WHAT IS WORSE THAN WAR?

Consumption Four Times More Deadly Than Bombs and Machine Guns.

Pierre Hamp, a French medical asthority, estimates that of the 38,000,-000 people of all ages still living in France 4,000,000 must die of tubercuiosis. The war will have killed about 1,000,000. This means that man with all of his inventiveness is far less efficlent than Nature as a man killer, There have been over 400,000 new cases of consumption in France since the war began. This is why, despite the number of new hospitals, there is still not sufficient space available for tuberculosis cases.

The Question of Pensions Of course first consideration is accorded to the ever popular wounded Mrs. W. H. Barnhart. men. Therein lies the tragedy of the consumptive soldier. With the new cases coming to daily from the trenches the consumptives are not as belpless as the wounded men When discharged from the army the severely wounded are allowed a pension by the government. The consumptives, however, receive no allowance unless they can prove that their filness is entirely due to their service in the army. This is not an easy thing to do, and consequently comparatively few consumptives receive governmental assistance.

Until the American Red Cross began to extend its aid the plight of most of these men was often pitiful. When discharged from the bospital they are given certain instructions which would eventually bring them back to health, But conditions are hard. They are usually unable to earn much and so do not get proper or even sufficient nourishment. Very often they are in no condition to look after themselves, still less to safeguard the health of othera. To meet this diff ulty local committees have been formed to look after the discharged patients and see that they do not pass on their disease to members of their families. The task in well nigh hopeless. Even if proper living quarters are to be had sanitation and hygiene cannot be taught overnight. They sleep in air tight rooms, kiss their babies, drink out of the same cups and use the same towels DuPage County as the rest of their families.

in spite of these appalling difficulries, however, the rapid spread of the disease must-simply must-be checked. Even to attempt this would be an Impossibility without the tremendous facilities and sid of the American Red Cross. No other agency could concelvably face, much less hope to accomplish, such a task,

TIRED FIGHTERS

Red Cross Rolling Canteen.

in six months the American Red Cross supplied a million French pollus with hot coffee, tea, chocolate, bouillen, at the time they needed it most-just as they were entering the communication trenches for a tour of duty under boche fire or coming out, tired and worn, after their grueling vigil. If you were dragging the tiredest pair of feet in France through the mud, and if you were greeted by a cheery voice and a steaming pint of beef ten, wouldn't it be "a grand and glorious feelin'? Oh, boy !"

hot drinks at a cost of 50 france (\$10) to apply for their daily bread. per thousand men, a cent aplece!

Think of that-the penny your little girl sends the Red Cross can buy a big hot cheering drink, a good natured greeting, for a fighting man who desperately needs just that! One penny! Red Cross Rolling Canteens to the number of 15 are now behind the lines in continuous service. Their crews

are exposed to shell fire and often

have to put on gas masks, Eugene Hale, brother of United States Senator Hale, served months with a rolling capteen in France, and he says:

"While the men are glad to have the hot drinks, their chief satisfaction consists in the sense this service gives them of a friend being there with a

helping hand in a critical hour." And now the American army has asked the Red Cross to maintain :his front line service directly in touch with the medical relief stations nearest the Yankee front and this the Red Cross is eager to do.

He is gone but left an admirable epitaph on his tombstone, in the form of character, that will never die.

In the days that are not in the rcmote future, only the mothers that gave their heros to die upon the sacrificial altar in behalf of Democracy and Liberty for the world and humanity in general will receive the endorsement of the noblest institution now or ever has been in existance, namely, Motherhood.

Only mothers can place the proper valuation on those to whom they have given life; they have trodden upon the perilous and thorny ground that the world might continue to be blest with citizentry; you, Mrs. Kimball, have given your all-in-all, your son, to the greatest cause of humanity; your son never emerged from the hellish trenches in No Man's Land to meet the enemy in a hand-to-hand struggle, but I am sure that he was willing to do so had such been his lot; his glory is none the less great that he was deprived of this manner of doing his duty. The fact that is worthy of mention is that he willingly rendered his life for his country; this is the major point at issue at this period of our national history.

Beautiful Chinese Gardene. From time immemorial China has been called the flowery kingdom, a name given by the Chinese themselves and singularly suited to the land which for ages was like an oasis of flowers of the spirit in the world desert of barbarism, observes the New York

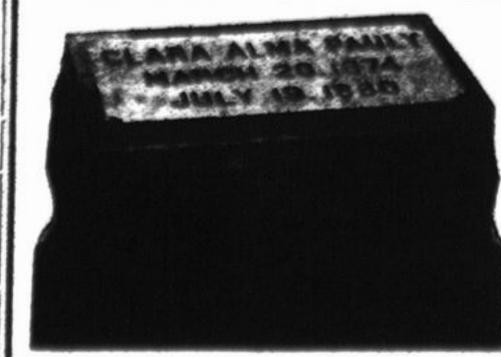

Mrs. John J. Kimball of 95 Fairmount

street Downers Grove.

World In this casts grow the arts of the bronze and stone worker, of the silk maker and embroiderer, of the potter, of the painter on slik, of the poet, philosopher and ethical devotes.

But China was not named the flowery kingdom because of these flowers of the mind. Her flora is one of the most luxuriant in the world. It is estimated to consist of some 12,000 specles, 9,000 of which are known and onehalf of which are indigenous and not found elsewhere.

Such being the flora of China, it is readily understood that horticulture and gardening early became a skilled and honored profession.
