

# Y. W. C. A. PLANS WORLD PROGRAM

Mrs. John D. Rockefeller, Jr. Heads Association's 1920 World Service Program.

\$3,000,000 NEEDED FOR WORK.

Leader Calls Association a "Stabilizing Influence" in Outlining Post-War Program for Women—Federal Council of Churches to Announce "Y. W. C. A. Sunday."

Mrs. John D. Rockefeller, Jr., chairman of the National Educational Campaign Committee of the 1920 World Service Program of the Young Women's Christian Association, has made the following statement:

"Since the war we are more than ever aware of the economic, industrial, educational, social and religious dif-

MRS. JOHN D. ROCKEFELLER, JR. Chairman of the Educational Campaign Committee of the Young Women's Christian Association.

iculties which beset the lives of girls and women everywhere. In meeting the post-war needs of women the Young Women's Christian Association stands as an instrument of service, tested and proven by war, and organized to meet the manifold problems of peace.

"Because of its fifty odd years of experience in meeting fundamental problems affecting girls, the Young Women's Christian Association is an organization particularly fitted to exert a stabilizing influence upon the troubled times through a consistent program of service for girls and women.

"American women are asking how they may share in the world's reconstruction. They can do so by enlisting the support of their communities for this World Service Program, which will insure to the world a healthier and better womanhood.

"This campaign of the Y. W. C. A. to tell the people of the United States about its work and to raise \$3,000,000 with which to carry on Y. W. C. A. work during 1920 in the United States, Europe, China, Japan, India, South America, Egypt, Siberia and Mexico will close the week of February 22 to 28, which will be known as Y. W. C. A. Week.

"The Federal Council of Churches will probably set one Sunday as a time for ministers throughout the country to address their congregations on general conditions affecting women and the Young Women's Christian Association as an instrument of service.

"The immediate task is to bring to the people of the United States a knowledge of conditions affecting the lives of women in all parts of the world. We can no longer ignore the character, the manner of life and the ideals of other peoples, whether we want to or not. A special call is now coming to the Association from China, Japan, India and South America, where work was held back during the war because of the necessity for special activity in France and the United States.

"The World Service Program calls for \$4,500,000. Of this amount \$1,500,000 has already been secured."

The educational campaign committee includes among its members Mrs. Robert E. Speer, president of the National Board of the Y. W. C. A.; Mrs. Henry P. Davison, Mrs. William Van Y. Hayes, Mrs. Robert L. Dickinson, Mrs. William Adams Brown, Mrs. Van Sanford Merie Smith, Mrs. Lewis H. Lapham, Miss Ellen Hale Stevenson, Mrs. Frederic B. Pratt and Mrs. Herbert Lee Pratt.

## SMALL Y. W. C. A. IS COMMUNITY CENTER

Recreation for Girls Is Important Feature of Work.

Fifty-two young women in the United States are known as Y. W. C. A. "town secretaries." All of which means that the fifty-two are organizing recreation work for girls and for the community at large in towns of less than 10,000 inhabitants.

The Y. W. C. A. may be in one rented room or more. It may be a whole building, but at any rate there is a recreation room and if possible a kitchen, reading and writing rooms. If the Y. W. C. A. has a building of its own it becomes a community center, where all women's organizations may meet.

## KLEIN TO INSTALL BAKER ICE MACHINE

In line with the many modern innovations which the Klein Sanitary Market instilled when they built their present business structure and which have since been installed, they are now busy putting in a modern refrigeration system.

This system which, by the way, has the approval of the United States department of Health, will do away with the old theory of having ice either in, above or around the ice box. The particular make of machine which Mr. Klein is now installing is the Baker Ice Machine, which keeps the ice box at an even and low temperature by the use of ammonia pipes. Ammonia, greatly compressed, will be driven by an electric motor through these pipes in and around the present ice box.

Government experts in experimentation with foods have found that they keep best if an even temperature of 38 degrees is kept. This even heat or cold, is what this system will do.

When installed, which will be in ten days or two weeks, Mr. Klein will invite the general public to look over the system and see its advantages in keeping meat fresh and clean.

The addition of this modern labor saving device to the market makes it one of the most up-to-date and sanitary markets in this part of the State.

Found it Somewhat Depressing. I had taken little nephew with me to a funeral at the home of one of our neighbors. He was very quiet during the music and singing and subdued weeping of the mourners, but gave a sigh of relief when the services were over. On our way home he looked up at me and remarked: "It wasn't a very lively party, was it, auntie?"—Chicago American.
