

FARMERS MEET

Wednesday night about seventy-five farmers of Lake township gathered in the hall at Lake to discuss the hoof and mouth disease and to organize a farmers' protective association.

Mr. House of Naperville read paragraphs of the law and said he thought the farmers would all get their money as promised if they allowed their cattle to be killed.

Mr. Van Oven talked strongly on the farmers organizing. Mr. Stanton and Mr. Horstman spoke from the standpoint of stockmen, but at that there is a diversity of opinion as to the best methods to stamp out the disease.

If this outbreak will result in the formation of farmers' associations in DuPage County for mutual protection and benefit it will be the best thing that ever happened, for every dollar expended in organizing and developing these clubs and organizing it will bring them double the returns in the experience they will get out of them.

BRIDAL CHORUS (LONG GREEN).

Here comes the Groom, Pale as a sheet, See how he stumbles All over his feet, Notice his gloom— Sadness Complete, He'd give his shirt for a chance to retreat.

He has the gold Ring Tucked in his vest, So, why this worry? Why this unrest? Woe and Awe! A thousand Alacks! The poor gink's forgotten The dime for his tax.

—R. F. McIntyre.

Eve's Growing Grave.

Jeddah is a most important town for the entire human race, apart from being the principal landing place for pilgrims to Mecca. Just outside the city is buried Eve. The reputed mother of mankind, like a good Meccanah, lies with her feet towards Mecca. Her grave has gradually grown in size, and is now of huge dimensions. Burton calculated that our first parent "measured 120 paces from head to waist and 90 from waist to heel, and must have presented the appearance of a duck." Probably the reason why the modern lover still uses that word as a term of endearment.

Lazy Man's Comment.

Opinions differ widely as to what constitutes true contentment, but watching other people work certainly inspires a quiet satisfaction to the soul.—Columbus Journal.

Tact.

Social tact in making your company best thoroughly at home, even though you thoroughly wish they were.—Fest.

EASY MONEY FOR FARMERS.

Farmers, fresh eggs are selling in the cities at 50 to 60 cents a dozen. If any resident kicks, his grocer tells him that the prices asked leave only a fair profit. He also tells the city resident that if he will accept cold storage eggs they will cost him only 32 cents a dozen. It is admitted that these eggs have been in storage since last spring. So the city man, with visions of stale eggs for breakfast, pays the 50 or 60 cents and takes it out in causing the farmer. What part of this 60 cents does the farmer get? If he gets less than 25 cents it is his own fault. Any farmer or any member of any farmer's family old enough to read and write, can build up a market for every egg that can be spared from the farm and can get higher prices for the hen fruit than any country egg buyer will pay. Eggs can, and are being shipped safely by parcel post every day. If the farmer will write to the postmaster of the nearest city the postmaster will supply him with a list of prospective customers. The U. S. Bureau of Agriculture or the Postmaster General will supply him with pamphlets telling all about how the eggs should be packed. If the farmer is willing to meet the city buyer half way he can build up a cash business that will mean a constant income. Later the trade can be extended to butter, home-made cheese, early vegetables and so on, down the line. Get busy, farmer, farmer's wife, farmer's sons and farmer's daughters. There's money waiting to be made if you will go after it. 1-4-15

Speed at Which Sound Travels. Sound travels 1,100 feet per second at the regular temperature of the air. To travel eleven and a half miles at this rate it will take 55 1-5 seconds. Suppose a side wind is blowing at the rate of five miles an hour. This is about 440 feet a minute. This will make an actual path which the sound travels somewhat longer and the time required will be between 58 and 60 seconds. Roughly then it will take one minute for the sound to travel the distance of 11 1/2 miles under these conditions.

Campher for the Future. It is estimated that Formosa contains about one million campher trees, some ten thousand of which are cut down every year. At this rate the supply will be exhausted in a hundred years; but when the country is thoroughly pacified there is no doubt that the Japanese will see that reforestation is properly undertaken and an inexhaustible supply insured.

Treatment for Sprained Ankle. A sprained ankle should be immersed in water as hot as the person can bear. Keep it at this temperature for about an hour and a half, renewing the water as fast as it cools. Then put on a bandage tight enough to prevent any movement of the joint. The recovery depends upon the absolute prevention of any motion.

Unlimited Payment. It seems that the man who owes a grudge wants to pay more than he owes, and wants to pay more than once.—William J. Burtscher.

Room for Many Countries. The area of California, 158,297 square miles, is approximately equal to the combined area of Roumania, Bulgaria, Servia, Albania, Montenegro, Belgium and Turkey in Europe.

Keep Secret. What the world needs is the resolute step, the look of cheer, the smiling countenance, and the kindly word. Keep sweet.—George L. Perin.

Labor and Thought. It is only by labor that thought can be made healthy, and only by thought that labor can be made happy; and the two cannot be separated with impunity.—John Ruskin.

The men's chorus will sing at the evening service at the Baptist church next Sunday evening. This will be one of the most interesting services of the year. The pastor will give an address on "Painting the World White—or Driving Drink into the Deep." The service begins at 7:30 o'clock. A very special invitation is given to boys and young men. In the morning the pastor will speak on "How to Study the Old Testament." There are many who do not know how to get the best out of the Old Testament, and now that the Sunday school lessons are in that part of the Bible, this address will prove timely and helpful. The morning service begins at 11 o'clock. Sunday school begins at 9:45. A cordial invitation is given to all.

Should Convince Every Downer's Grove Reader. The frank statement of a neighbor, telling the merits of a remedy. Bids you pause and believe. The same endorsement. By some stranger far away Commands no belief at all. Here's a Downer's Grove case. A Downer's Grove citizen testifies. Read and be convinced. "For months I had trouble from my kidneys and back," says Lester Barr, of 78 Grove Ave., Downer's Grove. There was a steady, dull ache in my loins and I suffered from dizzy spells and headaches. The latter trouble was especially bothersome when I moved quickly or got up after sitting. When a friend advised me to take Doan's Kidney Pills, I procured a box at Bush & Simonson's Drug Store. In a short time after using them I was cured." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Barr had. Practically all inhabited sections of the Deyer district, Norway, can be reached by boat, and as a large percentage of both freight and passenger traffic is by water, there are at least ten motor boats owned, exclusive of the fishing fleet, for every motor car. Daily Thought. Seize the minutes as they pass; the woof of life is thought; warm up the colors, let them glow by fire of fancy fraught. Live to some purpose, make thy life a gift of use to thee—a joy, a good, a golden hope, a heavenly argosy.—S. T. Coleridge. Warm Baths for Your Nerves. A bath at a temperature of 92 to 99 degrees will quiet the nerves in a magical way, even in cases in which drugs of all sorts utterly fail. Such a bath is called a neutral bath, because no action is produced by it and no disturbance results from overheating. Its temperature is just enough lower than the body's to carry off the surplus heat without producing a cooling effect. Costly Cottage. "Could you be satisfied with love in a cottage, dearest?" sighed the poor young man. "Certainly I could," responded the girl, who really loved him. "But there must be a breakfast room, a music room, parquet flooring, and a big marble fireplace in the front hall."—Louisville Courier-Journal. Pleasure at Death. A wise man shall not be deprived of pleasure even when death shall summon him; forasmuch as he has attained the delightful end of the best life—departing like a guest full and well satisfied; having received life upon trust, and duly discharged that office, he acquires himself at departing.—Epictetus. What Interested Him. Four-year-old Paul had heard the next door neighbor say that she was to have a dress "with a train on it." As soon as the neighbor had gone Paul asked his mother breathlessly: "Oh, mamma, will the train have an engine, too?" Power in the Truth. If you tell the truth, you have infinite power supporting you; but if not, you have infinite power against you.—Charles George Gordon.

Coke For Magazine Stoves! In the basement of our Elgin office we have a very interesting exhibit. It is an ordinary magazine sized stove. It is interesting for this reason—IT IS BURNING NUT SIZE VULCAN COKE. We find that nut size coke holds fire for twelve hours without the slightest bit of attention. It responds very quickly to drafts—it does not clog in the magazine—it does not clinker and there is but little ash. The hard coal habit is an expensive one—save money by using Vulcan Coke.
