ONE THAT EVENING TRAIN SERVICE

Never in the last ten years have we heard the number of kicks on any one thing as on the new time card issued by the "Q." Especially is this true regarding the service from Chicago immediately after five o'clock in the evening. November first traffic officials saw fit to run two trains thru the village which previous to this time stopped here and commuters are up in arms. The old 5:10, a train which since the majority of men made a fine run from Chicago and carried a majority of the local people whose work takes them to Chicago, is no more, as far as they are concerned. It goes thru Downers Grove like a bat out of that well known hades, and that's the reason for most of the kicks. A train now leaves at 5:12 which is supposed to carry all the folks who before took two trains and every evening the standing room only sign is prominently displayed. It is surely a shame that Burlington officials have seen fit to deprive Downers Grove people of a train they have been riding for years. They should be made to see the error of their ways, and again have the old 5:10 stop here instead of just rudely whistling as she goes thru.

NOVEMBER ELEVENTH

November Eleventh! Does that mean anything to you? It may not in the year 1920 but think back two years to that day in the fall of 1918 when official news was received that an armistice had been signed between the Allied and Central powers that that armistice was the end of the war. Do you remember, you people who were forced through one cause or another to stay at home? Do you remember the celebration that started early in the morning and continued until late at night? Do you remember the incessant ringing of the fire bells? Of course you do, now that it is recalled to your minds. Not an organization in the village, no collection of individuals had made plans for a proper observance of the day with one exception, the American Legion. The same thing holds true in a less measure throughout the United States. Everywhere it was the Legion or the Legion Auxiliary which remembered. Alexander Bradley Burras Post danced last evening in Library Hall. The individual members danced two years ago also, only at that time they danced not for pleasure, but for pure joy, tho' that joy was tinged with sadness when those of those who had made the supreme sacrifice arose. Then these boys were scattered all over the world, in camp, in trench, on battleship and cruiser, they were doing their bit for humanity. If there is no other reason for the formation of the Legion it is in this observance of Armistice Day. People, who do not actually take part

in a thing, soon forget it. Will the members of the Legion ever forget Armistice Day and the things it stands for? The suffering, the inadequate food, the shells, the death of their buddy, the longing for home? Will they ever forget these things? Nay, a thousand times, nay! Who kept alive the memories of the Civil War through Memorial Day? The Grand Army of the Republic. And when the last man of that brave army has passed beyond, the observance of the day will gradually lose its meaning. This is sad, but inevitable. People forget. Armistice Day would be remembered now with but a shrug of the shoulder by nine out of ten people were it not for the boys who actually took part in the horrible conflict it ended.

SUNDAY MOVIES

The action of the Village Council in passing an anti-Sunday movies ordinance Monday evening is almost certain to precipitate a referendum on the village. Just what the outcome of the vote will be is hard to forecast. That it will be close is a foregone conclusion. Certainly the ministers of the village will make a fight to keep the ordinance on the books. There are two sides to the question, as there are to almost every question regarding what is right and what is not right for Sundays. The fears that Sunday baseball and football would degenerate into rowdiness have proved groundless. Some of the people who worked the hardest against them are now regular attendants at the games. They have changed their opinion in the last two years and probably if Sunday movies were given a trial, they would change their minds on that score also. We hope that if a referendum does come the "electioneering" will be of a different calibre than that used during the Sunday baseball agitation. If you have anything to say regarding this proposition, say it thru the "Forum" on page six. Sign your name to the letter or it will find a resting place with many others, in the wastebasket.

Enjoyable Sensation.

Emily was tired one night and quite ready to go to bed. As she lay back on her little pillow she said, with a big sigh: "Oh, how I love to relax!"

MANY ATTENDED MILITARY MASS AT ST. JOSEPH'S

(Continued from Page One)

life finds itself communing with God. We today, in a humbler way, may say that we have died and live again. Before the great war our horizon was very limited. We were a provincial people. Our ideal was the efficiency of the machine. Gradually as the war progressed the eyes of our minds opened wider. We saw the machine was the symbol of destruction. We saw there was another kind of efficiency than that which enabled us to move our fingers with marvellous precision. The wide world became visible, and to our astonishment, we saw men.

And you, American soldiers and sailors, have died and live. You returned home and wanted nothing so much as rest. In the joy of your parents and friends you thought you had found rest. But in a little while the house was stifling. You wanted to move, to go somewhere. You went back to your work, but the old satisfaction in your work was gone. You could not understand yourselves. The explanation of your restlessness is this: your old selves are dead, and you are new men, strangers to your own selves.

Life can express itself more adequately. The discipline of the army taught you to control your will, the reason of discipline made you understand the power of mind, and with the will under control and that mighty element within you, the mind, directing, life can express itself better. This means that you are coming into your own as individuals. The human machine has passed away. You are restless, then, because your minds are opening wider and wider, you can see more clearly and distinctly than ever before, and the coming of the light has brought to your consciousness the desire to achieve, to stand on your own feet as men who have won.

For the possibility of realizing our desires we have the perfect example. Our Lord and Savior, Jesus Christ, the Source of life, indicated the way and then walked along it. To succeed in developing our individuality in making men of ourselves in order that our work may be esteemed worthy of remembrance, it is necessary to follow His footsteps. He is the great Personality that leads and gives.

Reason and experience assure me that life is indestructible, conscious of

thinking; I am convinced that my thro' is the result of the activity of a personal, individual mind, and believing in our Risen Lord I believe that the personal, individual living mind will live on everlastingly.

I salute thee, therefore, immortal spirits, who died wearing the uniform of American soldiers and sailors and now stand in the visible presence of our God. I beseech thee, immortal spirits, to ask our God to guide your comrades here in order that by righteously living and thinking they may become the great men of our nation. I ask thee, immortal spirits, to implore our God to bless our country in these troubled days, and to give us the peace which the world cannot give, the peace which comes from observance of Thy law. And last of all, immortal spirits, I ask thee to pray our good God to enable me to do my work as faithfully, as unselfishly, and as hopefully as you did yours.

YES—COUNTY OFFICERS WERE ALSO ELECTED

Republican Nominee Carried District by a Vote Almost "Unanimous."

It was not until our attention was called to the fact yesterday that we realized not a word was said in last week's Reporter regarding the outcome of the race for County officers.

DuPage County is normally a Republican county and the result is hardly ever in doubt. The county last Tuesday went back to "normal" so fast that the vote for the County Republican ticket was almost unanimous.

C. W. Reed of Naperville will be our next State's Attorney succeeding Chas. W. Hadley. William V. Hepf was re-elected Coroner and Arthur L. Webster to the job of County Surveyor.

One mailed vote was received in the Grove last Tuesday, the first in the annals of local elections. It was from Fred Gaeher who is now making his home in Des Moines, Iowa. County Clerk Kuhn brought it to the election board at Tucker's office in the morning.
