RIOT CALL BRINGS POLICE AND SHERIFF.

That is, the Deputy Sheriff, Not the Real One—Cause One Drunk and Disorderly.

Last Friday afternoon a herry up, come-on-the-jump, and he-quick-about riot call was turned in to the chief of police from an East Grove telephone number. Chief White, expecting to see at least three desperate villains with reputations for killing similar to the James boys and noted characters of the yellow backs, called out the entire police force and Charles Baker, our own deputy sheriff.

Charlie jumped into his combination motorcycle-ambulance, and with the police force in the back seat, made the others on two wheels to the scene of the call—the East Grove station.

When they arrived the forces were deployed in the latest improved military formation and with the big forty-five centimeter guns unlimbered and ready for the fray, they spread around the station to make the capture. Their stealthy approach was unheeded by the lone bandit, who was holding the fort on the west side (he had to hold it to keep it upright—at least that's the way it looked to him) even when cwerwhelmed by a superior force he did not cease struggling, until shown the auto with the said C. Baker, deputy sheriff, on the front seat, when he subsided and suffered himself to be draped over the rear seat.

The run to Judge Tucker's office was quickly made, where Charles Fells, the bandit, a worker on the extra gang at Gregg's, was fined \$10 and costs, and upon his refusal to pay the fine was installed in the local bastille. One night on these hard planks turned soft side up, and he was ready to capitulate. He paid his \$10 and was released from custody.
