# Says College Women Will Have Big Part in the Work

of Miss Ada Rice, secretary of the Kansns State Agricultural College Alumni association.

••••••••••••••••••••••••••••••• does the work without any effort on! Novel Deep-Sea Sounder. the part of the operator is a welcome

A novel deep-sea sounder patented in England is based on the time clapsing between the sinking of a small bomb and the return of the sound of its explosion on the bottom. The bomb, fitted with steadying vanes, sinks at a known rate, and on striking is exploded by a contained mechanical or electrical device. The time interval may be recorded automatically. The launching of the bomb closes an electric circuit, starting a clock-controlled rection, as necessary, can be made for quired. the ship's travel.

### Electricity Polishes Floors.

A device of great importance has just been invented for practical use can. The task of keeping a floor polished to the required brightness was tives? perhaps the most difficult task of the home, and the little machine which tive, I hope,
