**Mouthpieces**  
THE mouthpiece is an important part of your telephone. When it is broken, the sound waves are imperfectly transmitted and the service suffers.  
In Chicago approximately 70,455 broken telephone mouthpieces have to be replaced yearly.  
Think of the labor and the material involved in replacing 70,455 broken mouthpieces in the offices, homes, factories and warehouses of the city.  
Careful handling of the telephone instrument avoids waste and faulty service.
