

ADAM W. KOHLEY AND WIFE MARRIED TWENTY-FIVE YEARS

Adam W. Kohley and Elizabeth Wehrli were married on June 18th, 1895, in Naperville at St. Peter and Paul Church, the Rev. Father Wenker, officiating.

To celebrate this event of twenty-five years ago, over one hundred relatives and friends living near Supervisor Kohley and the following out-of-town relations, Mr. and Mrs. Stephen Kohley and Mr. and Mrs. Feldhaus of Bensenville, Ind., Aloysius Kohley of Chicago, Mr. and Mrs. Ed. Damm and Eugene Damm of Lockport, and John Malish of Aurora, gathered at the Kohley home last Sunday.

The house was beautifully decorated in silver and white for the festive occasion. Little Robert Wehrli and Laura Kearns presented the celebrants with a beautiful bouquet of bridal roses and a basket of silver dollars. Many other beautiful gifts in silver were received by the bride and groom.

At six o'clock a most delicious supper was served. Congratulations were received thru out the day by telephone and cards which added to the joyous occasion.

The day was saddened by the youngest son being taken to the Aurora hospital for an appendicitis operation which was very successful. Since the anniversary day Mr. Kohley has been laid up at his home with a swollen limb, not able to leave his bed, but it is hoped that he will soon recover.

COW TESTER SEES VALUE OF PURE BRED DAIRY BULLS

Quincy, Ill., June 14, 1929.—While doing testing work in Wisconsin I tested two herds which brought out very plainly the contrast between a few years breeding with a good pure bred sire and a few years breeding with a scrub sire.

Two dairymen who started with the same breed of cattle had been in the dairy business for practically ten years. One of these dairymen started with a purebred sire, while the other was content to use nothing better than a scrub sire. Even tho the one who used the scrub sire was a fairly good feeder his cows in the testing association only averaged 450 pounds of milk per cow per month, while the one who used a purebred sire had an average of over 1200 pounds of milk per cow per month.

Another most vivid contrast was in a herd where a grade sire had been kept, but was disposed of and a good purebred was purchased. The first five months after freshening, six daughters of the grade sire only averaged twenty-six pounds of butter fat per month, while five daughters of the purebred sire averaged slightly over forty pounds. The mothers of these cows were fairly good producers, averaging thirty-two pounds of butter fat for the same length of time. The production of the daughters of the grade sire fell below that of their mothers, while the daughters of the purebred sire increased in production over their mothers.

If the average dairyman would pay as much accordingly for a good sire as he readily does for a good milk cow his success in dairying would be certain. He who has a purebred sire takes a better interest in his work. He will soon have a herd that is capable of large production, and when he has surplus stock it can easily be disposed of. Buy a good purebred dairy bull.

How to Rewind a Curtain Spring. Do you know that when the spring in the window shade is loosened, all you have to do is to pull the shade down its entire length, take it out of the fixtures, roll it up smoothly, put it back in the fixtures, and it will have its original spring? How many wire hairpins have you twisted trying to rewind a curtain spring?

EDWARD SAMUELS, EX-SERVICE MAN, IN MUCH TROUBLE

"Shell Shocked" Vet of World War Again Shocked by Two Revolver Shots.

Edward Samuels, an ex-service man supposedly suffering from shell shock, has gotten himself into much trouble hereabouts during the past six months. Apparently his mental condition has caused him to have a penchant for stealing.

Six months ago he was sent to the county jail at Wheaton for stealing at the Edward Sanatorium. He escaped from Wheaton but was recaptured and sent to the State hospital at Elgin for treatment. He got away from Elgin and returned to Naperville last Saturday.

Here again he visited the Edward Sanatorium where his thieving habit was exercised and escape was made to Aurora. Returning Monday he went to Friedrich's Furniture store and wanted to make a purchase and while Mr. Friedrich was out of the room rifled the cash register, taking \$22.00.

He was apprehended by Chief of Police Fairbanks and on the way to the city jail was allowed to walk ahead of the chief. Samuels saw a chance for another get away and he started to run, with the chief a close second. Refusal to halt was followed by two shots from Fairbank's "gat" and the fugitive doubled up—the whizzing bullets did their deadly work. No, he was not killed, just scared stiff. Being unappreciative, Samuels was given no more consideration and wore a pair of steel wristlets to the city strong box and on Tuesday morning was taken back to the Elgin State hospital.—Naperville Clarion.

DEVELOPING PROPERTY ON BELLEVUE MOUNTAIN

W. J. Baker, who was one of the organizers of the Metals Mining and Leasing company, has located a claim on Bellevue mountain.

The property is 300 feet by 1500 feet in area and fourteen veins are cut by the Big Five tunnel. Surface work on the shaft has been started. The vein matter has been opened up 36 inches and assays show a very fine mineral. Mr. Baker is giving the property his personal attention. Work in the Big Five tunnel will be started soon.

Mr. and Mrs. Baker and daughter Virginia, are residing with the Avey's. They are from Chicago. —Idaho Springs (Idaho.)

The W. H. Baker referred to is Walter, the son of Fred Baker, the local jeweler. He will be remembered by many local people as he made his home here several years ago.
