Business Opportunities

Do you know that one of the most profitable lines of trade is a Billiard Room and Bowling Alley in combination with a Cigar Store, Quick Lunch Room or Barber Bhop? We have a large list of good locations. They are yours for the asking. Write at once; stating where you desire to locate. Ask for catalogs of Billiard Tables, Bowling Alleys and Fixtures. We sell on easy payments.

The Bronswich-Balke-Collender Co., Dept. XYZ, 623 Wabash Ave., Chicago

German Surgeon the Fortunate Possessor of Digit That Had Remarkable Peculiarities.

Not long ago a famous physician in Saxony, Doctor Metzger, celebrated his seventleth birthday. He had been retired from active practice for some years, owing to the fact that he had become immensely wealthy through the use of the wonderful thumb of his right hand. This thumb stands out at a right angle from his hand and, it is said, cannot be bent back automatically. He soon found it of great service in massage, and when he became a specialist in intestinal disorders be was called as assistant to the greatest surgeons of Europe, bringing relief to many illustrious patients.

The queen of Roumania sent for this doctor with the curious thumb when she suffered from facial neuralgia, while the late king of Sweden once drove a beautiful span of horses over the border of his kingdom to consult the doctor and on returning left the horses as a token of gratitude to bis preserver.

There was a time, early in his career, when the use of this curious thumb was looked upon as a form of right charlatanism, but so well did Doctor Metzger establish his reputation that the medical profession accepted his thumb for what it was worth, without trying to explain the phenomenoa.

Resemblance.

"Why do you call him the human pinwheel?"

"Because he gets up so much spectacular speed and always finishes just where he started."

and cover it with straw than to let his hogs suffer.

STUDY EACH COW IN EVERY DAIRY HERD

Greatest Good Not Always Derived in Eliminating the Unprofitable Animals.

It is a fact, and there is evidence of it that it is a good plan to weigh and test the milk of each individual cow: but it is a far better plan to take each cow in the herd and make a careful study of her and investigate to see if she has reached the limit of her production. By weighing and testing the milk some rather surprising results have been found in many of our dairy when hogs were selling at \$7 a hun-

Landlord Likes Chees Players. INDIVIDUALITY AS A FACTOR

Impossible to Separate What Is, an Must Be, the Part of Man's Own Being.

Any attempt to define the ultimate spirit of the individual seems doomed

There is a saying of Bishop But ler's which might well be recommend ed to the philosopher: "Everything is what it is, and not another thing," So individuality is simply individuality; and the attempt to discover some further meaning for the word

can only lead to error. We might be tempted, for instance, to suggest that a man's true ego is nothing more than his character. But individuality goes deeper even

than character. Character changes; the individual

remains the same. Thus a man who in his youth is honest may meet with temptations that make him a thief; so, too, the sentimentalist may become a cynic.

The changing character is no more than a manifestation of the individuality beneath.

FULL OF STOCK

Didn't Look Much Like Hard Times in Western Canada.

A. Meyer, who left one of the best Counties in Minnesota, probably be cause he got a good price for his excellent farm, and left for the Canadian West, writes to his local paper, the Bagley Independent. His story is well worth repeating. He says:

"To say I was greatly surprised when I reached Saskatchewan and Alberta would be expressing it mildly. in a country where so much suffering was reported, I found everyone in good circumstances, and especially all our friends who have left Clearwater and Polk counties. They all have good homes and those who were reported to have sold their stock through lack of feed, I found with their barns full of stock, and it did not look very much like hard times. They have from 160 acres to two sections of the finest land that can be found.

Those that left here two or three

Prospects for a bumper crop are "Pickin' the dead flies out of the splendid. It is a little cold now, but currents, sir." Joseph answered brisk- nothing is frosted, either in gardens or fields. Land can be bought quite unteered their services in the Euro best opportunities for securing a good home with a farm and independence started I heard that prices were so high. Flour was reported at \$12 per hundred it is \$4.25 here. In the west "Of course," said Noah, "this deluge all the groceries can be purchased only article that I found higher was kerosene at 35 cts per gallon When I saw the land I wondered why people do not live where they pro duce enough from the soil to make i comfortable living. We visited T. T. Sater, John Dahle, W. J. and R. D. Holt's, Martin Halmen, Ole Halverson, Wm. Walker and Geo. Colby, a from Bagley. We found well and prosperous farmers who wished to be re membered to all their Bagley friends. (Sgd.) A. MEYER, -- Advertisement

The Judge Says-

Put a package of these real corn flakes-these

New Post Toasties

on trial beside a package of any other corn flakes on the market. The jury will bring in a verdict of "guilty" -guilty of being the finest corn flakes ever made.

The New Post Toasties are crisp and appetizing,

with a true corn flavour; and they don't mush down when milk or cream is added. But here's the real test. Take a handful, fresh from the package, and eat them without cream or milk.

Notice the little "puffs" on each flake—a distinguishing characteristic-resulting from the new method of cooking and toasting, which also brings out and enhances the wonderful, true corn flavour.

Mighty good, aren't they?

Your Grocer has the New Post Tossties. Try them and bring in your verdict-
