

FIVE FIRES in Two Weeks

and every one of them directly traceable to soot in the chimneys!
When your chimney "burns out" the soot catches on fire and it liable to start the roof blazing with loss of property and probable loss of life. Besides this fire danger, soot is the cause of you burning more coal for less heat. If you want to avoid danger and save coal get a box of the famous—

CARBONOID SOOT DESTROYER

Carbonoid is used for STOVES AND RANGES, HOT AIR, STEAM and HOT WATER FURNACES. It is simple to use and very effective.
