To give a more adequate basis for acquaintanceship with the Master as the Word reveals Him should be one of the great purposes of Christian Church. The pastor has made a careful study of the life of Christ, harmonizing the life of four gospels. The LIFE OF CHRIST is the general theme of a series of short talks to be given in the preliminary exercises of each morning service thru-out the year. These stories will follow out the incidents of His life from birth to death and Resurrection. Unless you want to deliberately loaf on the job that God has given you—that of making your life count for the utmost in the activities of His Kingdom—you will make use regularly of this opportunity of getting your bearings and replenishing your soul's strength for grasping and promoting the things that pertain to duty, humanity, and service for the God whose child you are. "GREASED LIGHTNING"

At the Dicke Theatre, June 19th. Andy Fletcher, the village blacksmith, is an inventive genius who meets with numerous rebuffs without losing courage. One day, he repairs a stovepipe at the home of Alice Flint, the village banker's daughter and when she tells him sighingly that she wished she knew someone who owned an automobile, he makes up his mind to get a buzz wagon as soon as possible. He trades a patent potato peeler for the remains of an automobile owned by a farmer and after patching it up, christens it "Greased Lightning." Alden J. Armitage, a confidence man, has won the good graces of Mr. Flint, the banker, and is paying attentions to Alice, a course that Andy resents. He starts for the Chatauqu picnic with Alice and her father in "Greased Lightning," but breaks down and when Armitage drifts along in his high powered machine, Andy is chagrined when he takes the banker and his daughter along with him. Andy is working at his machine and later he has a misunderstanding with Alice. Armitage persuades the citizens to hold an automobile race and offers a prize of \$200 to the winner. Andy installs a racing motor in his machine and enters "Greased Lightning" in the race. Meanwhile, Armitage and his confederates have planned to entice Flint to the bank during the race and rob him. Flint is beaten insensible and robbed and Andy has just got "Greased Lightning" in good condition when he hears of the robbery and escape of the thieves in Armitage's automobile. He takes up the chase, passes every machine on the course, cuts across fields and finally runs down the gang and masters Armitage in a desperate battle. As a reward Flint gives him his daughter and makes them a present of a much longed for factory-made automobile.

HOUSES OF CONGRESS PETITIONED BY PHONE CO'S.

Washington, D. C., May 19, 1919. TO THE MEMBERS OF THE SENATE AND HOUSE OF REPRESENTATIVES:

On midnight July 31, 1918, under the authority of Congress for war purposes, the President took supervision, possession, control and operation of the telephone systems of the country and has since operated them. The war has practically ceased. The public press is strongly demanding, the general public and the owners of the telephone properties are urging that they be returned as speedily as possible, that former conditions may be restored and more satisfactory service be afforded. The President and the Postmaster General have announced that this will be done as soon as adequate arrangements be provided for receiving and advantageously operating them. It remains only for Congress to enact such legislation as speedily as possible.

The expenses of these systems have largely increased during the past year for wages alone at the rate of more than \$20,000,000 per annum.

This was inevitable and necessary by reason of larger proportional increases by the Railroads and industries of the country. The revenues are inadequate to care for such increased, and the deficit of the Government on that account to date is large and steadily increasing. The Postmaster General ordered that steps be taken to secure adequate revenues, but conditions with the regulatory authorities of the States, not yet settled, have prevented such adjustments.

If such conditions continue, necessarily the credit of the operating companies will be impaired, proper expenses cannot be met, the best operating forces cannot be retained, needed extensions and satisfactory service cannot be provided. A deterioration will ensue which in some localities may threaten a recurrence of public ownership or operation in order to care, even inadequately, for public needs. By prompt action Congress can prevent this contingency.

Just and speedy settlements should be made for all properties taken under the existing law, that such balances now in the possession of the Government may be restored to assist in the upbuilding and extension of the various systems for better public use. The conditions and regulation of operation should be clearly defined so as to permit the companies to reestablish and maintain a satisfactory service with reasonable rates without discrimination and procure the benefits of legitimate competition. The principal operating companies of the United States are vitally interested in co-operating with Congress and the officials of the Government to accomplish these results.

Theo. N. Vail (signed) President American Telephone & Telegraph Co. G. W. Robinson, President U. S. Independent Telephone Association.
