## Forest Preserve, What It Means To DuPage

YOU OWE IT TO YOUR COMMUNITY TO LEARN THE FACTS. On June 7th, 1915, the people of Du Page County are to vote upon the question of establishing a Forest Preserve District covering their entire

No issue of more vital importance than this has ever been put before the voters of Du Page County for their decision.

The issue presents a tremendously important financial and economic question. It offers an opportunity to adopt a new and progressive public policy which promises large additions to the wealth of Du Page County.

The issue presents, also, a most vital social question. It presents question of the highest importance to the lives, health and happiness of every man, woman and child in Du Page County. It promises an opportunity to put the people of Du Page County in the front rank among modern, progressive rural residents-to attract state wide attention to Du Page County as a most modern American community. WHAT FORESTRY LAW PROVIDES.

Here, in brief, are the main provisions of the law; entitled: "An Act to Provide for the Creation and Management of Forest Preserve Districts," passed by the Illinois Legislature and signed by the governor in 1913: WHAT MAY COMPRISE FOREST DISTRICT.

Whenever an area of contiguous territory lying wholly within one County contains one or more natural forests or parts thereof, and one or more cities, towns or villages, such territory may be incorporated as a Forest Preserve District in the following manner, namely-PETITION TO ESTABLISH PRESERVES.

Any five hundred (500) legal voters residing within the limits of such proposed district may petition a Circuit Court Judge of the County to cause the question to be submitted to the legal voters of such proposed district; whether or not it shall be organized as a Forest Preserve District under

ACTION BY COUNTY JUDGE. Upon proper filing of petition, the Judge shall fix a day and hour for public consideration thereof. At the hearing the Judge shall consider the arguments of any person owning property in such proposed district, who

desires to be heard. SUBMITTING QUESTION TO VOTERS. All essential conditions having been complied with, the Judge shall order the question submitted to the voters of such proposed district at any

special or general County election. FAVORABLE MAJORITY VOTE NECESSARY. If the majority of the votes cast are found to be in favor of incorporation, such district shall forthwith be deemed an organized Forest Preserve

District under this Act. FORESTS CONTROLLED BY COUNTY BOARD. The affairs of such district shall be managed by our regular Board of County Supervisors, who act as Forestry Commissioners without additional

compensation. POWER TO CREATE PRESERVES. Any Forest Preserve District so organized shall have power to create one or more Forest Preserves and may acquire and hold lands containing one or more natural forests, or parts thereof, for the purpose of protecting and preserving the flora and fauna and scenic beauties within such districts and to protect and preserve such lands, as nearly as may be, in their natural condition for the purpose of education, pleasure and recreation of the public.

HOW WOODLANDS WILL BE DEVELOPED. The Commissioners shall have the power to lay out and maintain convenient paths, drives and roadways in and through such Forest Preserves

FORESTS INCREASE REALTY VALUES. Perhaps the most notable Forest Preserve venture in our country is that in the State of New York, where very large areas have been set aside

le

er

has increased very materially in value since the establishment of the Preserve. In the Harriman section property values have increased about 100 per cent within the last four years. There are two reasons for this increase: First, because of the general belief that the limits of the Preserve will be extended to take in the entire Highland section and the consequent speculation; Second, the desirability of this property for summer homes

and bungalow sites. "Those properties which are beyond the possible extension of the Preserve, and which are desirable for country homes, have more than doubled in value since the Preserve was established, and it is generally recognized that this increase is due to the establishment of the Preserve and its preservation of the forests and the water supplies."

SIMILAR INCREASE IN MASSACHUSETTS.

The Porest Preserve Commission of Massachusetts, through its Secre-"As soon as the Commission carried out an actual movement, a consid-

erable rise in the value of adjacent property took place, of such a nature that the property, which before the Preserve was taken, had been worth ten cents per square foot, acquired a value a few years after the Preserve had been made, of a dollar and a half per square foot."

ON PARALLEL WITH DU PAGE COUNTY. It should be remembered, in considering those statements of the increase in land values due to forest preserves, that the New York and Massa-

chusetts preserves are located at about the same distances from New York City and from Boston as the desirable forests of Du Page County are distant from Chicago. The increase in values came about in very large part because of the

demand on the part of wealthy city residents for attractive sites for country homes. It is a matter of common knowledge that a similar demand by Chicago purchasers has already operated in recent years to increase the values of Du Page County lands

It appears plain, therefore, that to establish forest preserves in our County will be to encourage and stimulate this demand for Du Page County lands, and that further large increases in land values will ensue.

BIG BENEFITS OF TOURIST TRAFFIC. Another important factor in bringing about increases in land values is that of making our county attractive to tourists. We all know that the more desirable, high-class tourists we can bring within our borders, the more money they will spend among our merchants and our producers of agricultural products. We should hold in mind, therefore, the fact that the tourist trade always seeks attractiveness, and that the places which are naturally the most beautiful are the most favored by tourists. Why not make Du Page County as delightful and attractive as any district in Illinois Its natural attractiveness is Switzerland's conspicuous means of income.

The Pine Woods of Maine are said to bring an annual revenue of forty million dollars from the visitors they attract. Banff, in the Canadian Rockies, in the year 1902 and before the establishment of the Dominion Park, had 8,516 visitors. Ten years later, the Dominion Park having then become established, the tourists numbered 73,725.

LET DU PAGE COUNTY HELP GOOD WORK. As our government has found, after mature investigation and the consideration of all material interests, that it will pay the people to have this huge bird-refuge established, surely it is worth while for our rich county to co-operate in this movement. The Forest Preserves will afford secure shelter and nesting places for thousands of birds of all species and these will perform a service of high value to the farmers of our county by de-

troying insect pests. No man living can estimate the future value of bird life to American farming communities, but it is certain that such value, already large, will increase with the future intensive settlement of the country. BEST EDUCATION FOR OUR CHILDREN.

Outings by forest and stream combine recuperation with a gratification

all a craving for the solace of the forest—wild, rough a effect is certainly salutary upon all ages and conditions. Consider and compare the street urchin, and in face bred lads, with the barefoot boy of simple country life and low each through childhood and youth to maturity—the imental and physical weakling, treading feverish, debilits verted tastes, while the radius of the latter reaches out.

and brawn of the land. OUR BEAUTIFUL WOODLANDS AND In Du Page County we have much natural woodle ways of exceeding beauty. These can and should against devastation

Conserved and opened to public use, they will for all people within the radius of a few hours ride by mobile—say 50 to 75 miles. Notwithstanding auto coming cheaper than horses, still properly located Fa bring every resident of Du Page County within horse frequent enjoyment.

WILL GIVE US COMMON MEETING P Country people will find a common meeting group The Grange and our various agricultural improvement an ciations will prefer just such places for assembly. Besides is directly abreast of Chicago and her wonderful suburba a constant concourse of tired, city-worn people, dr beauty spots for rest and recreation.

Why does a business house, a railroad or a state ad attract attention and induce the largest possible n ple to come and see what they have to offer. Consider tent to which our railroads and many states advert

ADVERTISING VALUE OF FOREST The natural forests of Du Page County—opened and in their native state for the purpose of education, pleasur will, without the expenditure of a dollar in advertising in stant concourse of worthy people. These will con or any limited period, but for all time.

Of the multitudes who come to play, many of the stay to pray-for to most of us the greatest marvel of grows; in fact, life itself, more or less subject to co forest it is astonishing how quickly nature speaks of he the growing child hears first and most.

HERE IS WOMAN'S OPPORTUNIT Remember, too, that responsibility no longer re-sex. Here, in fact, is opportunity for women to upon the works of men.

Country conditions are rapidly taking on stop being out of touch with the world. It was the drudgery and solitude of bygo farm irksome. Because of that the home tie eagerly sought other fields.

BENEFITS FOR ALL OUR C of the land itself, of improved machinery, of farm home. We have the telephone, free rural farm home. We have the telephone, iron rural good roads and ready markets. These present adepted, will estimfy the ambitions of youth safe from the lare of the bright lights of the home for that wanderbest among the young people wour country homes. Securing these forests for the of healthful and attractive surroundings then of healthful and attractive surroundings.
