

NEWSY NOTES FROM LISLE AND BELMONT

Mr. and Mrs. Myer of Odell, Ill. spent the week end at the home of Mr. and Mrs. F. Haumesser. Mrs. Myer is a sister of Mrs. Haumesser.

Mr. and Mrs. Lester Rogers and daughter, Nancy, spent several days last week at Warwood Farm with Mr. Rogers.

A company of friends motored out from Chicago Sunday to spend the day with Mr. and Mrs. A. Laing and family.

Wednesday afternoon was an unusual afternoon at Lisle School for pupils and teachers as well. In the midst of the busy activities Miss Lola Riedy was summoned to her door by a gentle rap and there stood Mr. H. Hatch with a bushel basket laden with goodies for all the lower grades to enjoy in honor of the birthday of little Harley Hatch. Needless to say a regular party followed. The upper grade "just happened" to have planned a surprise for their teacher, Huguella Porter, the same day and as a result when she went to ring the first bell at recess time her desk was laden with fine cakes, candies and cookies. The rest of the afternoon was consequently spent playing games and enjoying the "eats." Both teachers are grateful for these kindnesses.

Mr. Reyne, who has lived in the community for several years on the Joy Morton farms, has returned to Holland to join his family, who went there about a year ago.

Mrs. A. True of LaGrange, spent the week end with her parents. Mr. and Mrs. Haumesser.

The dredge boat that is dredging out the river south of town filled with water through a leak and has sunk to the bottom of the river. The men are busy with pumps to get the water out so they can repair the leak and be able to finish up the dredging.

The Executive Committee and the Program Committee of the Lisle Community Club will meet at the church on Monday night at eight o'clock to arrange the meetings and program for the future meetings.

Remarkable Swimming Feats. Capt. Matthew Wells, in 1875, succeeded in swimming from Dover to Calais in 21 hours and 45 minutes. On September 5 and 6, 1911, Thomas William Burgess, an Englishman residing in Paris, swam from South-Foreland, England, to Le Chatelet, France. The time was 21 hours and 35 minutes.

Fact of First Requisite. Facts are the mind what food is to the body. The digestion of facts depends on the strength of the one, just as on the digestion of food depends the strength of the other. That man is wisest who has digested the largest amount of facts.

Safe Baby Carriage. The Mero mother is never troubled by the fear that her baby cough is out of fashion, for she never has one. She throws her children on her shoulder, one on each side, perhaps, and the youngsters cling to her hair.

Leather in Cow and Horse Hides. The hide of a cow represents thirty-five pounds of leather, and that of a horse a little more than half that amount.

Why Birds Never Fall. Birds cannot open the foot when the leg is bent; that is the reason they do not fall off their perches when asleep. If you watch a hen walking you will notice that it closes its toes as it raises the foot and opens them when it touches the ground.

Harding is Washington's Double

The above photographs showing the remarkable likeness of Senator Warren G. Harding, the Republican candidate for president, and George Washington, the first president of the United States, were published in a recent issue of the Boston Evening Transcript. The large picture in the oval and the smaller picture of Senator Harding on the right were made from the same photograph. The face has not been touched up in any way but merely framed in the Washington background and dress. The Boston Evening Transcript reproduced these pictures after receiving a number of letters calling attention to the similarity between the first president and Senator Harding. Reproduced by permission of the Boston Evening Transcript.
