### TO THE VOTERS

April 1, 1915.

To the Voters of Downers Grove Township:

At the Township election to be held next Thursday, April 6th, George Boger, the regular candidate for supervisor, duly nominated at the late primary election, will be opposed by Sard Utely, nominated by petition.

The nomination of Mr. Boger was not sought by him. He has served as supervisor for eight years past. His well known capability, honesty, energetic and faithful attention to township and county business, together with his eight years' experience, makes it extremely desirable to continue him in office, and no one was placed in nomination against him at the regular primaries.

He holds a high place in the esteem of the County Board of Supervisors, as evidenced by his position on the important committees of the board. His knowledge of the affairs of the county and his sound, practical judgment is fully recognized and he is placed where important things require attention. The affairs of his township likewise command his thoughtful attention.

In the work of relief of the needy, an important function of the office, he has, while attending to their immediate needs, caused the return to the places from whence they came, several of these unfortunates, thus placing the burden of their public support where it belonged, and so relieved us of their support.

He has responded promptly and wisely dispensed aid to the needy. He likewise has exercised sound judgment in discerning between those in real need and those only claiming to be.

He obtained, under the provisions of the State Good Roads Law, free stone, saving the township more than \$500 last year, and has negotiated with state authorities for a generous quantity for this year, on which the saving will be more than \$2,500. As freight charges is all this stone costs the township, the falsity of the statement that he personally benefited through procuring it, is apparent.

His eight years of continuous and efficient service, with its attendant experience, without a single act during the entire time open to an honest charge of impropriety of any nature, is much too valuable an asset to the people of Downers Grove township, to be lost because of personal indifference on the part of voters on election day.

Local government, intimately related to our homes is of most vital importance to every family. Women can vote. Let every voter be alive to the value of retaining honest experience as well as to the public loss incidental to neglect of voters who fail of performing their duty.

We, the undersigned, urge every one to vote for George Boger:
