We need the floor space that these ranges take for spring merchandise and make this special offer in order to sell at least part of them.

This offer includes all gas stoves on the floor at this time.

LEONARD WOOD For President

This is one time your vote means something NO primary in the history of Illinois has meant more to all the people of the United States than the Presidential Preference Primary this year.

The names of two men are before you, and you are asked to make your choice between them - which of them you think should be President of the United States.

YOU are asked to do this, not by your vote for delegates, but by recording your judgment so that the country may know what you think.

Now stop and think what manner of man should have your voice in such a time as this - perhaps the most trying time in our history - the world seething with unrest, suspicion, bitterness - a time of danger. Is it not true that we need a man in whose steadiness of purpose, in whose steadfastness of mind, and in whose courage we can trust?

built model schools, established new hospitals; abolished profiteering, developed industry, rehabilitated agriculture, established justice in the courts, and out of chaos developed in a few years one of the contented, prosperous nations of the world.

There are other good men and true, but there's no other man before the people who measures up to the need of the time as does Leonard Wood. He is a Republican. He is a man of the people and for the people - all the people.
