group of stockholders, and he has to picase them individually and collectively. He must turn out a winner or stand for a continual panning from stockholders and fans. He must go out and scout for his own players, for the miners do not hire ivery hunters to assist the manager. He must do at least 60 per cent of the thinking for his ball club on the field, and if the club loses a hard game through bonehead work the manager gets the blame, whether he is at fault or not

Just as soon as a minor league man ager gets a good club together along comes some hig lengue club and he sees his winning combination broken up through sales or the draft. He must go out and dig up players to fill the shoes of those who are taken away, Argentina yields a normal wheat and if he fails to find talent as good as he has lost they say he is slipping.
