The Great Test. Self-control is an easy matter when we are alone, says New Success Magazine. But the moment our lives are thrown in with others, then comes the struggle. To maintain our equanimity, to restrain the sharp retort, the impatient exclamation, to get along smoothly with disagreeable people, without friction or jarring—this is the great life test. This is what builds character, what tests manhood or womanhood, what makes the ideal employee.

THIS MOTHER IS A TRUE PATRIOT

What It Means to Save. If Esau and Jacob, who lived some six thousand years ago, were still alive, and if Esau had earned \$10 every day, and had saved it all, he would have \$21,900,000. On the other hand, if Jacob had deposited \$1 at 1 per cent interest, compounded every 100 years, he would have today \$578,499,752,308,423.488. Can anyone figure out how much Jacob would have had he purchased one \$5 War Saving stamp then, which pays interest at the rate of 4 per cent, compounded quarterly?
