BLUEBIRD REBEKAH LODGE INSTITUTED SATURDAY

(Continued from Page 1)

to choose their appointive officers, which were announced as follows:

The election of Trustees and appointment of committees and other work connected with the starting of a new lodge will be taken up at the first regular meeting which will probably be the first Tuesday in August. The lodge meets the first and third Tuesdays of each month at the Odd Fellow hall, corner Main and Curtiss streets.

Mrs. Eager was presented with the charter, gavel and other properties entrusted to her care and Mrs. Reilin relinquished the chair to the Noble Grand of Bluebird Rebekah Lodge No. 147, who took the reins and after a short acceptance speech, proceeded immediately to close the lodge and the ceremonies of a long to be remembered and highly enjoyable evening.

The supper and program were arranged by the local Odd Fellows under the direction of the Booster Club, Walter H. Rogers, chairman. They wish to thank the following ladies, who offered their services gratis and who planned, made and served the supper: Mrs. J. W. Brown, Mrs. W. H. Rogers, Mrs. F. W. Harper, Mrs. H. B. Rigsbee and Mrs. A. Modjeska, also all the other ladies, too numerous to mention, who so kindly assisted the Odd Fellows.

That the Rebekah Lodge will be a thriving institution there is no doubt. The officers elected are, with few exceptions, experienced in lodge work, and have already given intimations of being good leaders and hard workers, the perfect combination for success. The addition of this lodge fills a long felt want in Odd Fellow-

ship in the village and should make its work noticeable in a short time.

The charter will be open until the first of September. Those who signed the charter but were unable to attend Saturday evening will have an opportunity to join before the above date and attain the distinction of being charter members. The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

Grain Quickly Ripened in Norway.
It is a curious fact that grains ripen earlier in Norway than in the south of Europe, an advantage due to the long days and short nights of the summer in the north.
