#### Underground Wireless U. S. War Secret Which Helped Beat Hun

Underground wireless was one of Uncle Sam's new trick- and war secrets which helped beat the kaiser. The invention was perfected by James H. Rogers of Hyattsville, Md., at just about the time we entered the war. It was promptly offered to the government and quickly accepted. It sends and receives messages both under ground and water alike, and its value is that it eliminates static disturbances, common in the aerial wireless. Here is inventor Rogers, with his machine, which can be set up any place a wire can be stuck in the ground. He has picked up messages from Berlin, Paris and Rome.

Corp. Lacey acted as chairman and particularly it is a most per ing on did himself proud as spoke-man for Ideas of the atrect is postager be n the hosts. His quips as he call i out of the war are coming forth for on the various hors for tall: we there work in the world and we must
