"OLD BEN" coal is mined in Franklin County by the largest mining company in the States up-to-date, complete equipment means clean and carefully prepared coal; which can be supplied in several sizes for any stove or furnace.

THE COAL SITUATION IS FAR FROM SATISFACTORY AS THE MINES ARE BEING SLOW DELIVERIES AND ACCEPTING ORDERS FROM THEIR OLD CUSTOMERS ONLY. CONDITIONS WILL NOT BE ANY BETTER AS COLD WEATHER APPROACHES. PLACE YOUR ORDER NOW TO TAKE CARE OF YOUR FUTURE NEEDS.

THE RIGHT WAY TO BURN "OLD BEN"

Leave three-quarters of your fire uncovered. Put fresh coal on the front of the fire. The heat drives the smoke out of the fresh coal, which, in passing over the uncovered hot coals, is further heated and is burned. This gives a cleaner, hotter fire, easily controlled, and uses less coal saving your money.

BIBLE CONFERENCE AT WHEATON COLLEGE

The October Bible Conference at the college was a time of very great blessing to all concerned. The leading teachers were Rev. E. J. Richards and Mr. J. E. Jaderquist of New York. Their messages were of great power. The attendance was good and scores of people, young and older, were led to a first decision for Christ or a deeper consecration to his work.

Aside from the speakers already named Dr. R. J. Bennett of Chicago gave two powerful addresses. Rev. Dr. Kennan of Wheaton also spoke with acceptance and helpfulness. The missionary speakers were Mr. and Mrs. Christie and Mrs. David Eckvall from China; Miss Gummo from Palestine; Miss Harriet Fischer from Turkey and Mrs. Polk from Ecuador.

Mr. and Mrs. Colby of Chicago were exceedingly helpful. Mrs. Colby leading the singing in the mornings and afternoons and Mr. Colby conducting the devotional meeting in the mornings. Professor Cummings led the singing in the evenings. Miss Brown, Miss Launbranch and others assisted at the piano and organ.

All the addresses were deeply and increasingly interesting and throughout the sessions were marked by the presence and power of the Holy Spirit.

Asia Minor Puzzle.

"Asia Minor" is a geographical term of vague extension. It puzzles anyone to say exactly where it leaves off. The name dates only from the fifth century. A. D. when Orosius used it evidently as a novelty. The Roman empire knew no Asia Minor. Indeed, the Roman province of "Asia" was actually smaller than this Lesser Asia. The ancient name Anadolus (and of the same or east), which has found favor with the Turks, is equally indefinable.

Flowers of the States. Twenty-six states of the Union have adopted state flowers—official or formally agreed upon emblems. Massachusetts is not one of them, although there is a sort of growing idea, amounting almost to common consent, that the trailing arbutus is our state flower, says the Boston Transcript. If it is, we have that emblem in common with the province of Nova Scotia. Connecticut has a legally adopted flower, and it is in many respects the finest possessed by any state in the Union. It is the mountain laurel. There are flowers more beautiful than our laurel of the woods, but its bloom is so early conventionalized, so bright and so decorative, that it is usually chosen as the state flower.
