CO. H. NOTES.

In 1863 certain brand new Springfield rifles—the last word in up to date military equipment were manufactured and issued to the men of the Union army. October 7, 1918 at 9:30 p. m. some of those same guns, rusty but still useful were dealt out to some twenty members of Co. H to be cleaned and polished. The guns needed attention and the men needed a penalty for not appearing in the sham battle staged by Company H and the Naperville Company on the plains and in the forests of Lisle, Illinois.

Certain members of Company H, having honest and true excuses for not attending the sham battle protested against cleaning the muskets. No protests were allowed and the hardware merchants report a sudden demand for oil and emery paper.

There is talk of placing all the spiral puttees in one squad and instructing the wearers of the "four yards of woolen tape" in the proper method of attaching them to prevent unwinding.

Recruits are wanted to fill vacancies in the ranks of Company H, vacancies caused by the boys going to the front. There are many men in the village who should be in the company. Membership in the Illinois Reserve Militia represents a real service. Its members are not drilling simply because they like it, nor because they imagine they look well in soldier clothes. They are giving their time and strength because they believe that thereby they are doing the community and the state a needed service. They stand ready to protect life and property if the occasion demands. They are a bulwark against treason at home! Maybe you think you haven't the time to join. Take the time! You will feel better and your friends will feel better.

INTEREST ON STATE FUNDS

State Treasurer Len Small has turned into the State Treasury \$306,424.33 interest on public moneys since he became State Treasurer in January, 1917. This sum is double the amount ever turned over to the State into the State Treasury in twenty-one months by any State Treasurer since the law was enacted ten years ago giving the State interest on public moneys. When Mr. Small became Treasurer there was \$289,908.51 in the Revenue Fund, so the interest turned in to the Revenue Fund by him exceeds the total amount left in the Fund at the conclusion of the previous administration.

Each to His Liking. Professor Pickering thinks if he had \$10,000,000 he could talk with Mars. Huh! If he had \$10,000,000 he could make love to Venus.—Buffalo News.

HE THOUGHT HIMSELF A GENTLEMAN AGAIN

Forgetting that he was a "tramp" when he saw the girl struggling with her heavy load, he offered to relieve her. That glance of contempt brought him back to earth! But it did more! In the trenches you will hear of "Bill" Hart from the boys who have been electrified by his splendid acting, inspired by his red-blooded courage; in the drawing rooms, sweet-faced old ladies or young debutantes speak of Mr. Hart, as their ideal of manhood—"with a face, rugged, but full of character and manliness.

Wherever he is known, "Bill" Hart is liked; wherever he plays—or his pictures shown—he is admired. He is a star without a peer. He is an art that is individual, a personality that is unique.
