Mr. and Mrs. M. E. Coleman have returned from their stay in Michigan where Mr. Coleman represented the Associated Press at the Senator Newberry trial. He says some of the revelations which the witnesses swore to as to methods employed by the Newberry committee in electing him, were a liberal education in modern politics.

The teachers of the public schools completely surprised Supt. G. C. Butler on last Monday evening at his home on North Main st. The occasion was prompted by the fact that Mr. Butler had a birthday on Sunday. A very pleasant time was had and a handsome gift was presented him as a token of appreciation. Mr. Immanuel Haebich, now of Riverside high school, and a former principal of our high school and Mr. Wirth of the Chicago University were present.

ART. FREDENHAGEN SHOT BY LaGRANGE EX-CHIEF OF POLICE

(Continued from page 1)

lass, is now no longer LaGrange's Chief of Police. He disappeared the next day, and although Fredenhagen has sworn out a warrant against him, he cannot be found.

Douglass was hired by LaGrange in an effort to stop the numerous holdups and robberies from which they had been suffering. Since he has been on the force, the stick-ups have continued and now Downers Grove boys allege Mr. Douglass knew more about them than he would care to say.

It seems strange that the gentleman in question did not at once announce to the fellows that he was a police officer. If he had the shooting and all the other trouble would have been obviated.

Philadelphia Bank Distinctive.

There is only one national bank in the United States which does not have "National" as a part of its name. It is the Bank of North America, in Philadelphia. A special act of congress is required to permit a national bank to operate as such without indicating the fact that it is a national bank in its name.

TREAT OATS FOR SMUT

Do you want a big oats crop this year?

Then don't run any risk. Treat your oats for smut. The Downers Grove Reporter has received from the University of Illinois a reliable smut treatment. Over a period of five years several treatments were experimented with by the Agricultural Experiment Station of the State University, and the one here given proved the most satisfactory of all. The use of this University formula will save Illinois farmers thousands of dollars in the coming crop. Here it is:

1. Thoroughly fan and screen the oats.

2. Mix one pint of formalin with 10 gallons of water for each 80 bushels of seed to be treated.

Keep this solution covered so as to prevent the formaldehyde gas from escaping.

3. Sprinkle the solution over the oats, using one pint to each bushel and mix thoroughly.

4. After two hours uncover the oats. If they have been thoroughly mixed they will have absorbed the moisture so thoroughly that they will be dry enough to sow at once in a broadcast seeder or drill.

6. If the oats are not seeded at once, they should be spread out in a thin layer and stirred occasionally to allow the escape of the formaldehyde gas.

This recommendation is based on five years' investigations planned to determine a simple, convenient method of treating oats for smut.

Knights of Malta.

The order of the Knights of Malta is of great antiquity and is supposed to have originated during the first crusades, from about 1070 to 1090. After the capture of Jerusalem, the order was founded by Gerard, who died in 1120.

Why One Should Carry An Account With a Bank

1. Because your money is safer in a bank than anywhere else.
2. Because paying bills by check is the simplest and most convenient method, as well as the safest, as your check becomes a receipt for the debt it pays.
3. Because it gives a better standing in the community, especially among the business men, to pay by check rather than cash.
