Don't Be Deceived

A few days of mild weather, snow thawing and robins coming, does not mean Spring is here. It will be necessary to burn coal for quite a few weeks yet and the best coal to burn is

PURITY COAL!

We now have this famous Illinois coal on hand and can make immediate deliveries. It is the freest burning, low soot content coal of any from the Illinois mine fields. It will give HEAT and satisfaction if burned in a furnace or in a stove.

Semi-Anthracite

For those who prefer the Eastern Semi-Anthracite we have Pocahontas Coal in Mine Run and Lump. This is higher in price than soft coal but has many of the qualities of hard. A good supply on hand.

COKE

People whose favorite fuel is Coke can be supplied at once from the supply of Vulcan Coke now in our bins. This fuel gives off no smoke or soot, is clean to handle and gives a hot fire.

N. R. FEASLEY HAS RESIGNED AS PRINCIPAL

Will Leave School Work Today for New Field With Text Book Publishers.

N. R. Feasley, one of the best principals Downers Grove High School ever had, has resigned his post and today is his last day as an instructor in the local high school.

The announcement came as a surprise and shock to those who have the best interests of the local high school at heart, for Mr. Feasley has been more than interested in the welfare of the students under his care. Besides being principal of the school and the arbiter of its destinies, he was mathematic's teacher. Coming here in the fall of 1917 he has made many warm friends in the village.

Mr. Feasley, while sorry that he is leaving the school, feels that his future depends on the step he is taking. He will give up the teaching profession and enter the business world.

He has accepted a position with the Henry Holt Publishing Co., publishers of text books for high schools. His duties will take him over the northern section of Illinois, and he will visit the schools in this territory, extolling the virtues of the Henry Holt books. By training Mr. Feasley is eminently fitted for the post. Having taught from text books of all descriptions, his is competent to judge the good from the bad.

The Board of Education have authorized Prof. Butler to secure another math teacher and he will take over Mr. Feasley's administrative duties in connection with his own as Superintendent of Schools.

Downers Grove people are sorry to see Mr. Feasley leave the local school, but they wish him all the success in his new work. Mr. and Mrs. Feasley will continue to make the Grove their home for the present.

MERCURY TOUCHED FIFTEEN BELOW

Following the warm, pleasant weather of last week, the mercury started traveling downward last Friday night and hovered around zero all day Saturday.

Saturday night was one of the coldest of the winter months and Sunday morning thermometers in the village indicated that old man winter was still on the job with a vengeance. Fifteen below was indicated.

However, Tuesday saw a moderation and the spring-like weather that followed makes us almost believe that an early spring is in store for us.

BY-LAWS ADOPTED BY LEGION AUXILIARY TUESDAY

Application for Charter Will Be Signed at Next Meeting, Tuesday, March 16.

The Downers Grove Auxiliary to the American Legion met in the legion club rooms for their regular monthly meeting Tuesday afternoon, a good attendance being present.

Mrs. H. S. Sherman, as chairman of the committee on By-laws and Constitution, read the tentative draft. As each article was read it was thoroughly discussed and voted on. It was adopted in substantially the same form in which it was presented.

Following this other important business was brought up for discussion and it was decided to make a drive for members. Those eligible to affiliate in the organization are the wives, mothers, sisters and daughters of Legion members and the same relationship of men who died in the service of the United States during the world war.

Application for Charter. At the next regular meeting, to be held Tuesday afternoon, March 16, the application for a charter will be signed. All those joining prior to or on this date will be charter members of the local chapter.

The officers of the chapter are particularly desirous that those who have so far signified their intention of joining should be at this meeting. They are also anxious that the new members be there also, so that as many names as possible be signed directly by the applicants.

It is permissible to sign by proxy, but those in charge think it would be better if personal signatures were used.

NEW ROAD FROM GOLF CLUB

County Surveyor A. L. Webster was here Tuesday making a survey for the new road from the Hinsdale Golf Club direct to the Clarendon Hills station. As surveyed the proposed road leads straight north from the station grounds to the gateway of the Golf club and will be a welcome improvement to the golfers, besides opening up a public highway through the Cook farm.—Hinsdale Doing.

WE GUESS NOT!

From the Reporter of February 17, 1898.

"If you need a suit for your boy go to the Downers Grove Fair and get them at \$1.19. Sizes from 4 to 14 years. Call at once, you will never get such a bargain again."

WEDNESDAY MEETING OF WOMAN'S CLUB INTERESTING

Illustrated Lecture on Native Birds And Wild Flowers Greatly Pleased Audience.

The regular meeting of the Civics and Philanthropy department of the Woman's Club was held at the Library Wednesday afternoon. Circumstances worked together to make the attendance small, but those present were well repaid.

Under the supervision of Mrs. E. G. Lemon, a program had been arranged as follows:

Native Wild Flowers—Miss Anna Herring; Native Shrubs, Mrs. A. R. Whitehorn; Native Ferns, Mrs. Frank Frisbie; Native Trees, Mrs. H. S. Paine. The afternoon proved too short to carry out the whole but every one enjoyed the papers and the discussions, and felt prepared to appreciate our new Forest Preserve.

Mrs. Jonas Foster sent in a lovely bouquet, which lent the proper atmosphere to the room.

After the business session Mrs. J. C. White gave a short talk on Parliamentary Law, covering the subject of Motions and the members discussed the topic at length to the enjoyment of all.

The department is planning an excursion into the Forest Preserve as soon as the spring weather will permit and every one will be invited to go along.

ROSS BAKERY NOW OPEN FOR NEW BUSINESS

Old Miller Hotel Building Has Been Remodeled Upstairs and Downstairs.

The Ross Bake Shop opened its doors to the public yesterday in the old Miller hotel building, corner of Main and Railroad sts. Rudolph Ross, the proprietor of the new business venture, is a practical baker of long experience. One of the features of the new enterprise has been emphasized by the proprietor and this is that the shop will be run clean and will be open to the public at all times for inspection.

The old building has been fitted up downstairs as a model shop. The latest mixing machinery, the best ovens and other things testify to his slogan of cleanliness.

Upstairs, wonders have been performed. The old plaster was torn off the walls, partitions removed and the place torn up so that it was unrecognizable. New groupings of the room have been made, the walls replastered, hard wood floors laid and now there is as pretty a six room flat as there is in the village.

BOY SCOUTS ENJOYED CHICAGO TRIP SATURDAY

Had Dinner Aboard Gunboat and Saw Workings of German Submersible.

The tenth anniversary week of the founding of the Boy Scouts of America has come and gone but it has left more pleasant memories of the time than any before. The scouts have to their credit a list of "Good Turns" that it will be hard to duplicate. Many of the parents of the scouts found that the scout could do his "Good Turn" at home as well as on the street. The scouts worked all the week for other people and then took Saturday off for themselves.

That day just three hundred scouts took the morning train for Chicago. They arrived at the Union Station at 9:07. Then lead by an escort of the mounted police assigned by the City they went to the plant of Montgomery-Ward & Co., where they went to the top or eighth floor and came down by walking the length of each floor and seeing how every department of this large firm is operated.

From there they marched to North Ave. and the Chicago river and aboard the U. S. S. Wilmette, a first class gunboat of the U. S. N. As they stepped onto the boat each scout received his dinner on a plate and went below deck where the coffee and pie-a-la-mode were served. After dinner there were yells and cheers for the men and officers of the ship and then the scouts had the run of the boat from the coal bunkers to the crew's nest. During this time the scouts were passed thru the ex-Germanine as well as in the Wilmette carine as well as in the Wilmette there were officers and men of the crew stationed to explain the most important parts of the boats and its apparatus.

After that the scouts fell in and marched to the Armour elevators. They went direct to the top and walked the length of the elevator on each floor. As they passed the various processes of the elevator they were explained to them. From there they returned to the Union Station and took the special cars provided for the scouts on the 5:27 train.

The Training Course in Scouting closed its meetings at the LaGrange High School Monday evening. There was not the number present that was expected as the cold weather kept all but the hardiest out door scouts away. There are three who have a 100% attendance at the course: Mr. Conrad of LaGrange, who is the Scout Commissioner and Scout Master Hulsberg of LaGrange, McGarhan of Congress Park, and Castle of Brookfield. The course closes Saturday, Feb. 21, with the hike to the Forest Preserve from Riverside.

Have You Ever Wondered

why our patrons increase in numbers, why they remain with us?

The secret is that they find in this bank the right kind of service—the only kind kind they want.

We invite your business.

Farmer's and Merchant's Bank

A State Institution under State Supervision
 Established 1892
