P-T ASSN. FAVORS PROPOSED COMMUNITY HIGH SCHOOL

Passed Resolutions to that Effect at Special Meeting Monday Evening.

Resolutions favoring the proposed Community High School were introduced at a special meeting of the Parent-Teacher Association held at the high school on Monday evening, by F. N. Davis and were passed without a dissenting vote.

The introduction of the resolutions was the signal for a round table discussion in which almost everyone had something to say.

Suggestions were many for the proper campaign of education to see that the election would be favorable. F. N. Davis was appointed chairman of a committee to further the project. He named Mrs. Paine. M. W. Mills and the Rev. H. M. MacWhorter as members of the committee.

Mrs. B. H. Fleming, First Vice-President of the Association, presided. One of the reasons for calling the meeting was to select a nominating committee to fill her place as she will leave soon for her new home in Oklahoma. Mrs. A. R. Whitehorn was appointed as chairman of this committee with instructions to choose the other members.

Mrs. C. B. Reed, Mrs. McClure and Miss Herring were appointed as a committee to secure the best of rooming and boarding places for the teachers who will be coming to the village about the first of September for the year's term.

Mrs. Rumbaugh was appointed as chairman of the reception committee which is to meet the teaching staff as soon as possible, welcome them to the community and do for them all in their power.

Ending the evening was a motion picture, a Ford Weekly, showing a model high school in a rural section of the United States. The picture was shown by H. S. Dum in furthering the Community High School proposition.

STRESSES EDUCATION — NOT TAXATION IN LETTER

Al. Modjeska Says Too Much Thought Given to Financial Part of School Campaign.

Editor, Downers Grove Reporter: I have read with interest of the coming election on Saturday, July 31, on the Community High School which has a little opposition and would like to state through The Reporter that those who are going to vote against it are people who are totally ignorant or selfish, and are obstructing education, and they will be assured that when the ballots are counted, they will find the Community High School a reality.

When that glorious educational building is completed they will be the first ones to praise it.

We full well know that what every community in this grand, broad land of ours needs is schools and more schools. It was with pride that we used to hear that doctors, poets, musicians and artists all came from Europe—that was. What we want in Europe to say in a few short years that they all come from the United States. There is no doubt that some will find it a hardship in a few cases through taxation, but that can be overcome as the taxes will be but a few dollars and the sacrifice will be worth that.

For those that have vast holdings, so much the better, as I would rather pay taxes on one hundred acres than on five. This letter, dear Editor, was written with cool deliberation and without malice toward anyone, only as I feel towards the young boys and girls of today and the coming generation.

Trusting that all may have uppermost in their minds that through education the youth will become better men and women.

Sincerely yours, Al. Modjeska.

PUBLIC SANCTION

By H. F. C.

Everyone realizes that high prices have come to stay at least for some time to come and the trend of the times shows that the staples of life are higher than last year and much as this condition is to be regretted—facts are stubborn things. Staples, as well as ordinary necessities of life, must be bought by the employees in the Telephone Company as well as others in different walks of life.

This condition means that in every direction the Telephone Company is confronted with higher expenditures, a few cents more for this article, used in the telephone business, and a few dollars more for another, amounts up to hundreds of thousands of dollars.

The Telephone service is unfortunately, not built upon a gold mine. All the money it receives and pays away, and the greater part is paid away again, as soon as it is received, comes from rates.

The rates need adjusting for Telephone service in like manner to any other industry.

The public merchants supplying Telephone material can adjust prices without the sanction of the Telephone Company, but the Telephone Company, appreciated by the Utility, and will ingness on the part of its subscribers to adjust its rates.

An adjustment at this time will be appreciated by the Utility, and will be reflected in service and further facilities as time proceeds.

New Zealand.

Discovery of the Island of New Zealand is attributed to Tasman in 1642, but exploration did not take place until the time of Capt. James Cook, 150 years later, while colonization was delayed until 20 years before the American Civil War. Colonization resembled the settlement of the American colonies in that settlements were made in half a dozen places instead of being promoted from a central base, according to the usual British method.

Drink Water When Tired.

Dr. Eliza B. Mosher of Brooklyn urged the members of the Women's Medical Society of New York state to drink a glass of water at 10 a. m. and others at 3, 4 and 5 p. m. This, she told them, would dilute the products of fatigue which were entering the blood and causing that tired feeling.
