TWENTY-TWO YEARS AGO IN THE REPORTER

Miss Grace Huling entertained a number of her young friends last evening on the twelfth anniversary of her birth. The storms of Saturday and Monday night left little to be desired in the way of snow for sleighing. About a foot fell on the level.

The Ladies Aid of the Congregational church had a lunch last Thursday at the home of Mrs. D. G. Graham. Mrs. Graham was assisted by Mrs. L. P. Naramore, Mrs. W. C. Bartles and Mrs. Frank Lacey.

Downers Grove Lodge, I. O. O. F. celebrated their sixteenth anniversary Monday evening. They were assisted by Banner Rebekah lodge, No. 447 and others.

Rev. H. H. Rood has notified his congregation that he will decline to accept a call to the Congregational church for another year closing his pastorate about the first of February.

In the brightly lighted and prettily decorated rooms of the Downers Grove Club, the ladies of the Auxiliary of that body received from nine until twelve last Saturday evening. Dancing, a program and refreshments were greatly enjoyed by those present, who were, Mesars and Mesdames. F. A. Root, Guy L. Bush, C. F. Davis, P. C. Gallup, R. D. McKinney, Geo. R. Smith, W. H. "PROBLEMS FACING STRICKEN WORLD" STARTS THIS WEEK

Number One of Interesting Series of Articles by Frank Comerford In This Issue.

On page six of this issue will be found Article number 1, of "Problems Facing Stricken World." This is the first of a series of six articles by Frank Comerford, which we promised our readers several weeks ago and which were unavoidably detained as Mr. Comerford was busily engaged in revising them for the press before he would release them.

Known to Illinoisans several years ago as the man who exposed the graft in the then State Legislature which threw not only Springfield, the capitol, into confusion, but the rest of the state as well. The corruption "ring" then in control of state affairs was the worst Illinois has ever had to combat. It was Comerford that threw the bomb which exploded under the heels of the politicians.

Traveled in Europe. To get material for this series of articles Mr. Comerford traveled extensively in Europe. He talked with princes and kings, ex-princes, kings, generals and common people, laborers, workmen, educators, newspapermen and bankers. He saw conditions as they really were in the cities, towns, country villages and remote parts of the various countries engaged in the world war. From his own personal observations he has written this series of articles.

At Lunch Time. The struggle to make both ends meet often results in an empty middle.—Boston Transcript.

ONE-FOURTH WORLD'S WOMEN IN CHINA

Seventy Per Cent. Employees in Shanghai Cotton Mills Women and Children Working Twelve Hour Shifts.

One-fourth of the women in the world are Chinese—200,000,000 of them. They are going into industry in large numbers to work long hours and for little money.

In Shanghai, for instance, seventy per cent. of the employees in the cotton mills are women and children. Working hours for spinners are from six in the morning until six at night and from six at night until six in the morning. Weavers work from 5:30 in the morning until seven at night and the wages are from ten to twenty cents a day. Hundreds of women are employed in silk flature mills, standing hour after hour washing cocoons in basins of boiling water in the excessively hot rooms necessary for apartments where fine silk is spun.

As part of its program of world service for women the National Young Women's Christian Association is expecting to put on its staff of secretaries in China an expert on industrial conditions who will develop social work in factories, and work to improve conditions for women employees. This work will include the introduction of recreation and social life among the workers and of health lectures and educational classes.

Y. W. C. A. STUDENTS TEACHING IN CHINA

Physical Training School Maintained in Shanghai.

The vast majority of Chinese men remember their mothers as cripples. Many a girl wanders into a mission school who has not had her own feet bound, but has never seen a woman of her own class who could walk, and therefore, she walks in a most ungainly fashion—scarcely conscious of her natural feet.

The Chinese Medical Association—an Association composed only of Chinese physicians mostly graduates from American and English institutions—have asked the entire educated community of the country to co-operate in better health for the children of China. All the Mission Boards operating in China felt that one of the greatest contributions the Young Women's Christian Association could offer to the health of China would be to establish a normal school for the training of physical directors.

Accordingly, in Shanghai, which is the greatest port in China, the national committee established such a school in 1914. The school has won favor with all educationalists, both missionary and government. There have already been nine graduates from this school Miss Ying Mei Chun, a graduate of the Wellesley School of Physical Education, has been dean of the school. Graduates of the school are scattered from Canton to Peking, teaching with conspicuous success in twelve missionary and government schools.

particularly interested in the public health and recreational plans of her city for some time and is medical inspector for girls in the public schools of Tokyo, as also in several private schools in the city. There are approximately 500 women physicians in Japan now, she says, and 400 women medical students. Dr. Inouye was the only delegate from Japan to the Y. W. C. A. International Conference of Women Physicians, in session during September and October.

NEWSY NOTES FROM LISLE AND BELMONT

Church Notes. Sunday School 10:00 a. m. Evening Service 7:45 p. m. Church Service, 11:00 a. m.

Mr. Thos. Dobbs spent the week-end with relatives in Chicago. Mrs. Dobbs is staying in Chicago for a few weeks.

Mrs. Geo. DuMoulin is visiting her parents in Belvedere, her father being quite sick.

School was closed on Monday on account of both teachers being sick and several pupils.

Mr. and Mrs. Steele, of Lockport, were the guests of Mr. and Mrs. Anderson a few days last week.

The business and social meeting of the Adult Bible Class was postponed on Friday night on account of the snow storm. It will be held at a future date.

There Are Many Bettys. Betty was an aggravating child, and the children would seldom play with her long at a time, but got out of patience with her and left her to herself. Beatrice returned from a call on Betty one day and was asked why she came home so soon. "Why," Beatrice replied with some vehemence, "it hurts any one's temper so to play with Betty."

Their Name Is Legion. Harold had told me that his friend Robert was coming over with him to play after school. So when my son showed up without Robert, looking much disappointed, I asked the reason. "O, his mother did say at noon that he could come, but I'll tell you how it is—he is one of those changers of mind."—Exchange.

Marked Advances in Weaving. In 1837, on the twenty-third of November, the patent for the Crompton loom for weaving cloth was issued to William Crompton of Taunton, Mass. This machine made it possible to weave intricate patterns in cotton fabrics by machinery in place of by hand as had been done formerly.

Go Easy, Boys! Rumor has reached us of unrest and impatience among our trade school pupils, who are eager to be sharing the high wages now being paid to labor. They are in a hurry, one might say, to exchange the heyday of youth for the pay day of adolescence.—Boston Transcript.
