FARM ANIMALS

TIMELY HINTS OF SHEEPFOLD

Animals of Medium Grade Lack Condition and Quality Necessary to Bring Best Market Prices.

Why are pure-bred sheep the best for mutton? Because both lambs and sheep of the medium grade lack the condition and quality necessary to bring the best prices on the market.

Poorly bred sheep as a rule have long, loosely-coupled bodies with little spring of rib and rough outline, and are coarse and often paunchy. This class of animals is not desirable, and market buyers make the best of their bad points.

A good thing to remember when lambing time comes on: A lamb that is so badly chilled that it appears to be dead, may be revived by pouring down its throat a half pint of warm milk, into which a tablespoonful of gin has been poured. If there is no gin in the house, dip the lamb in a tubful of warm water, dry it off with a rough cloth and place it near the stove. Get some warm milk into its stomach, if possible, and in a few minutes it will be as frisky as ever.

A bunch of sheep will clean up the cornfield in which the stalks are left standing in fine shape. They strip off the blades and pick up every kernel of stray corn left on the ground.

The great loss of lambs is, in some instances, due almost entirely to the fact that the ewes are allowed to run down and become weak before weaning time.

The quality of the market lamb depends largely upon the first four weeks of its life. Given a good boost then, he will, with reasonably good care, prove very satisfactory at market time.

If sheepmen will take the pains to dip their sheep at least twice before the winter sets in they will save much loss from ticks and scab. This takes time and some trouble, of course, but it pays.

Many farmers have the idea that after sheep are shorn, the ticks will abandon them. Certainly they do to some extent, but they immediately go to the lambs, where they find a comfortable nest and make life a burden to the youngsters. Buy a dipping tank and dip regularly twice a year.

OVERSHOES FOR THE HORSES

Device Built Over Regular Shoe Prevents Animals From Slipping on Icy Pavements.

A recently patented shoe, designed to save horses on icy streets, consists of an overshoe built to fit over the regular shoe and is kept in place by leather straps which fit neatly around the upper edge of the hoof, says Popu-

lar Mechanics. The overshoe has five large, sharp calks, the largest being in front. One calk on each side prevents skidding or side slipping, while one on each point holds the foot firmly on the pavement. It is made of malleable iron and adds but slightly to the weight of the foot.

WINTER RATION FOR SHEEP

Fine, Well-Bred Hay, Ensilage or Roots, With Grain is Excellent—Overcrowding is Bad.

Feed is a great point in sheep growing. A good winter ration for mutton sheep consists of fine, well-bred hay, about four pounds of ensilage or roots, with a grain ration approximating the following: Two parts each of wheat bran, oats, corn, one part of oil meal, divided into two feeds a day. The prices for prime mutton are usually best in the winter, after the cull stuff is cleaned up, but the price generally stays on a profitable basis.

Sheep are nervous animals and of rather delicate constitutions, and suffer more from bad ventilation and overcrowding than any other animal on the farm. It is a mistake, therefore, to confine sheep during the winter in close quarters. If kept dry, their fleece will keep them warm.

BREED ONLY THE BEST SOWS

Animals Showing Poor Feeding and Milking Qualities Should in All Cases Be Avoided.

It is of very great importance that you use for breeding purposes animals that are easy feeders and good sucklers. Sows in many lines of breeding show very poor feeding and milking qualities. The sow that can produce six pigs or more and bring them through to weaning time in good condition is much more valuable to you than the one that will produce that number of pigs and, on account of poor milking qualities, bring them to weaning time in poor condition. By all means avoid poor sucklers and hard feeders.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

A New Anecdote.

Queer requests are often received for prescriptions, which might puzzle either doctor or chemist, far more skilled than the proprietor of the ordinary drug store. Here is one recently reported by Morris Wade: It is a note from an excitable mother, whose nerves were apparently as much in need of treatment as the digestion of her infant.

"My little baby has set up its father's parish plaster. Please to send an anecdote by the inclosed little girl."—Youth's Companion.

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding, sensation, or setting up an irritation at the neck of the bladder obliging, you to seek relief two or three times during the night. The sufferer is in a constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

At Last It's Reached.

Father Vaughan tells a good story of a certain minister who was preaching on "Perfection." "Did you ever know anyone to be perfect?" he asked. "Did you ever read of any man or woman who was quite perfect?"

As he paused and looked around among his audience, a pale-faced woman rose up and said: "Yes, from all accounts, my husband's first wife was perfect."

DISTRESSING PIMPLES

Removed by Cuticura Soap and Ointment. Trial Free.

Smear them with the Ointment. Wash off in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. Repeat on rising and retiring. These fragrant supercreamy emollients do much for the skin, and do it quickly. Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Rather Mixed.

"I don't like that deal you're in." "Don't worry; you won't be answerable if it's questionable."

Some men are so lucky that they even fall down when nobody is around to see.—St. Joseph Gazette.

ONE ON SECRETARY DANIELS

Head of the Navy Evidently Not an Expert as to the Odor of Alcoholic Liquors.

A story is going the rounds in Washington about Secretary of the Navy Daniels which may or may not reflect credit on that official, according to the point of view. According to this story the secretary was one morning conferring with an officer and in the middle of his conference interrupted the proceedings to say: "This is the second morning that I have smelled whisky on your breath, sir!"

To which the officer is said to have replied: "I beg your pardon, Mr. Secretary. It was whisky yesterday, but it is gin this morning."

No name has been allowed to leak out in connection with this story, and it may be that there is more fiction than fact in it.—Boston Transcript.

IS EPILEPSY CONQUERED?

New Jersey Physician Said to Have Many Cures to His Credit.

Red Bank, N. J. (Special).—Advice from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physician of the Kline Laboratories, of this city, is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

Persons suffering from epilepsy should write at once to Kline Laboratories, Branch 48, Red Bank, N. J., for a supply of the remedy, which is being distributed gratuitously.—Adv.

Her Travels.

Two little Los Angeles girls were talking about the big cities of the United States. Rosie, who had traveled a great deal, and had been in many of these places, was telling Goldie about them, at the latter's request.

"I want to go to Mexico very much," concluded Rosie. "I have never been out of the United States."

"Haven't you?" asked Goldie, in tones of superior pity. "Why, I have. I have been in San Francisco and Nebraska."

Will tell you more if you write. \$1 and \$2 a bottle at dealers or delivered. Book "Evidence" free. Manufactured only by W.F. YOUNG, P. O. F., 218 Tenth St., Springfield, Mass.

BLACK LEG

Losses Surely Prevented by Carter's Black Leg Pills. Low-tar, non-toxic, retards the progress of the disease, because they prevent where other remedies fail. Write for booklet and testimonials. 15-cent size. Black Leg Pills \$1.50. 50-cent size. Black Leg Pills \$1.00. 25-cent size. Black Leg Pills \$0.50. (See any druggist, but Carter's best.)

The superiority of Carter's Black Leg Pills is due to over 100 years of practical experience and scientific study. It is the only Black Leg Pills made in the U.S. by the Carter Laboratories, Berkeley, Cal., or Glasgow, Ky.

W. N. U., CHICAGO, NO. 8-1915.

A Draft—You Catch Cold—Then Follows

Coughs, Cold Stiff Neck Neuralgia

Especially in the piercing pain of neuralgia or the dull throb of headache is Sloan's Liniment wonderfully relieving. Laid lightly on the part where the pain is felt, it gives at once a feeling of comfort and ease that is most welcome to the overworked sufferer.

There are no liniments that equal Sloan's. My husband has neuralgia very often, he rubs Sloan's on his face and that is the last of it.—Mrs. V. J. Brown, Route 1, Box 181, Halls, Tenn.

SLOAN'S LINIMENT

DR. EARL S. SLOAN, Inc. Dept. B. Philadelphia, Pa.

If you want a wall board that will give you the best service at the lowest cost—one that keeps the rooms warmer in winter and cooler in summer—ask your dealer about

Certain-teed Wall Board

Tests made on six high grade Wall Boards show that Certain-teed is the strongest and that it resists dampness and water better than any other Wall Board.

General Roofing Mfg. Company

World's largest manufacturer of Roofing and Building Papers. New York City, Boston, Chicago, Philadelphia, St. Louis, Cincinnati, San Francisco, Seattle, London, Hamburg, Berlin.

Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres FREE or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around \$1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not commencing, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to
