosphere, while those that do soon become so begrimed that their value from a decorative viewpoint is in great measure destroyed.

The abolition of the smoke nuisance, therefore, unlike many other social evils against which an outcry has been made, will result in direct and immediate gain both to the public at large and to those chiefly responsible for the nuisance itself.
