building is over-crowded. This year's The foregoing classic by Governor senior class numbers 19; present staand our high school teams have wer so few games during recent years that the old boys don't talk athletics with their friends from other towns. Yet SAVES \$4,500-00 | we are using all the taxes our board

A township high school opens up ganized by the farm bureau of Craw- a new source of revenue that does ford County, Ohio, saved \$4,500 to not intefere with the old. There are farmers on a business last year of over 200 such schools in Illinois, prac \$49,500. The association has a capi- tically all of them established in ortal stock of \$19,000, divided into 1,000 der to get maney absolutely essential Grove is a good place to live, but it s going to have a serious handicap in its high school facilities and in it graded school facilities too, unless it specific avails itself of the same ource of relief already embraced by uch of its neighbors as Hinsdale LaGrange, Riverside, Berwyn, Oak Park, Maywood, Elmhurst, Glen Ellyn. Lemont, Lockport, Joliet, etc., etc.

Suppose we should build such a chool equipment as we really need would it not be possible by enlargng its functions a bit and combining with it our other resources to have in this town one of the best equipsents for education, the entertainment and the recreation of the young and old to be found anywhere in the state ! Let's sec.

Suppose we were to establish, grith the building of a Memorial Township High School, a community center idea. I have heard it said that in many communities the schools are the most expensive and least used buildings Why not make our fine memorial the most used building for young and old in Downers Grove? Wouldn't it be fine if everyone wanted to go there That is the spirit in some communitiess where such institutions have been established. It is the spirit of co-operation that some of our soldiers have had to go to France to learn.

Of course the old High School building would be turned over to the resultss. Try 'em.

In the new building all of these things could be provided on a much more LOCALS DOWNED complete scale. Public spirited citizens who would be willing to donate towards a memorial club or a Y. M. C. A. might be willing to make it financially possible for the architect to include in his plans some community features that would cost but a fraction of the expense that independ ent buildings would entail, in order to make this Memorial a place that all of our citizens could enjoy. There DuPage County at the present time, would be no good reason why, between and is sure to hit Downers Grove, with the present facilities and the new, we organized effort behind it at no dis- couldn't have a place for the boys tant date. I refer to the Y. M. C. A. and men above high school age to I have no objection to the Y. M. C. get a little exercise when they felt A. in its proper place, but I am frank like it. Such features as bowling alto say that I cannot see a useful mis- leys, a tank, and other things that sion for it in Downers Grove. All of have been discussed as real necessithe objections that apply to a Memor- ties for the healthy development of ial Club apply to it, and more.
