POLITICIANS AND NEWSPAPERS. Legislators of Alabama have been stepping on the toes of the newspapers of that state, and now the newspaper publishers are making a mighty howl for protection of their business against the marauders. This is the first time the newspaper publisher of Alabama has felt the irritating hand of business legislation, and it has been found to hurt. The Alabama newspaper publisher, like that of other states, has been being

along in the more or less even tenor of his way, getting out the paper, hustling around for money to pay for white paper and being generally Johnny-on-the-spot in boosting his home town and plugging for progress and patriotism. He can't maintain a paid lobby at the capitol to protect his business, and he hasn't thought much of that anyhow. When a professional politician gets into the legislature and proceeds without rhyme or reason, simply because he has the power, to pass legislation affecting the business interests of men who sent him there, it is high time for the publisher to howl—and the longer and louder they howl the better it will be. It is the consensus of opinion that business legislation should cease for the present and give business a chance to recuperate. Now that the newspaper publisher has felt the attack he ought to realize the importance of using his influence to this end.

ALL READY FOR THE S. S. CONVENTION. All aboard for the DuPage County Sunday School convention to be held at Wheaton, Saturday and Sunday, October 23d and 24th. Splendid program. No worker can afford to miss these sessions. Arrangements have been made with Mr. Brooks to take over a large delegation next Sunday afternoon, leaving the Congregational church at 1:45 and returning at the close of the evening meeting.

Please let your superintendent know at once if you are going to take advantage of this opportunity. If any are going over in their own cars, will you not meet at the church also, and help by filling up your car?

A MERCILESS JUDGE. One Who Shows No Favor. A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Downers Grove resident has withstood this sternest of all tests.

Mrs. J. Schaller, 97 South Main street, Downers Grove, says: "For two or three years, I suffered from attacks of backache and dull pain through my loins. The least exertion tired me and often I had to sit down and rest. The kidney secretions passed too freely, too. When I had the good fortune to hear of Doan's Kidney Pills, I got a supply. After taking two boxes, my back was free from pain, my kidneys became normal and I was restored to good health."

Mrs. Schaller gave the above account of her experience in April, 1910, and on March 20, 1915, she said: "During the past few years, I have had no signs of kidney trouble and feel confident that Doan's Kidney Pills have cured me."

Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Schaller had. Foster-Milburn Co., Props., Buffalo, N. Y.

ODD BELIEFS AS TO SHOES

German Mother Sees Misfortune in the Loss of Heels—Signs to Guide Steps of Lover.

The German mother says that should she lose the heel of her shoe one of her children will die before the year is out.

The Scotch lassie believes that should she by accident drop her new shoes before they have been worn, they will surely lead her into trouble.

It is said that old maids believe that when their shoes come untied, and keep coming untied, it is true their sweethearts are talking and thinking about them.

The sweetheart, when on his way to see his lady love, should he stub his right toe, will surely be welcome, but if he stubs his left he may know that he is not wanted.

It is said that if old shoes are burned, makes will squirm away from the place, while to keep old shoes that are past wearing about the place will surely bring good luck.

Should you meet a person whose shoes are "worn on the toes" you may put it down as a certainty that "he spends as he goes," and on the same authority it is said that the girl that has her shoes "worn on the sides" is surely fated to be a "rich man's

As a Philosopher Sees It. It is claimed that the phosphorescent keyhole has been replaced by one with a raised rim that makes it easy for even the most unsteady hand to force the key into it. At the same time the only keyhole that will fully meet all the world conditions will be the one that gets out of its frame and goes downtown and hunts for its owner.—Cleveland Plain Dealer.

Fatal Mishap. "Ladies an' gen'men," said Sam Johnson to the invited guests who had filled his cabin to overflowing since 8 p. m., "I'm mighty sorry to have to tell you all that there ain't no more no party tonight, 'cause that white man what owned me 15 cents ain't paid me yet!"

Martyrs to Truth. Astronomers say that only the ignorant speak of the "universe," for the number of universes is infinite. Yet, only a few centuries ago, Campanella was kept in prison for 20 years and was tortured seven times to make him retract his assertion that the number of stars is infinite. In those days it was a crime to believe in infinity. And Galileo, burdened with age and threatened with torture, retracted what all the world believes today. And Giordano Bruno, who bravely refused to retract, was burned at the stake.

Deck That Floats. A recent English invention is a ship with an upper deck which can be released from the hull and will float when the vessel sinks.
