 Willard Gallup left on Thursday for Paris Island, S. C. where he was sent on his enlistment in the Marines. He is under age for registration but has been determined to get into the game and passed his examination with high ratings. Good luck to Willard.

Mr. and Mrs. F. B. Towsley and Mr. and Mrs. L. V. Orsinger motored to Coldwater Michigan last Thursday morning and returned Monday. Every minute of the time was enjoyed and some fine fish were caught. The ladies decided, however, that it was time to return when they had to fry 14 eggs for breakfast.
 The union services in the M. E. Church last Sunday evening were well attended. Dr. J. F. Jenness preached an earnest farewell sermon. The numbers and the friendliness of the citizens present show in what high personal esteem Dr. Jenness and his good wife and family are held among us.
 In the Chicago Sunday Tribune the following announcement will be of interest to Downers Grove people. "Mr. and Mrs. Edgar H. Libby announce the engagement of their daughter, Miriam Belden, to Lieut. James Miles Evans, son of Mr. and Mrs. Jackson Evans." Mr. Libby will be remembered as Pastor of the Congregational Church some years ago.
 Howard White, son of Bert C. White, our former postmaster, enlisted in the Red Cross ambulance corps and has gone on his way. Howard is one of our young g-men who is not old enough to register but anxious to do his part in the great war so he could not wait until he was 18. Downers Grove has occasion to be proud of her boys who can't wait to be drafted.

Mrs. Frank McCollum, Mrs. Dennis and Mrs. Phelps attended the reception given the relatives of the boys in the 149th F. A. by the Fathers and Mothers Association, on the beautiful lawn of the Murray estate at Wheaton, Saturday. 3000 relatives answered the call of the Herald Examiner motion picture director, "Come on now folks, give a big cheer and smile for your boys over there in the trenches" and the first section of the big film which will be shown over there at Christmas time was taken.
 The Downers Grove friends of the Regnery family, who lived for some time on Oakwood avenue, feel great sympathy for Mrs. Regnery and children. Mr. Frank Regnery and young son, Frank, passed away on Tuesday of this week in LaGrange, south Eighth avenue, where they have made their home for three years. The dreaded influenza claimed them after a very short illness. Mr. Regnery was associated with his brother in the window shade business and was a man of sterling qualities, who made many friends.

FOOD CONSERVATION
 We are at a common table with our Allies. If we serve smaller portions the supply will reach, so that all may have a little. Let us share with our guests.
 From this war we are to learn self-control, self-denial, and self-effacement. The hoarding of food in the household is unnecessary, as the government is protecting the food supply of our people, but it is selfish, and is the cause of high prices.

originated a novel manner of conducting its cafeteria in such a way as to encourage food conservation. A half dozen men in the General Fireproofing Co. at a luncheon at the plant recently decided that they were eating too much. In order to make it an object to eat less the following rules were adopted: Any member of the club who has a lunch check for 20 cents or less contributes 5 cents to a general savings fund which reverts to him in the form of thrift stamps. A 20 to 25 cent check requires a 10-cent tax. A check from 25 to 30 cents requires a 15-cent tax. New members joining the club paid an initiation tax of one cent. This concern conducts its own kitchen and dining room and sells at cost to employees. The tax plan is expected to promote economy in food and to provide a thrift-stamp fund as well.

Convinced that the epidemic had reached proportions which required prompt and vigorous measures, the state department of health has ordered that all theatres, including moving picture shows, all night schools, all lodges and all places of public amusement, closed until the epidemic subsides. All public schools which are lacking in adequate medical and nursing supervision were included in the order.
 Every person who must sneeze, spit or cough, is warned that when so doing they must cover the mouth and nose with a cloth which must be burned or thoroughly disinfected at once. Unless this is done, it is believed, that scores of persons in every community will become needlessly infected with influenza.
 The influenza rules issued by the State Health Department provide for the immediate reporting of all known or suspected cases of influenza to the local health authorities and all persons who have influenza are to be isolated.
 The crest of the influenza wave which is leaving thousands of victims in its wake was reported today to be between Chicago and Springfield and slowly proceeding southward.
 In an effort to inform every citizen of the state concerning the prevalence of influenza, how it is spread from one person to another, what must be done to lessen the chances for infection and what must be done by the victim when the first symptoms of a slight cold appear, Dr. Drake has appealed to newspapers, the ministers, the manufacturers, the labor unions and the theatre managers to aid in the fight.
 The response to the appeal was immediate. Thousands of ministers in the State will preach influenza sermons next Sunday. Hundreds of moving picture houses will run slides and posters while local managers personally appeal to their patrons to help bring the epidemic under control. Factory owners and other employees of labor are aiding in the fight and practically every newspaper and many unions in the State have joined hands with the health department in the campaign.

AN INFLUENZA WARNING TO YOU
 Do not become panicky.
 Do not visit the sick.
 Keep out of crowds.
 Avoid dusty places.
 Work, sleep and live in the open air.
 Avoid contact with persons who have "colds."
 Keep your hands clean and keep your fingers out of your mouth.
 If you get a cold, go home, go to bed and have a doctor called.
 Dress warmly, do not permit yourself to get over tired, avoid chills.
 The influenza germs are spread by careless sneezing, coughing, and spitting.
 Do not use patent medicines and other so-called "cures."
 If you are tired, chilled or physically "below par", you are most likely to be infected with influenza.
 If you hear of a case of known or suspected influenza, report it at once to the local health officer.
 If you get a cold—cough, sneeze and spit in a cloth which must be burned or thoroughly disinfected.
 An influenza warning was issued today by Dr. C. St. Clair Drake, director of the State Department of Public Health, to every man, woman and child in Illinois.
 The warning is to be "On Guard". On guard against the careless sneezing, coughing and spitter because such persons are largely responsible for the widespread epidemic of influenza which already has invaded 800 Illinois cities and towns and caused hundreds of deaths.
 Other advice from the State Health Department contained in an influenza pamphlet just off the press is to avoid crowds, to keep the body comfortably warm and upon the appearance of what may seem to be a slight cold, to lose no time in consulting a physician.

FARMERS SHOULD NOT BE PANICKY
 Because wheat movements on the eastern coast have been temporarily curtailed to meet immediate demands of General Pershing, farmers should not become panicky and sell their wheat for less than government price, is the message sent out today by Robert Stevenson Jr., Deputy Food Administrator for Illinois.
 "Enlarged demands by General Pershing for material resulting from progress on the western front has necessitated a temporary diversion of grain ships to his service.
 "For the time being this diversion of tonnage curtails wheat movements from the seaboard, and has filled our seaboard and terminal elevators, thus checking the movement of grain.
 "We have been informed that some farmers have become panicky and are selling wheat at less than prices set by the government. There is no occasion for this, and if holders will have a little patience, wheat will be moved, and a full price secured by every grower.
