Weekly War News Digest
Stories of Activities and Conditions Throughout the United States and on the Battle Front. Compiled for Newspapers by the Committee on Public Information at Washington, D. C.

Photographs of Navy Heroes Wanted
The Navy Department is collecting photographs of enlisted men who lost their lives in the war that their memory may be perpetuated. Secretary Daniels asks relatives or others having such photographs to lend them to the Navy that copies may be made for the Navy's records. Original will be returned to the owners as fast as copies can be made.

Women are stevedores on the docks in France. There is a heavy load to be carried to cargo packages weighing more than 25 pounds. Packages shipped to the American Expeditionary Forces are standardized so they shall not weigh more than 70 pounds for handling by one woman carrier or more than 140 pounds by two women carriers. Mr. handle the heavier packages and the boxes that must be used instead of bales.

The Quartermasters Corps recommends to manufacturers supplying the Army many similar economies in packing and shipping which will result in even more pronounced space and weight saving. Round cans and containers entail a waste in space of 25 per cent. Square containers are urged. It is estimated that every inch saved through bale compression is worth 65 cents in ship space.

Crack Navy Gunner Stops Submarine
The fourth shot from a gun manned by a Navy armed guard on an American merchant ship struck the conning tower of a German submarine, which attacked the ship May 12 last at 1,000 yards distance. The submarine was compelled to submerge after having launched four torpedoes, two of which missed the steamer's bow by about 12 feet. Chief Gunner's Mate Harry R. Chambers, commanding the armed guard, was commended by Secretary Daniels for efficient conduct.

Department of Agriculture specialists appealing for increased production of poultry and eggs, makes these suggestions: Keep better poultry; select healthy, vigorous breeders; hatch early; preserve eggs; cull the flocks; grow as much poultry feed as possible; supply the family table; eat more poultry and eggs and conserve the meat supply.
The division on women's war work of the Committee on Public Information announces that the trustees of Pratt Institute, Brooklyn, N. Y., offer to wives and daughters of Army officers three scholarships, including tuition and laboratory fees, for 1918-19 covering household science, household arts, and preparation for institutional work.
The Medical Department, United States Army, needs women as reconstruction aids. The office of the Surgeon General announces: "The work of reconstruction aids is divided into two sections, (1) those women who are well trained in massage and the other forms of physiotherapy, and (2) those who are trained in simple handicrafts." Foreign service pay is \$60, home service pay \$50 per month and quarters allowance.

Better Ship Loading Helps Our Allies
Economies of approximately 20 per cent in shipping weight and 50 per cent in shipping space have resulted from improved methods of packing merchandise for overseas practised by the Army Quartermasters Corps. This is equivalent to about 2,500 tons space per month.
For the shipment of clothing and equipment, including such items as blankets, barrack bags, towels, shelter tent halves, bedding and other
