Take abunch of from 50 to 75 people and cooped up in a little river town for two weeks, then put them or a steamer for another two weeks, and they are bound to "start something." Thy are little less than school children after all.

It was a 14-day trip from St. Michael to Seattle, and days before we left the passengers began to speculate on the possibilities of a bad storm in the Bering Sca and of seasickness,

And it was a funny proposition. Every last one of us dreaded a storm and hoped for a smooth voyage, yet those who dreaded it worst were loudest in declaring we were sure to get They seemed to be trying to bluff themselves-trying to scare up their own courage by scaring the other fel-

Boy life in the middle of last contury was fresh in THE the thoughts and sympathies of Mark Twain when he wrote the story of Tom Sawyer, and old boys of today keenly appreciate the truthfulness of his portraiture. Besides this, there is much that is still representative of that period in a boy's life of today, United States and Germany. though times are given a chance to gratify the native longing within them for life in the open, and even schools are becoming bearable to the young savage. Tom Sawyer will, nevertheless, long remain a classic, endeared to our hearts because of the author's kindly soul revealed therein.

The atmosphere of the story is most perfectly preserved in the scenes depicting the gatherings of townspecple at the meeting house. The selection of church and street; the care patriotism that actuates our gallant shown in costumes and the absence of theatrical exaggeration completes a delightful illusion.
